Our Narrative Report

Cheltenham aspires to be a place where everyone thrives – to be one of the UK's most 'liveable' towns, with residents and visitors alike inspired by our **culture, food, public spaces, education** and the diversity and quality of **accessible experiences**.

It is not just Cheltenham Borough Council that feels so passionate about our local area. The town, which is located between the Cotswold Hills and the Severn Vale has a population of 118,800 (2021 Office for National Statistics), was voted the place to live in the South West 2020 by The Sunday Times with its education, culture and connectivity highlighted amongst its best attributes.

Cheltenham is no stranger to such accolades, having been voted by The Telegraph as the best place in the UK to raise a family in 2014. However, this latest recognition highlights why Cheltenham is fast becoming a destination for those wishing to enjoy the relaxation of countryside living without missing out on the culture of a big city.

In spite of these endorsements, the Council has not rested on their laurels and has a firm focus on the future, with the town's famous resident - the UK government's cyber hub GCHQ – at the heart of ambitious plans to establish Cheltenham as one of the world's cyber tech capitals. Plans for a new campus and cyber-tech community, Cyber Central – a 45 hectare site at the heart of the 200 hectare Golden Valley development to the west of the town and adjacent to the GCHQ site - are now accelerating under the leadership of Cheltenham Borough Council. In 2019, the land on which the site will be developed was bought by the Council for £37.5m seizing, as they see it, the once-in-a-lifetime opportunity to create a world-leading cyber-tech hub in Cheltenham, with the associated economic and social benefits this will bring. In February 2022, Cheltenham Borough Council and the delivery of the Golden Valley development were specifically referenced in the Government's National Cyber Strategy.

The commitment the Council has to the town has been clearly apparent in the response to the COVID-19 pandemic which resulted in a financial year unlike any other in 2020/21. The national restrictions which were in place, across the country or locally here in Cheltenham, created a huge amount of financial uncertainty which continued in 2021/22. With the emergence of the Omicron variant over the winter, the uncertainty continued to impact customer behaviour which had a financial impact on our commercial income and on the town's economy. Only at the point that changes to customer behaviour and the way our services are accessed has started to be understood, we are now faced with the most significant cost of living crisis in a generation.

The long term financial impact on the council will continue to be closely monitored and reported throughout 2022/23 and beyond to ensure the Council has robust arrangements in place to respond to any future impacts on our funding or resource requirements.

Who are Cheltenham Borough Council?

The Council are the decision making body at Cheltenham Borough Council. Local Councillors are elected by the community to decide how the council should carry out its various activities. They represent public interest as well as individuals living within the ward in which he or she has been elected to serve a term of office. They have regular contact with the general public through council meetings, telephone calls and some Councillors may hold surgeries. Surgeries provide an opportunity for any ward resident to go and talk to their Councillor face

to face.

The council has 40 elected members representing twenty wards within the Cheltenham Borough. There are also five parish councils within the borough. Elections are held every two years, when 50% of the seats are offered for re-election. The most recent election was held in May 2022.

The political make-up of Cheltenham Borough Council at 31 March 2022 was:

Liberal Democrat Party	32 councillors
Conservative Party	6 councillors
People Against Bureaucracy Party	2 councillors

The Liberal Democrat group therefore had an overall majority on the Borough Council for this period.

Supporting the work of councillors is the organisational structure of the council, headed by the Executive Leadership team, led by the Chief Executive. This position is held by Mr Gareth Edmundson. During 2021/22 the Executive comprised of the Chief Executive and three Executive Directors, one of whom is also the statutory section 151 officer, Mr Paul Jones. The statutory role of monitoring officer / borough solicitor to the council was held by Ms Sara Freckleton until September 2021 when Mr Howard Norris was appointed as Interim Monitoring Officer.

Who has overall responsibility at Cheltenham Borough Council?

Cheltenham has adopted the Leader and Cabinet model as its political management structure arising from the Local Government and Public Involvement in Health Act 2007. The Leader of the Council has responsibility for the appointment of Members of the Cabinet, the allocation of Portfolios and the delegation of Executive Functions. Cabinet Members are held to account by a system of scrutiny which is set out in the Constitution.

In 2021/22, the Cabinet consisted of the Leader, a Deputy Leader and a Cabinet of seven Members as follows:

Leader of the Council	Councillor Rowena Hay
Deputy Leader of the Council and Cabinet Member for Finance and Assets	Councillor Peter Jeffries
Cabinet Member for Housing	Councillor Mike Collins
Cabinet Member for Safety and Communities	Councillor Flo Clucas
Cabinet Member for Waste, Recycling and Street Services	Councillor Iain Dobie
Cabinet Member for Customer and Regulatory Services	Councillor Martin Horwood
Cabinet Member Cyber and Strategic Transport	Councillor Andrew McKinlay
Cabinet Member for the Climate Emergency	Councillor Max Wilkinson
Cabinet Member for Culture, Wellbeing and Business	Councillor Victoria Atherstone

When major decisions are to be discussed or made, these are published in the Cabinet's Forward Plan in so far ahead as they can be anticipated. If these decisions are to be discussed with council officers at a meeting of the Cabinet, this will generally be open for the public to

attend except where personal or confidential matters are being discussed.

Supporting the work of councillors is the organisational structure of the council, Members of the council also nominate a Councillor each year to take on the roles of mayor and deputy mayor.

The Mayor and Deputy Mayor for 2021/22 were:

Mayor	Councillor Steve Harvey
Deputy Mayor	Councillor Sandra Holliday

Full details of all the council's committees, including chairs and membership can be found on the council's website at www.cheltenham.gov.uk.

Our vision for Cheltenham and ambitions for recovery

Our place vision

Cheltenham is a place that has thrived through centuries of change. It is a place we are proud of and passionate about, and we are committed to helping it grow and prosper in years to come.

Covid-19 has tested Cheltenham's communities and economy over the last two years. As a Council, we have recognised in our Covid-19 Recovery Strategy and Medium Term Financial Plan that rebuilding the strength of our town will require both innovation, ambition and a bold vision. To respond to this the Council will need to be agile in the way it responds and how it works with stakeholders and potential investors.

Our vision for Cheltenham is simply: *"We want Cheltenham to be a place where everybody thrives."* To achieve this vision, the place strategy action plan aims to deliver on the following outcomes:

- to protect and enhance the built heritage and green spaces that have shaped the unique character of the town;
- to create the conditions in which businesses can thrive, innovate and provide good quality jobs;
- to make the town a world-class cultural and learning centre which is outward-looking and welcoming to visitors;
- to build strong, safe and healthy communities for residents and their families; and
- to facilitate the provision of a wide-range of sustainable travel options and to accept our responsibility to present and future generations to live within environmentally sustainable limits.

In order that we can lead the economic recovery of our town and manage the challenges of the most significant cost of living crisis in a generation, we will continue to invest in Cheltenham for the benefit of Cheltenham both in terms of sustainable Council finances, but also in terms of the way we invest commercially and for regeneration.

Our corporate priorities

The 2019-2023 Corporate Plan outlines our strategic priorities for Cheltenham, what we have chosen to focus on and why we think these are important for our town. The table below outlines our priorities and how we have invested in their achievement over the past twelve months:

