Your Garden Waste Collection Calendar

Garden waste
The garden waste collection service makes a significant contribution to Cheltenham’s recycling rate.

You can subscribe to the service by ordering and paying in advance for one year. For the duration of your subscription, you will be provided with a brown wheeled bin in which to store and present your garden waste for collection. The brown bin is emptied fortnightly.

THANKS a £Million!
Recycling and composting by Cheltenham residents saves almost £1 MILLION on landfill tax costs every year.

Collection dates over the Christmas period and Bank Holidays are subject to change. Please visit the website for more information.
