

THE CHELTENHAM PLAN

Comment ID 59

Representor ID 393

It seems to me that Cheltenham Borough Council have done a very poor and deleterious job of drafting elements of the Cheltenham Plan and, at the hearing this morning (Wednesday 13th February 2019) I also found it quite concerning that some of the private individuals present were asked to submit draft wordings on behalf of CBC, due to the lack of clarity in what CBC has submitted. Cheltenham Borough Council Planning has staff whose responsibility it is to produce a comprehensive and sound plan based on the findings within the JCS. However, where it is evident that the plan is not clear or is not comprehensive, it is surely the responsibility of the paid members of the council rather than conscientious members of the public, to address and deal with these acknowledged shortfalls.