<p>Priority One – making Cheltenham the Cyber Capital of the UK; a national first, which will deliver investment in homes, jobs, infrastructure and enable the Council to deliver inclusive growth for our communities.</p>	<ul style="list-style-type: none"> • At the end of August 2019, we completed the purchase of 112 acres of strategically important land for £37.5m which forms part of the Cyber Central Golden Valley development. During 2021/22, Henry Boot Developers and Factoryx were appointed as the Lead Developer on the project and pre planning applications are currently being drawn up. • In July 2021, Cabinet approved a proposal for an investment of up to £1.995m to support the creation of the MX exchange, a tier 2 growth hub and incubation unit for cyber tech companies which has been delivered through 2020/21 to open in autumn 2022. • In February 2021, approval was granted by Tewksbury Borough Council's planning committee for the closure of a runway at Gloucestershire Airport to build a business park and a new access road. The creation of the business park nearby to the Golden Valley development will create jobs, infrastructure and vital economic links in the area. In order to fulfil this vision, the Council has committed £7.75m to provide a loan to the Airport to fund the delivery of this project. The first instalment was drawn down at the end of 2021/22.
<p>Priority Two – Continue the revitalisation of the town ensuring its longer-term viability as a retail and cultural destination</p>	<ul style="list-style-type: none"> • In 2020/21 we set aside £1m to invest in our cultural buildings and enhance the arts and leisure offer that the Cheltenham Trust provides in the town. This will provide opportunities for local artists and support the recovery of the town by providing destination venues, driving footfall of visitors to the town and increasing community engagement with the arts. In July 2022, the Wilson Art Gallery re-opened following a refurbishment to become the cultural hub in the town. • We have purchased retail premises to support the ongoing economic development of the town. In 2019/20 investment of £40.673m was made for the purposes of revitalising the town and this property was valued at £66.415m by 31 March 2022. We have also invested in the revitalisation of the high street, complemented by the flagship concept store opening for John Lewis, and the redevelopment of the Brewery Quarter.
<p>Priority Three – Achieving a cleaner and greener sustainable environment for residents, businesses and visitors</p>	<ul style="list-style-type: none"> • In 2020/21 approval was granted to recruit two climate change officers to develop and support our response following the declaration of a climate emergency in 2019. These officers are permanent members of staff tasked with driving forward our strategy in response to the increasing risks to the environment. The original budget was further strengthened in 2021/22 by an additional contribution of £50k from the HRA. • In January 2020, Cheltenham Borough Council and Vision 21's Climate Conferences for businesses and community organisations was held for the first time. A total of 109 participants, two facilitators and eight group leads plus a keynote address from professor Rebecca Willis spoke about creating a partnership for Cheltenham that will help Cheltenham Borough Council and the rest of us to achieve Net Zero by 2030. • We successfully secured £382k of capital funding from the Government's Public Sector Decarbonisation Scheme which will be combined with our existing £300k budget to begin the delivery of the Net Zero target.

Priority Four – Increasing the supply of housing and investing to build resilient communities	<p>Our Housing Investment Plan has committed £100m to fund mixed tenure housing in the private rented sector and £80m to fund affordable housing. The purpose of these investments is to shape sustainable and resilient communities and allow residents secure homes in which they and their families can thrive.</p> <p>The Council will continue to work with the private sector to utilise redundant assets and vacant land to bring them into a useful economic purpose to facilitate regeneration and employment creation.</p>
Priority Five – Delivering Services that meet the needs of our communities	<p>Throughout 2021/22 we have continued to invest our own resources as well as utilising Government grant money to support businesses, communities and residents in Cheltenham through the pandemic. Services delivered include, but are not limited to:</p> <ul style="list-style-type: none"> • Over £100m of grants distributed to local businesses impacted by the national restrictions; • Meals on wheels service for older residents; • Purchasing and re-distributing laptops for children who are remote learning; • Increased flexibility in the planning and licencing restrictions to allow businesses to operate as we exited restrictions; and • The distribution of £100k of Community Resilience grants for initiatives to support those in the town most acutely impacted by the pandemic.

Working with partners

The council puts a strong focus on working together with partners across the Cheltenham family to deliver on these and other joint outcomes for our residents, communities, staff and service users. Among these are:

- Cheltenham Borough Homes Limited – our Arm's Length Management Organisation responsible for managing our social housing stock and leading the delivery of housing provision in our town;
- Ubico Limited – a company jointly owned by Cheltenham and seven other Local Authorities responsible for delivering environmental services across Gloucestershire;
- The Cheltenham Trust - an independent charitable trust, contracted to supply leisure and cultural related services to Cheltenham Borough Council via a management agreement;
- The Cheltenham Business Improvement District - delivers a range of projects that benefit businesses in the town centre, including the High Street, The Promenade, Montpellier and The Brewery Quarter;
- One Legal – the shared legal service between Cheltenham, Tewkesbury, Gloucester City and Stroud District Councils;
- Publica Group Limited – a company owned jointly by Cheltenham and three other District councils to provide shared services from a common platform; and
- South West Audit Partnership – a company operating across the South West region commissioned to provide our internal audit services.

Introduction to the financial statements

The purpose of this narrative report is to provide an explanation of the council's financial performance and position for 2021/22 and assist in the interpretation of the accounting statements, including the Group Accounts. The statements should inform readers of the cost of services provided by the council in the year 2021/22 and the council's assets and liabilities at the year end.

The accounts for the year ending 31 March 2022 have been prepared and published in accordance with the Code of Practice on Local Authority Accounting in the United Kingdom 2021/22 (the Code), published by the Chartered Institute of Public Finance and Accountancy (CIPFA). This incorporates International Financial Reporting Standards (IFRSs), ensuring the accounts are compliant with these standards. The following main statements and notes are included:

Statement of Responsibilities for the Statement of Accounts	Sets out the respective responsibilities of the council and the Section 151 Officer for the accounts.
Statement of Accounting Policies (note 1 to the notes to the accounts)	This explains the basis for the recognition, measurement and disclosure of transactions and other events in the accounts. It includes the basis of charges to revenue and the calculation of items in the Balance Sheet.
Comprehensive Income and Expenditure Statement supported by the Expenditure and Funding Analysis note	The Comprehensive Income and Expenditure Statement shows the cost in the year of providing services, in accordance with generally accepted accounting practices. The Expenditure and Funding Analysis reconciles this to the amount chargeable to General Fund and Housing Revenue Account reserves in the year.
Balance Sheet	This summarises the overall financial position of the council at the year end, showing its assets, liabilities and reserves.
Movement in Reserves Statement	This details the movement in the council's reserves during the year.
Cash Flow Statement	This summarises the inflows and outflows of cash arising from transactions with third parties for revenue and capital purposes.
Group Accounts	These bring together the accounts of Cheltenham Borough Council, Cheltenham Borough Homes Limited and the council's share of the net assets of Gloucestershire Airport Limited.
Housing Revenue Account (HRA)	A separate account, required by law, which shows income and expenditure associated with the provision of council housing.
Collection Fund	Reflects the statutory requirement to maintain a separate account showing transactions in relation to non-domestic (business) rates and council tax, indicating how the amounts collected are distributed to the Government, Gloucestershire County Council, Gloucestershire Police and Crime Commissioner and Cheltenham Borough Council.
Annual Governance Statement	This sets out how the council is meeting its obligations and the improvements it intends to make to its systems of internal control and corporate governance arrangements.

These accounts are supported by notes to the accounts and a glossary of terms to provide readers with further information.

THE COUNCIL'S FINANCIAL PERFORMANCE IN THE YEAR AND ITS POSITION AT THE YEAR END

General Fund Revenue Budget

On 21 February 2021, Council approved the budget for 2021/22, including setting the Council Tax. The 2021/22 approved budget identified efficiency savings and additional income of £0.4m.

Following the end of the Government's Income Compensation on 30 June 2021, income generated from fees and charges recovered slower than anticipated and in October 2021 a budget monitoring report was presented to Council which forecast an overspend of £1,044k against the budget approved in February 2021. Of this overspend, £817k related to income streams such as car parking forecasted to be significantly below budgeted levels.

Action was taken by Officers and Members to implement a savings strategy in the 2022/23 Medium Term Financial Strategy which reduced the council's reliance on some of these income streams and provide greater stability in post pandemic years. During this time, and due to initiatives such as the Christmas events hosted by the council and the Cheltenham BID over the winter, income began to recover and at February 2022 the revised budget reported the overspend reducing to £556k. The outturn position at 31 March 2022 is an under spend of £505,727 against the revised budget approved by Full Council on 21 February 2022.

At the point that changes to customer behaviour and the way our services are accessed began to be understood, we are now faced with the most significant cost of living crisis in a generation. Since the 2021/22 revised budget was presented, inflation has increased from 6.2% to 9.1% and interest rates have been subject to three Bank of England increases.

These pressures are in addition to the £1.507m of savings which were approved by Full Council as part of the 2022/23 budget and pose a once in a generation challenge to officers and members in order that the council can continue to deliver our core services for residents and communities.

