**Attachments:** EA socg. Signed version. 28.11.18.docx

Hi John, further to our conversation/s and to assist:

I would confirm that we have had positive recent conversations with your Council in your seeking to provide sufficient evidence to support the growth proposals of the Plan.

Whilst the concerns we have raised have not gone, we acknowledge that efforts are being proposed. At your request we are now presently collating data to assist.

Subject to confirmation we should be meeting in the first week of January, and welcome your proposed engagement of consultants Capita to work on both the SFRA and Water evidence and how challenges might be met to ensure certainty on deliverability and timescale.

Regards Justin
