

# NO CHILD LEFT BEHIND

# NO CHILD LEFT BEHIND

A year of action that will:

- Highlight the issue of children growing up in poverty in Cheltenham and the inequality between them and their more affluent peers
- Start to address the inequality gap beginning with 12 month programme of events and activities
- Be a call to action for all sectors to work together to make transformational change over the longer-term

# Why?

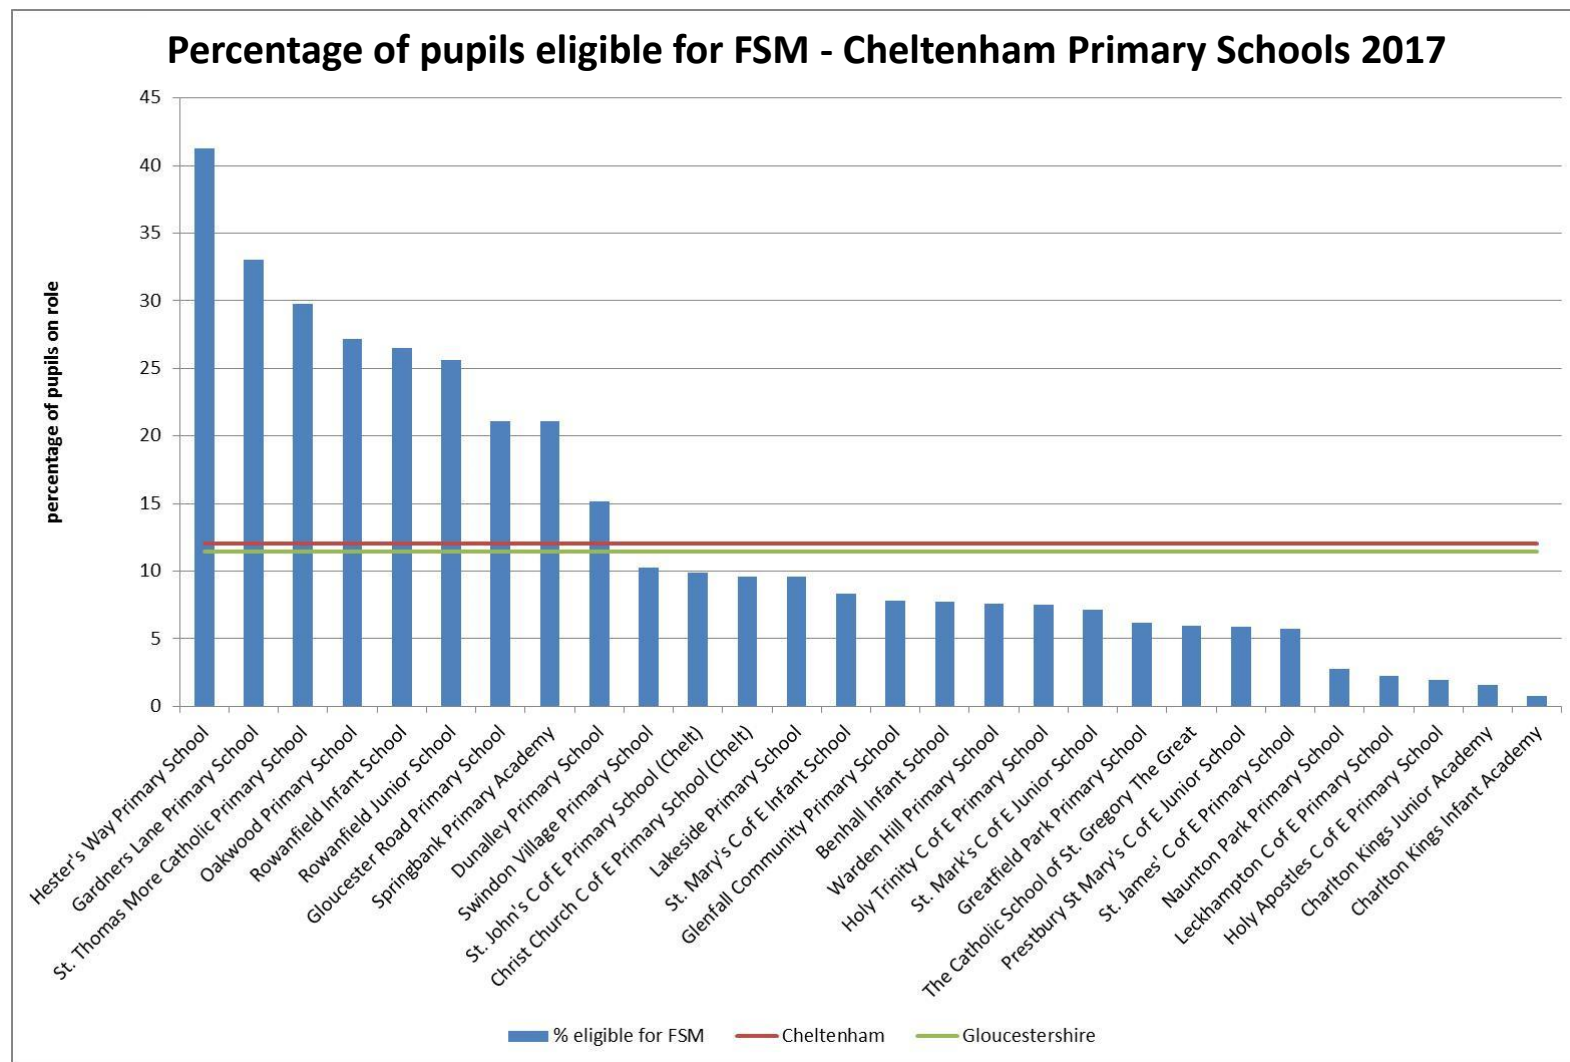

- Children's needs assessment produced by GCC's Data and Analysis Team
- Data analysed shows the extent of child poverty and how well our poorer children fare in relation to:
  - Their educational attainment
  - Their risk of being excluded
  - Their risk of being exposed to the toxic trio
  - Their risk of needing social care intervention
  - Their risk of being victims of crime
  - Their health and wellbeing