REVENUE OUTTURN 2021/22		Current Budget 2021/22 £	Actual 2021/22 £	(Under)/Overspend 2021/22 £

STATEMENT OF ACCOUNTS 2021/22

(i) Includes Strategic Management, Democratic Services, Elections

(ii) Includes Property & Assets, Treasury Management, Pensions backfunding

(iii) Includes Housing Benefits, Revenues (council tax and business rates collection), Community Engagement, Commissioning & Modernisation

(ii) Includes Building and Development control, Planning & housing enabling, Car parking, Bereavement services, Parks & Gardens, Public Protection

Housing Revenue Account (HRA)

The HRA generated a surplus in the year of £2.700m and there was an increase of £823,684 in the HRA balance. Full details of the Housing Revenue Account activity for the year are provided on pages 104 to 108.

Capital Expenditure

In 2021/22 the council spent £22.25m million on capital projects, grants and loans, across the general fund and the Housing Revenue Account capital programmes. Key expenditure on capital schemes include:-

	£ '000
Property improvements and major repairs	6,387
New build homes and developments	7,062
Loan to Gloucestershire Airport for runway repairs	2,300
Delivery of the Minster Innovation Exchange	3,607

The council plans to continue to fund capital from a range of sources including revenue reserves, developer contributions and capital receipts, and will make further use of prudential borrowing to support the council's major capital schemes where it is both prudent and affordable.

Cash Management

Throughout 2021/22, the Council has continued to manage its cash flows, investments and borrowings to ensure sufficient resources were available to meet our commitments. The Council's strategy was to maintain borrowing and investments below their underlying levels, sometimes known as internal borrowing, in order to reduce risk and keep interest costs low.

As such, short term investments and borrowing are used to ensure strong returns whilst also balancing the availability of cash, particularly during the pandemic when there was greater uncertainty about potential commitments.

Significant Liabilities

The Council's pension liability decreased during 2021/22 by £10.323m from £53.691m to £43.368m. This is due to investment returns being greater than expected when compared to the discount rate applied in the prior year. This is also complemented by the Council's strategy implemented in 2020/21 to make an upfront payment of secondary employer pension contributions, providing greater value for the treasury management activity.

Reserves and Balances

In assessing the adequacy of reserves and balances for 2021/22 the Section 151 Officer used a risk based approach to assess the appropriate level of general balances which calculated the optimum level to be £1.416m. At the year end, the General Fund Balance stands at £1.621m and therefore is above the optimum level recommended by the Section 151 Officer at year end, particularly considering the impact of the pressures experienced through 2021/22 as the economy re-opened and we began the recovery from the

pandemic.

Accepting that the long-term impact from COVID-19 could leave the Council exposed without clear decision-making in delivering a balanced budget, action has been taken in the 2022/23 budget to increase the robustness of the reserves through a transfer of £2.189m to general balances.

With the cost of living emergency increasing financial pressures on the Council, as part of this outturn the Deputy Section 151 Officer has re-assessed the optimum level of general balances to be £3.256m. This assessment includes new assumptions for increase in inflation, pay and energy, interest rates, and savings delivery. Although our forecast general balance is above this level, this only provides a contingency of 14% against these assumptions.

Members will need to be mindful that there may be an expectation to further strengthen these reserves in order that the Council is robustly covered against further financial pressures which may emerge through recovery or future changes to local government financial support. With diminishing central government support in the form of direct grant and New Homes Bonus, uncertainty over the long term impact of the cost of living crisis, and the impact on individual's ability to pay council tax or business rates, it may be the case that that some difficult choices need to be made in respect of service provision.

Changes in accounting policies and estimates

The council has reviewed its accounting policies during the year and revised them as necessary in accordance with the 2021/22 Code of Practice in Local Authority Accounting. The policies are detailed in note 1 to the accounts (pages 17 to 35) and any changes in accounting policies are detailed in note 2 on page 36.

FURTHER INFORMATION

Further information about the accounts is available from the Executive Director (Finance & Assets), Cheltenham Borough Council, Municipal Offices, Promenade, Cheltenham GL50 9SA. This is part of the council's policy of providing full information about the council's affairs.

In addition interested members of the public have a statutory right to inspect the accounts during a 'period for the exercise of public rights' before the audit is completed. The accounts are available for inspection by appointment between 1 August 2022 and 9 September 2022 at the Municipal Offices, and local government electors for the area could exercise their rights to question the auditor about, or make objections to the accounts for the year ended 31 March 2022, in writing, during this period.

PAUL JONES FCPFA
EXECUTIVE DIRECTOR – FINANCE & ASSETS

STATEMENT OF RESPONSIBILITIES FOR THE STATEMENT OF ACCOUNTS

THE COUNCIL'S RESPONSIBILITIES:

The council is required:

- to make arrangements for the proper administration of its financial affairs and to ensure that one of its officers has the responsibility for the administration of those affairs. In this council, that officer is the Executive Director Finance & Assets, who also undertakes the role of the Section 151 Officer.
- to manage its affairs to secure economic, efficient and effective use of resources and safeguard its assets.
- to approve the Statement of Accounts.

THE SECTION 151 OFFICER'S RESPONSIBILITIES:

The Section 151 Officer is responsible for the preparation of the council's Statement of Accounts in accordance with proper practices as set out in the CIPFA/LASAAC Code of Practice on Local Council Accounting in the United Kingdom (the Code).

In preparing the Statement of Accounts, the Section 151 Officer has:

- selected suitable accounting policies and then applied them consistently.
- made judgements and estimates that were reasonable and prudent.
- complied with the Code of Practice.

The Section 151 Officer has also:

- kept proper accounting records which were up to date
- taken reasonable steps for the prevention and detection of fraud and other irregularities.

CERTIFICATE OF SECTION 151 OFFICER

I certify that the Statement of Accounts on pages 13 to 115 gives a true and fair view of the financial position of the council at the reporting date and its income and expenditure for the year ended 31 March 2022.

PAUL JONES FCPFA
3 OCTOBER 2023
EXECUTIVE DIRECTOR – FINANCE & ASSETS (SECTION 151 OFFICER)

STATEMENT OF ACCOUNTS 2021/22

COMPREHENSIVE INCOME AND EXPENDITURE STATEMENT

This statement shows the cost in the year of providing services in accordance with generally accepted accounting practices, rather than the amount to be funded from taxation. Authorities raise taxation to cover expenditure in accordance with regulations, and this may be different from the accounting cost. The taxation position is shown both in the Expenditure & Funding Analysis and in the Movement in Reserves Statement.

Gross expenditure £'000	2020/21 Gross income £'000	Net expenditure £'000		Gross expenditure £'000	2021/22 Gross income £'000	Net expenditure £'000

		(11,889)	Total Comprehensive (Income) and Expenditure			(32,709)

The notes are shown on pages 17-88.

STATEMENT OF ACCOUNTS 2021/22

BALANCE SHEET

This statement shows the value as at the balance sheet date of the assets and liabilities recognised by the council. The net assets of the council (assets less liabilities) are matched by the reserves held by the council. Reserves are reported in two categories. The first category is usable reserves i.e. those reserves that the council may use to provide services, these being subject to the need to maintain a prudent level and constrained by statutory limitations on their use (for example the Capital Receipts Reserve may only be used to fund capital expenditure or repay debt).

The second category of reserves comprises those that the council is not able to use to provide services. This includes those that hold unrealised gains and losses (for example the revaluation reserve), where amounts only become available to provide services if the assets are sold, and those that hold timing differences which are shown in the Movements in Reserves Statement Line 'Adjustments between accounting basis and funding basis under the regulations.'

31 March 2021	Note	31 March 2022
£'000		£'000
435,747 Property, Plant & Equipment	19	457,382
41,840 Heritage Assets	20	41,932

STATEMENT OF ACCOUNTS 2021/22

MOVEMENT IN RESERVES STATEMENT

This statement shows the movement in the year of the different reserves held by the council, analysed into 'usable reserves' (i.e. those that can be applied to fund expenditure or reduce local taxation) and unusable reserves.

The statement shows how the movements in year of the council's reserves are broken down between gains and losses incurred in accordance with generally accepted accounting practices and the statutory adjustments required to return the amounts chargeable to council tax (or rents) for the year. The net increase or decrease line shows the statutory general fund balance and Housing Revenue Account balance movements in the year following those adjustments.

