

- LEGEND**
- Site boundary
 - Land in the control of applicant
 - Existing trees and woodland
 - Existing hedge retained
 - Trees and woodland removed
 - Proposed trees
 - Proposed woodland
 - Proposed specimen shrubs
 - Proposed hedge
 - Proposed amenity grass
 - Proposed long grass/ meadow
 - Proposed raised planters with clipped hedges
 - Proposed gateway water feature
 - Proposed paving/ gravel
 - Proposed feature wall
 - Proposed scrub/ ecological habitat rotationally coppiced when c.3m high

NOTE:
 1). based on Cooper Partnership drawing- 2784-02E -Illustrative Landscape Masterplan

① Woodland blocks managed by selective thinning, coppicing and replanting for greater species and age diversity.

② Woodland thinned to produce more open aspect to site; trees retained/ new planting to create parkland appearance with potential species diversity; woodland blocks linked by existing scrub supplemented with new planting to provide habitat link.

③ Existing hedge retained along North Road and supplemented by ground modelling with woodland planting.