	General Fund Balance £'000	Earmarked General Fund Reserves £'000	Total General Fund £'000	Housing Revenue Account £'000	Capital Receipts Reserve £'000	Major Repairs Reserve £'000	Capital Grants Unapplied £'000	Total Usable Reserves £'000	Unusable Reserves £'000	Total Reserves £'000

CASH FLOW STATEMENT

The cash flow statement shows the changes in cash and cash equivalents of the council during the reporting period. The statement shows how the council generates and uses cash by classifying cash flows as operating, investing and financing activities. The amount of net cash flows arising from operating activities is a key indicator of the extent to which operations of the council are funded by way of taxation and grant income or from the recipients of services provided by the council. Investing activities represent the extent to which cash flows have been made for resources which are intended to contribute to the council's future service delivery. Cash flows arising from financing activities are useful in predicting claims on future cash flows by providers of capital (i.e. borrowing) to the council.

2020/21 £'000		2021/22 £'000
(2,221)	Net (surplus) or deficit on the provision of services	(4,807)
(29,542)	Adjust net surplus or deficit on the provision of services for non-cash movements (note 35)	2,727
2,446	Adjust for items in the net surplus or deficit on the provision of services that are investing or financing activities (note 35)	2,810
(29,317)	Cash (inflows) / outflows generated from operating activities	730
9,002	Investing activities (note 36)	16,144
35,283	Financing activities (note 37)	(20,436)
14,968	Net (increase) / decrease in cash and cash equivalents	(3,562)
21,169	Cash and cash equivalents at beginning of the year	6,201
6,201	Cash and cash equivalents at end of the year (note 28)	9,763
(14,968)	Net increase / (decrease) in cash and cash equivalents	3,562

The notes are shown on pages 17-88

NOTES TO THE ACCOUNTS

1. ACCOUNTING POLICIES

1.1 GENERAL PRINCIPLES

The Statement of Accounts summarises the council's transactions for the financial year and its position at the end of the financial year. The council is required to prepare an annual Statement of Accounts by the Accounts and Audit (England) Regulations 2015 (as amended), which require the accounts to be prepared in accordance with proper accounting practices. These practices primarily comprise the CIPFA/LASAAC Code of Practice on Local Government Accounting in the United Kingdom 2021/22 (The Code) supported by International Financial Reporting Standards (IFRS's), International Accounting Standards (IAS's) and statutory guidance.

The accounting convention adopted by the Statement of Accounts is principally historic cost, modified by the revaluation of certain categories of non-current assets and financial instruments.

The accounting policies of the council have as far as possible been developed to ensure that the accounts are understandable, relevant, free from material error or misstatement, reliable and comparable.

1.2 ACCOUNTING CONCEPTS

Except where specified in the Code, or in specific legislative requirements, it is the council's responsibility to select and regularly review its accounting policies, as appropriate.

These accounts are prepared in accordance with a number of fundamental accounting principles:

- Relevance
- Reliability
- Comparability
- Materiality

Additionally three further concepts play a pervasive role in the selection and application of accounting policies:

Accruals of Income and Expenditure

The financial statements, other than the cash flow statement, are prepared on an accruals basis, i.e. transactions are reflected in the accounts in the year in which the activity to which they relate takes place, not simply when cash payments are made or received. In particular:

- Fees, charges and rents due from customers are accounted for as income at the date the council provides the relevant goods or services, in accordance with the performance obligations in the contract and IFRS15 Revenue Contracts with Customers. These are fees and charges such as car parking fees, bereavement services fees, planning applications and building control fees.
- Expenses in relation to services received (including services provided by employees) are recorded as expenditure when the services are received rather than when payments are made.
- Interest payable on borrowings and receivable on investments is accounted for on the basis

of the effective interest rate for the relevant financial instrument rather than the cash flows fixed or determined by the contract.

- Where income and expenditure has been recognised but cash has not been received or paid, a debtor or creditor for the relevant amount is recorded in the Balance Sheet. Where it is doubtful that debts will be settled, the balance of debtors is written down and a charge made to revenue for the income that might not be collected.
- All income and expenditure is credited and charged to the Comprehensive Income and Expenditure Statement, unless it comprises capital receipts or capital expenditure.

Going Concern

The accounts are prepared on the assumption that the council will continue its operations for the foreseeable future. This means in particular that the Comprehensive Income and Expenditure Statement and Balance Sheet assume no intention to significantly curtail the scale of operations.

Primacy of legislative requirements

The council derives its powers from statute and its financial and accounting framework is closely controlled by primary and secondary legislation. Where legislative requirements and accounting principles conflict, legislative requirements take precedence.

1.3 EMPLOYEE BENEFITS

Benefits Payable during Employment

Short-term employee benefits are those due to be settled within twelve months of the year-end. They include such benefits as salaries and wages, paid annual leave and paid sick leave for current employees and are recognised as an expense for services in the year in which employees render service to the council. An accrual is made for the cost of holiday entitlements (or any form of leave, e.g. time off in lieu) earned by employees but not taken before the year-end, which employees can carry forward into the next financial year. The accrual is made at the salary rates applicable in the accounting year in which they were accrued. The accrual is charged to the Surplus or Deficit on the Provision of Services, but then reversed out through the Movement in Reserves Statement so that holiday benefits are charged to revenue in the financial year in which the holiday absence occurs.

Termination Benefits

Termination benefits are amounts payable as a result of a decision by the council to terminate an officer's employment before the normal retirement date or an officer's decision to accept voluntary redundancy. They are charged on an accruals basis to the relevant service line in the Comprehensive Income and Expenditure Statement when the council can no longer withdraw the offer of any benefits.

Where termination benefits involve the enhancement of pensions, statutory provisions require the general fund balance to be charged with the amount payable by the council to the pension fund or pensioner in the year, not the amount calculated according to the relevant accounting standards. Therefore in the Movement in Reserves Statement appropriations are required to and from the pensions reserve to remove the notional charges and credits for pension enhancement termination benefits, and replace them with the cash paid to the pension fund and pensioners and any such amounts payable but unpaid at the year end.

Post-Employment Benefits

Employees of the council are members of the Local Government Pension Scheme, administered by Gloucestershire County Council. The scheme provides defined benefits to members (retirement lump sums and pensions), earned as employees worked for the council, and is accounted for as a defined benefits scheme:

- The liabilities of the Gloucestershire pension scheme attributable to the council are included in the Balance Sheet on an actuarial basis using the projected unit method – i.e. an assessment of the future payments that will be made in relation to retirement benefits earned to date by employees, based on assumptions about mortality rates, employee turnover rates, etc, and projections of earnings for current employees.
- Liabilities are discounted to their value at current prices, using a discount rate based on the indicative rate of return on the adoption of the AA-rated corporate bond basis.
- The assets of the Gloucestershire pension fund attributable to the council are included in the balance sheet at their fair value on the following basis:
 - quoted securities – current bid value
 - unquoted securities – professional estimate of fair value
 - unitised securities – current bid price
 - property – market value.
- The change in the net pension liability is analysed into seven components:
 - Current service cost: the increase in liabilities as a result of the additional year of service earned - allocated in the Comprehensive Income and Expenditure Statement to the services for which the employees worked.
 - Past service cost: the increase in liabilities arising from current year decisions whose effect relates to years of service earned in earlier years - charged to the Surplus or Deficit in the Comprehensive Income and Expenditure Statement as part of Non Distributed Costs.
 - Interest cost on defined obligation: the expected increase in the present value of liabilities during the year as they move one year closer to being paid - charged to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement.
 - Interest income on plan assets: the annual investment return on the fund assets attributable to the council, based on an average of the expected long-term return – credited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement.
 - Gains/losses on settlements: the result of actions to relieve the council of liabilities or events that reduce the expected future service or accrual of benefits of employees – charged to the Cost of Services in the Comprehensive Income and Expenditure Statement as part of Non Distributed Costs.
 - Measurement of the net defined benefit liability: changes in the net pension liability that arise because events have not coincided with assumptions made at the last actuarial valuation or because the actuaries have updated their assumptions – charged to the Pensions Reserve.
 - Contributions paid to the Gloucestershire pension fund: cash paid as employer's

contributions to the pension fund, in settlement of liabilities.

Statutory provisions limit the amount chargeable to council tax to that payable by the council to the pension fund in the year, not the amount calculated according to the relevant accounting standards. In the Movement in Reserves Statement this means that there are appropriations to and from the Pension Reserve to remove the notional charges and credits for retirement benefits and replace them with the cash paid to the pension fund and any amounts payable to the fund but unpaid at the year end.

The negative balance that arises on the Pensions Reserve thereby measures the beneficial impact to the General Fund of being required to account for retirement benefits on the basis of cash flows rather than as benefits are earned by employees.

Discretionary Benefits

The council has restricted powers to make discretionary awards of retirement benefits in the event of early retirements. Any liabilities estimated to arise as a result of an award to any member of staff are accrued in the year of the decision to make the award, and accounted for using the same policies as are applied to the Local Government Pension Scheme.

1.4 GRANTS AND CONTRIBUTIONS

Whether paid on account, by instalments or in arrears, government grants and third party contributions and donations are recognised as due to the authority when there is reasonable assurance that:

- the authority will comply with the conditions attached to the payments, and
- the grants or contributions will be received.

Amounts recognised as due to the council are not credited to the Comprehensive Income and Expenditure Statement until conditions attached to the grant or contribution have been satisfied.

Conditions are stipulations that specify that the future economic benefits or service potential embodied in the asset in the form of the grant or contribution are required to be consumed by the recipient as specified, or future economic benefits or service potential must be returned to the transferor.

Monies advanced as grants and contributions for which conditions have not been satisfied are carried in the Balance Sheet as creditors. When conditions are satisfied, the grant or contribution is credited to the relevant service line (attributable revenue grants and contributions) or taxation and non-specific grant income and expenditure (non-ringfenced revenue grants and all capital grants) in the Comprehensive Income and Expenditure Statement.

Where capital grants are credited to the Comprehensive Income and Expenditure Statement, they are reversed out of the General Fund balance in the Movement in Reserves Statement. Where the grant has yet to be used to finance capital expenditure, it is posted to the capital grants unapplied reserve. Where it has been applied, it is posted to the capital adjustment account. Amounts in the capital grants unapplied reserve are transferred to the capital adjustment account once they have been applied to fund capital expenditure.

Community infrastructure levy

The authority has elected to charge a community infrastructure levy (CIL). The levy is charged on new builds (chargeable developments for the authority) with appropriate planning consent. The council charges for and collects the levy, which is a planning charge. The income from the levy will

be used to fund a number of infrastructure projects (these include transport, flood defences and schools) to support the development of the area. The CIL is received without outstanding conditions; it is therefore recognised at the commencement date of the chargeable development in the Comprehensive Income and Expenditure Statement in accordance with the accounting policy for government grants and contributions set out above. CIL charges will be largely used to fund capital expenditure.

1.5 OVERHEADS AND SUPPORT SERVICES

The authority operates and manages its overheads (including telephones and printing costs) and corporate and support services separately and expenditure relating to these activities is reported to key decision makers as separate activities. These overheads are not therefore apportioned to services within the general fund. Overhead charges between the General fund and Housing Revenue services, however, continue to apply.

1.6 COUNCIL TAX AND NON-DOMESTIC RATES RECOGNITION

Billing authorities act as agents, collecting council tax and non-domestic rates (NDR) on behalf of the major preceptors (including government for NDR) and, as principals, collecting council tax and NDR for themselves. Billing authorities are required by statute to maintain a separate fund (ie the collection fund) for the collection and distribution of amounts due in respect of council tax and NDR. Under the legislative framework for the collection fund, billing authorities, major preceptors and central government (for NDR) share proportionately the risks and rewards that the amount of council tax and NDR collected could be less or more than predicted.

Accounting for council tax and NDR

The council tax and NDR income included in the Comprehensive Income and Expenditure Statement (CIES) is the authority's share of accrued income for the year. However, regulations determine the amount of council tax and NDR that must be included in the authority's General Fund. Therefore, the difference between the income included in the CIES and the amount required by regulation to be credited to the General Fund is taken to the collection fund adjustment account and included as a reconciling item in the Movement in Reserves Statement.

The Balance Sheet includes the authority's share of the end of year balances in respect of council tax and NDR relating to arrears, impairment allowances for doubtful debts, overpayments and prepayments and appeals.

Where debtor balances for the above are identified as impaired because of a likelihood arising from a past event that payments due under the statutory arrangements will not be made, the asset is written down and a charge made to the taxation and non-specific grant income and expenditure line in the CIES. The impairment loss is measured as the difference between the carrying amount and the revised future cash flows.

1.7 VAT

Income and expenditure excludes any amounts related to VAT, as all VAT collected is payable to HM Revenue and Customs and all VAT paid is recoverable from them.

1.8 NON-CURRENT ASSETS - RECOGNITION OF CAPITAL EXPENDITURE

The council recognises non-current assets when expenditure is incurred on assets:

- held for use in the production or supply of goods or services, rental to others, or for administrative purposes
- expected to be used for more than one financial period
- where it is expected that the future economic benefits associated with the asset will flow to the council
- where the cost can be measured reliably.

The initial cost of an asset is recognised to be:

- Purchase price, construction cost, minimum lease payments or equivalent including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates.
- Costs associated with bringing the asset to the location and condition necessary for it to be capable of operating in the manner required by management.
- Any costs of dismantling and removing an existing asset and restoring the site on which it is located.

The cost of an asset acquired other than by purchase or construction is deemed to be its fair value, except where an asset is acquired via an exchange it is deemed to be the carrying amount of the asset given up by the council.

Donated assets are measured initially at fair value. The difference between their fair values and any consideration paid is credited to the Taxation and Non Specific Grant Income line in the Comprehensive Income and Expenditure Statement, unless the donation has been made conditionally. Until conditions are satisfied, the gain is held in a Donated Assets Reserve account. Where gains are credited to the Comprehensive Income and Expenditure Statement they are reversed out of the General Fund Balance to the Capital Adjustment Account in the Movement in Reserves Statement.

Subsequent 'enhancement' expenditure is treated as capital expenditure when it is considered it will increase the value of the asset or its useful life or increase the extent to which the council can use the asset.

De Minimis policy - expenditure below £10,000 (excluding VAT) is not treated as capital expenditure except where the sum of identical assets purchased exceeds this figure, as is the case with waste collection bins and caddies.

Capital assets are held on the Balance Sheet as Non-Current Assets.

1.9 NON-CURRENT ASSETS - PROPERTY, PLANT AND EQUIPMENT (PPE)

Assets that have physical substance and are held for use in the production or supply of goods or services, for rental to others, or for administrative purposes, and that are expected to be used during more than one financial year are classified as property, plant and equipment.

Recognition

Expenditure on the acquisition, creation or enhancement of property, plant and equipment is capitalised on an accruals basis, provided that it is probable that the future economic benefits or service potential associated with the item will flow to the authority and the cost of the item can be measured reliably. Expenditure that maintains but does not add to an asset's potential to deliver future economic benefits or service potential (i.e. repairs and maintenance) is charged as an expense when it is incurred.

Measurement

PPE assets are initially measured at cost, comprising all expenditure that is directly attributable to bringing the asset into working condition for its intended use. The council does not capitalise borrowing costs incurred whilst assets are under construction.

The cost of assets acquired other than by purchase is deemed to be its fair value, unless the acquisition does not have commercial substance (i.e. it will not lead to a variation in the cash flows of the authority). In the latter case, where an asset is acquired via an exchange, the cost of the acquisition is the carrying amount of the asset given up by the authority.

The assets are then carried on the Balance Sheet using the following measurement bases:

- infrastructure, community assets and assets under construction – depreciated historical cost
- dwellings – current value, determined using the basis of existing use value for social housing (EUV-SH)
- surplus assets – the current value measurement base is fair value, estimated at highest and best use from a market participant's perspective
- all other assets – current value, determined as the amount that would be paid for the asset in its existing use (existing use value – EUV).

Where there is no market-based evidence of current value because of the specialist nature of an asset, depreciated replacement cost (DRC) is used as an estimate of current value.

Where non-property assets have short useful lives or low values (or both), depreciated historical cost basis is used as a proxy for current value.

Assets included in the Balance Sheet at current value are revalued sufficiently regularly to ensure that their carrying amount is not materially different from their current value at the year-end, but as a minimum every five years. Increases in valuations are matched by credits to the revaluation reserve to recognise unrealised gains.

Where decreases in value are identified, they are accounted for by:

- where there is a balance of revaluation gains for the asset in the revaluation reserve, the carrying amount of the asset is written down against that balance (up to the amount of the accumulated gains)
- where there is no balance in the revaluation reserve or an insufficient balance, the carrying amount of the asset is written down against the relevant service line(s) in the Comprehensive Income and Expenditure Statement.

The revaluation reserve contains revaluation gains recognised since 1 April 2007 only, the date of its formal implementation. Gains arising before that date have been consolidated into the capital adjustment account.

Impairment

Assets are assessed at each year-end as to whether there is any indication that an asset may be

impaired. Where indications exist and any possible differences are estimated to be material, the recoverable amount of the asset is estimated and, where this is less than the carrying amount of the asset, an impairment loss is recognised for the shortfall.

Where impairment losses are identified, they are accounted for by:

- where there is a balance of revaluation gains for the asset in the revaluation reserve, the carrying amount of the asset is written down against that balance (up to the amount of the accumulated gains)
- where there is no balance in the revaluation reserve or an insufficient balance, the carrying amount of the asset is written down against the relevant service line(s) in the Comprehensive Income and Expenditure Statement.

Where an impairment loss is reversed subsequently, the reversal is credited to the relevant service line(s) in the Comprehensive Income and Expenditure Statement, up to the amount of the original loss, adjusted for depreciation that would have been charged if the loss had not been recognised.

Depreciation

Depreciation is provided for on all property, plant and equipment assets by the systematic allocation of their depreciable amounts over their useful lives. An exception is made for assets without a determinable finite useful life (ie freehold land and certain community assets) and assets that are not yet available for use (ie assets under construction).

Depreciation is calculated on the following bases:

- dwellings and other buildings – straight-line allocation over the useful life of the property as estimated by the valuer
- vehicles, plant, furniture and equipment – a percentage of the value of each class of assets in the Balance Sheet, as advised by a suitably qualified officer
- infrastructure – straight-line allocation over 40 years.

Where an item of property, plant and equipment asset has major components whose cost is significant in relation to the total cost of the item, the components are depreciated separately.

Revaluation gains are also depreciated, with an amount equal to the difference between current value depreciation charged on assets and the depreciation that would have been chargeable based on their historical cost being transferred each year from the revaluation reserve to the capital adjustment account.

1.10 NON-CURRENT ASSETS - HERITAGE ASSETS

Assets with historical, artistic, scientific or technological qualities held principally for their contribution to knowledge or culture.

The council's collections of heritage assets are accounted for as follows:

Ceramics, Art, Regalia and Silverware, Furniture, Textiles, Ephemera, other collectables

These are reported in the Balance Sheet at their current insurance valuation, which is based on

market values.

Statues and Monuments

These are reported in the Balance Sheet at their current insurance valuation, which is based on historic or replacement cost.

Archaeology

The council cannot obtain reliable cost or valuation information for its archaeological collection. This is because of the diverse nature of the assets held and lack of comparable market values. Consequently the council does not recognise these assets on its balance sheet.

The insurance valuations are updated for inflation on an annual basis, with gains credited to the Revaluation Reserve. The council has deemed that all the heritage assets have indeterminate lives, hence it does not consider it appropriate to charge depreciation.

The carrying amounts of heritage assets are reviewed where there is evidence of impairment. Any impairment is recognised and measured in accordance with the council's policy on impairment for Property, Plant and Equipment. Occasionally the council will dispose of heritage assets. These are accounted for in accordance with the council's policy on disposals and assets held for sale.

1.11 NON-CURRENT ASSETS - INVESTMENT PROPERTY

Investment properties are those that are used solely to earn rentals and/or for capital appreciation. The definition is not met if the property is used in any way to facilitate the delivery of services or production of goods or is held for sale.

Investment properties are measured initially at cost and subsequently at fair value, being the price that would be received to sell such an asset in an orderly transaction between market participants at the measurement date. As a non-financial asset, investment properties are measured at highest and best use. Properties are not depreciated but are revalued annually according to market conditions at the year-end. Gains and losses on revaluation are posted to the financing and investment income and expenditure line in the Comprehensive Income and Expenditure Statement. The same treatment is applied to gains and losses on disposal.

Rentals received in relation to investment properties are credited to the financing and investment income line and result in a gain for the General Fund balance. However, revaluation and disposal gains and losses are not permitted by statutory arrangements to have an impact on the General Fund balance. The gains and losses are therefore reversed out of the General Fund balance in the Movement in Reserves Statement and posted to the capital adjustment account and (for any sale proceeds greater than £10,000) the capital receipts reserve.

1.12 NON-CURRENT ASSETS - INTANGIBLE ASSETS

Expenditure on assets that do not have physical substance and which are controlled by the entity through custody or legal rights (e.g. software licences), is capitalised when it will bring benefits to the council for more than one financial year. Internally generated assets are capitalised where it can be demonstrated that the project is technically feasible, is intended to be completed (with adequate resources being available), where the council will be able to generate future economic benefits or deliver service potential by being able to sell or use the asset, and where the expenditure during the development phase can be reliably measured.

Intangible assets are measured at cost, which is amortised over the estimated useful life of the asset

to the relevant service line in the Comprehensive Income and Expenditure Statement, to reflect the pattern of consumption of benefits. Estimated remaining useful lives are reviewed annually and an asset is tested for impairment whenever there is an indication that the asset might be impaired – any losses recognised are charged to the relevant service line in the Comprehensive Income and Expenditure Statement. Any gain or loss arising on the disposal or cessation of use of an intangible asset is credited or charged to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement.

Amortisation, impairment losses and disposal gains and losses are not permitted to have an impact on the General Fund Balance, so they are reversed out of the General Fund Balance in the Movement in Reserves Statement and charged or credited to the Capital Adjustment Account with any sale proceeds greater than £10,000 credited to the Capital Receipts Reserve.

1.13 NON-CURRENT ASSETS – DISPOSALS AND ASSETS HELD FOR SALE

When it becomes probable that the carrying amount of an asset will be recovered principally through a sale transaction rather than through its continuing use, it is reclassified as an Asset Held for Sale. Assets are classified as held for sale where the asset is available for immediate sale in its present condition and where the sale is highly probable i.e. the asset has been advertised for sale and a buyer sought and the completion of the sale is expected within twelve months of the balance sheet date. Dwellings sold under Right to Buy are deemed to become surplus on the day that the transfer to the tenant takes place (completion of the sale), and are therefore considered operational until they are sold.

Except when carried at (depreciated) historic cost, an asset is revalued immediately before its reclassification as Held for Sale, using its existing category's measurement basis. Following reclassification assets are measured at the lower of their carrying values and fair values less costs to sell. Any subsequent gains in value are first used to reverse any losses previously charged to the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement and thereafter recognised in the Revaluation Reserve. Losses in value are charged to the Surplus or Deficit on the Provision of Services (even when there is a balance held for that asset in the Revaluation Reserve).

Depreciation is not charged on Assets Held for Sale, except in the year in which they were classified as held for sale.

If assets no longer meet the criteria to be classified as Assets Held for Sale, they are reclassified as non-current assets (Property, Plant and Equipment, Investment or Heritage assets) and valued at the lower of their carrying amount before they were classified as held for sale (adjusted for depreciation, amortisation or revaluations that would have been recognised had they not been classified as Held for Sale), and their recoverable amount at the date of the decision not to sell.

When an asset is disposed of, or decommissioned, the carrying amount of the asset in the Balance Sheet (whether Property, Plant and Equipment, Heritage or Assets Held for Sale) is written off to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement as part of the gain or loss on disposal. Receipts from disposals (if any) are credited to the same line in the Comprehensive Income and Expenditure Statement, also as part of the gain or loss on disposal (i.e. netted off against carrying value of the asset at the time of disposal). Any revaluation gains accumulated for the asset in the Revaluation Reserve are written off to the Capital Adjustment Account.

Amounts received from a disposal in excess of £10,000 are categorised as capital receipts. A proportion of receipts relating to Housing Revenue Account (HRA) disposals, as specified by statutory regulations, is payable to the Government. The balance of receipts is required to be credited to the Usable Capital Receipts Reserve, and can then only be used for new capital

investment or set aside to reduce the council's underlying need to borrow (the Capital Financing Requirement). Receipts are appropriated to the Reserve from the General Fund Balance in the Movement of Reserves Statement.

The written-off value of disposals is not a charge against council tax, as the cost of non-current assets is fully provided for under separate arrangements for capital financing. Such amounts are therefore appropriated to the Capital Adjustment Account from the General Fund Balance in the Movement in Reserves Statement.

1.14 REVENUE EXPENDITURE FUNDED FROM CAPITAL UNDER STATUTE (REFCUS)

Expenditure incurred during the year that may be capitalised under statutory provisions but does not result in the creation of non-current assets is charged to the relevant service revenue account in the year. To the extent the council has determined to meet the cost of this expenditure from capital resources (borrowing, capital receipts or grants) a transfer to the Capital Adjustment Account via the Movement in Reserves Statement reverses out the amounts charged to the General Fund Balance so there is no impact on the level of council tax.

1.15 CHARGES TO REVENUE FOR NON-CURRENT ASSETS

Service revenue accounts, support services and trading accounts are charged with the following amounts to record the real cost of holding assets during the year:

- Depreciation of property, plant and equipment used by the relevant service
- Amortisation of intangible assets used by the service
- Revaluation and impairment losses, where there are no accumulated gains in the Revaluation Reserve against which the losses can be charged.

The council cannot raise council tax to cover depreciation, amortisation or revaluation and impairment losses. It is, however, required to make an annual provision (known as Minimum Revenue Provision or MRP) from revenue towards reducing its overall borrowing requirement, equal to an amount calculated on a prudent basis by the council in accordance with statutory guidance. The above charges to the General Fund are therefore reversed out of the General Fund Balance and replaced by a MRP contribution to the Capital Adjustment Account in the Movement of Reserves Statement.

1.16 LEASES

Leases are classified as finance leases where the terms of the lease transfer substantially all the risks and rewards incidental to ownership of the property, plant or equipment from the lessor to the lessee. All other leases are classified as operating leases.

Where a lease covers both land and buildings, the land and buildings elements are considered separately for classification.

Arrangements that do not have the legal status of a lease but convey a right to use an asset in return for payment are accounted for under this policy where fulfilment of the arrangement is dependent on the use of specific assets.

The authority as lessee

Finance leases

Property, plant and equipment held under finance leases is recognised on the Balance Sheet at the commencement of the lease at its fair value measured at the lease's inception (or the present value of the minimum lease payments, if lower). The asset recognised is matched by a liability for the obligation to pay the lessor. Initial direct costs of the authority are added to the carrying amount of the asset. Premiums paid on entry into a lease are applied to writing down the lease liability. Contingent rents are charged as expenses in the periods in which they are incurred.

Lease payments are apportioned between:

- a charge for the acquisition of the interest in the property, plant or equipment – applied to write down the lease liability, and
- a finance charge (debited to the financing and investment income and expenditure line in the Comprehensive Income and Expenditure Statement).

Property, plant and equipment recognised under finance leases is accounted for using the policies applied generally to such assets, subject to depreciation being charged over the lease term if this is shorter than the asset's estimated useful life (where ownership of the asset does not transfer to the authority at the end of the lease period).

The authority is not required to raise council tax to cover depreciation or revaluation and impairment losses arising on leased assets. Instead, a prudent annual contribution is made from revenue funds towards the deemed capital investment in accordance with statutory requirements. Depreciation and revaluation and impairment losses are therefore substituted by a revenue contribution in the General Fund balance, by way of an adjusting transaction with the capital adjustment account in the Movement in Reserves Statement for the difference between the two.

Operating leases

Rentals paid under operating leases are charged to the Comprehensive Income and Expenditure Statement as an expense to the services benefitting from use of the leased property, plant or equipment. Charges are made on a straight-line basis over the life of the lease, even if this does not match the pattern of payments (eg there is a rent-free period at the commencement of the lease).

The authority as lessor

Finance leases

Where the authority grants a finance lease over a property or an item of plant or equipment, the relevant asset is written out of the Balance Sheet as a disposal. At the commencement of the lease, the carrying amount of the asset in the Balance Sheet (whether property, plant and equipment or assets held for sale) is written off to the other operating expenditure line in the Comprehensive Income and Expenditure Statement as part of the gain or loss on disposal. A gain, representing the authority's net investment in the lease, is credited to the same line in the Comprehensive Income and Expenditure Statement also as part of the gain or loss on disposal (ie netted off against the carrying value of the asset at the time of disposal), matched by a lease (long-term debtor) asset in the Balance Sheet.

Lease rentals receivable are apportioned between:

- a charge for the acquisition of the interest in the property – applied to write down the lease debtor (together with any premiums received), and

- finance income (credited to the financing and investment income and expenditure line in the Comprehensive Income and Expenditure Statement).

The gain credited to the Comprehensive Income and Expenditure Statement on disposal is not permitted by statute to increase the General Fund balance and is required to be treated as a capital receipt. Where a premium has been received, this is posted out of the General Fund balance to the capital receipts reserve in the Movement in Reserves Statement. Where the amount due in relation to the lease asset is to be settled by the payment of rentals in future financial years, this is posted out of the General Fund balance to the deferred capital receipts reserve in the Movement in Reserves Statement. When the future rentals are received, the element for the capital receipt for the disposal of the asset is used to write down the lease debtor. At this point, the deferred capital receipts are transferred to the capital receipts reserve.

The written-off value of disposals is not a charge against council tax, as the cost of non-current assets is fully provided for under separate arrangements for capital financing. Amounts are therefore appropriated to the capital adjustment account from the General Fund balance in the Movement in Reserves Statement.

Operating leases

Where the authority grants an operating lease over a property or an item of plant or equipment, the asset is retained in the Balance Sheet. Rental income is credited to the other operating expenditure line in the Comprehensive Income and Expenditure Statement. Credits are made on a straight-line basis over the life of the lease, even if this does not match the pattern of payments (eg there is a premium paid at the commencement of the lease). Initial direct costs incurred in negotiating and arranging the lease are added to the carrying amount of the relevant asset and charged as an expense over the lease term on the same basis as rental income.

1.17 FINANCIAL INSTRUMENTS

Financial liabilities

Financial liabilities are recognised on the Balance Sheet when the authority becomes a party to the contractual provisions of a financial instrument and are initially measured at fair value and are carried at their amortised cost. Annual charges to the financing and investment income and expenditure line in the Comprehensive Income and Expenditure Statement (CIES) for interest payable are based on the carrying amount of the liability, multiplied by the effective rate of interest for the instrument. The effective interest rate is the rate that exactly discounts estimated future cash payments over the life of the instrument to the amount at which it was originally recognised.

For most of the borrowings that the authority has, this means that the amount presented in the Balance Sheet is the outstanding principal repayable (plus accrued interest); and interest charged to the CIES is the amount payable for the year according to the loan agreement.

Where premiums and discounts have been charged to the CIES, regulations allow the impact on the General Fund balance to be spread over future years. The authority has a policy of spreading the gain or loss over the term that was remaining on the loan against which the premium was payable or discount receivable when it was repaid. The reconciliation of amounts charged to the CIES to the net charge required against the General Fund balance is managed by a transfer to or from the financial instrument adjustment account in the Movement in Reserves Statement.

Financial assets

Financial assets are classified based on a classification and measurement approach that reflects the business model for holding the financial assets and their cash flow characteristics. The authority holds financial assets measured at:

- amortised cost, and
- fair value through profit or loss (FVPL)
- fair value through other comprehensive income (FVOCI)

The authority's business model is to hold investments to collect contractual cash flows. Financial assets are therefore classified as amortised cost, except for those whose contractual payments are not solely payment of principal and interest (ie where the cash flows do not take the form of a basic debt instrument).

Financial assets at amortised cost

Financial assets measured at amortised cost are recognised on the Balance Sheet when the authority becomes a party to the contractual provisions of a financial instrument and are initially measured at fair value. They are subsequently measured at their amortised cost. Annual credits to the financing and investment income and expenditure line in the CIES for interest receivable are based on the carrying amount of the asset multiplied by the effective rate of interest for the instrument. For most of the financial assets held by the authority, this means that the amount presented in the Balance Sheet is the outstanding principal receivable (plus accrued interest), and interest credited to the CIES is the amount receivable for the year in the loan agreement.

However, the authority has made a number of loans to voluntary organisations at less than market rates (soft loans). When soft loans are made, a loss is recorded in the CIES (debited to the appropriate service) for the present value of the interest that will be foregone over the life of the instrument, resulting in a lower amortised cost than the outstanding principal.

Interest is credited to the financing and investment income and expenditure line in the CIES at a marginally higher effective rate of interest than the rate receivable from the voluntary organisations, with the difference serving to increase the amortised cost of the loan in the Balance Sheet. Statutory provisions require that the impact of soft loans on the General Fund balance is the interest receivable for the financial year – the reconciliation of amounts debited and credited to the CIES to the net gain required against the General Fund balance is managed by a transfer to or from the financial instrument adjustment account in the Movement in Reserves Statement.

Any gains and losses that arise on the derecognition of a financial asset are credited or debited to the financing and investment income and expenditure line in the CIES.

Expected credit loss model

The authority recognises expected credit losses on all of its financial assets held at amortised cost or where relevant FVOCI, either on a 12-month or lifetime basis. The expected credit loss model also applies to lease receivables and contract assets. Only lifetime losses are recognised for trade receivables (debtors) held by the authority.

Impairment losses are calculated to reflect the expectation that the future cash flows might not take place because the borrower could default on their obligations. Credit risk plays a crucial part in assessing losses. Where risk has increased significantly since an instrument was initially recognised, losses are assessed on a lifetime basis. Where risk has not increased significantly or remains low, losses are assessed on the basis of 12-month expected losses.

Fair value through OCI

Financial assets that are measured at FVOCI are recognised on the Balance Sheet when the authority becomes a party to the contractual provisions of a financial instrument and are initially measured and carried at fair value. Fair value gains and losses are recognised as they arise in other comprehensive income.

Fair value through P&L

Financial assets that are measured at FVPL are recognised on the Balance Sheet when the authority becomes a party to the contractual provisions of a financial instrument and are initially measured and carried at fair value. Fair value gains and losses are recognised as they arise in the surplus or deficit on the provision of services.

1.18 FAIR VALUE MEASUREMENT

The authority measures certain non-financial assets (Surplus Assets, Investment Property and Assets Held for Sale) and its Fair value through OCI and Fair value through P&L financial assets at fair value at the balance sheet date, unless there is no material difference between carrying value and fair value.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement assumes that the transaction to sell the asset or transfer the liability takes place either:

- in the principal market for the asset or liability, or
- in the absence of a principal market, in the most advantageous market for the asset or liability.

The fair value of an asset or liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their best economic interest. In the case of a non-financial asset, the authority takes into account the market participants' ability to use the asset in its 'highest and best use' or by selling it to another market participant that would use the asset in its 'highest and best use'.

Inputs to the valuation techniques used in measuring fair value are categorised within the fair value hierarchy as follows:

- Level 1 - unadjusted quoted prices in active markets for identical assets or liabilities
- Level 2 - directly or indirectly observable inputs other than quoted prices
- Level 3 - unobservable inputs for the asset or liability.

1.19 INVENTORIES

Inventories held in stores are included in the Balance Sheet at the latest price paid. This is a departure from the requirements of the Code, which require inventories to be shown at the lower of cost and net realisable value. The effect of the different treatment is not considered material.

1.20 CASH AND CASH EQUIVALENTS

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours. Cash equivalents are investments that mature in no more than three months or less from the date of acquisition and that are readily convertible to known amounts of cash with insignificant risk of change in value.

In the Cash Flow Statement, cash and cash equivalents are shown net of bank overdrafts that are repayable on demand and form an integral part of the council's cash management.

1.21 PROVISIONS

Provisions are made where an event has taken place that gives the council an obligation that probably requires settlement by a transfer of economic benefits, but where the timing or amount of the transfer is uncertain. For instance, the council may be involved in a court case that could eventually result in the making of a settlement or the payment of compensation.

Provisions are charged as an expense to the appropriate service line in the Comprehensive Income and Expenditure Statement when the council becomes aware of the event, based on its best estimate of the likely settlement. When payments are eventually made, they are charged to the provision carried on the Balance Sheet. Estimated settlements are reviewed at the end of each financial year. Where it becomes more likely than not that a transfer of economic benefits will not be required (or a lower settlement than anticipated is made), the provision is reversed and credited back to the relevant service line in the Comprehensive Income and Expenditure Statement.

Where some or all of the payment required to settle a provision is expected to be met by another party (e.g. from an insurance claim), this is only recognised as income in the relevant service revenue account if it is virtually certain that reimbursement will be received if the obligation is settled.

1.22 CONTINGENT LIABILITIES

A contingent liability arises where an event has taken place that gives the council a possible obligation whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the council. Contingent liabilities also arise in circumstances where a provision would otherwise be made but either it is not probable that an outflow of resources will be required or the amount of the obligation cannot be measured reliably.

Contingent liabilities are not recognised in the Balance Sheet but, where material, disclosed in a note to the accounts.

1.23 RESERVES

The council sets aside specific amounts as usable reserves for future policy purposes or to cover contingencies. Reserves are created by appropriating amounts from the General Fund balance in the Movement in Reserves Statement. When expenditure to be financed from a reserve is incurred, it is charged to the appropriate service revenue account in that year to form part of the Surplus or Deficit in the Comprehensive Income and Expenditure Statement. The reserve is then appropriated back into the General Fund Balance in the Movement in Reserves Statement so that there is no net charge against council tax for the expenditure in that year.

Certain reserves are kept to manage the accounting processes for non-current assets, financial instruments, retirement and employee benefits, and they do not represent usable resources for the council – these reserves are known as unusable reserves.

1.24 CONTINGENT ASSETS

A contingent asset arises where an event has taken place that gives the council a possible asset whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the council.

Contingent assets are not recognised in the Balance Sheet but, where material, disclosed in a note to the accounts where it is probable that there will be an inflow of economic benefits or service potential.

1.25 PRIOR PERIOD ADJUSTMENTS, CHANGES IN ACCOUNTING POLICIES AND ESTIMATES AND ERRORS

Prior period adjustments may arise as a result of a change in accounting policies or to correct a material error. Changes in accounting estimates are accounted for prospectively, i.e. in the current and future years affected by the change and do not give rise to a prior period adjustment.

Changes in accounting policies are only made when required by proper accounting practices or the change provides more reliable or relevant information about the effect of transactions, other events and conditions on the council's financial position or financial performance. Where a change made has a material effect, it is applied retrospectively (unless stated otherwise) by adjusting opening balances and comparative amounts for the prior period as if the new policy had always been applied.

Material errors discovered in prior period figures are corrected retrospectively by amending opening balances and comparative amounts for the prior period.

1.26 EVENTS AFTER THE BALANCE SHEET DATE

Events after the Balance Sheet date are those events, both favourable and unfavourable, that occur between the end of the reporting period and the date when the Statement of Accounts is authorised for issue. Two types of events can be identified:

- those that provide evidence of conditions that arose after the reporting period – the Statement of Accounts is adjusted to reflect such events
- those that are indicative of conditions that arose after the reporting period – the Statement of Accounts is not adjusted to reflect such events, but where a category of events would have a material effect, disclosure is made in the notes of the nature of the events and their estimated financial effect.

Events taking place after the date of authorisation for issue are not reflected in the Statement of Accounts.

1.27 ESTIMATION TECHNIQUES

Estimation techniques are the methods adopted to assess the values of assets, liabilities, gains and losses and changes in reserves in situations where there is uncertainty as to their precise value. Unless specified in the Code or in legislative requirements, the method of estimation will generally be the one that most closely reflects the economic reality of the transaction.

1.28 JOINTLY CONTROLLED OPERATIONS

Jointly controlled operations are activities undertaken by the council, together with other organisations, involving the shared use of the assets and resources of the organisations, rather than the establishment of a separate entity. The council recognises on its Balance Sheet the assets that it controls and the liabilities that it incurs and charges or credits the Comprehensive Income and Expenditure Statement with the expenditure it incurs and the share of income it earns from the activity of the operation.

Such operations, not being separate entities, are accounted for in the council only accounts and are not separate entities for Group Account purposes.

1.29 INTERESTS IN COMPANIES AND OTHER ENTITIES – GROUP ACCOUNTS

The council has material interests in companies that have the nature of being subsidiaries and joint ventures and require it to prepare Group Accounts. In the council's own single-entity accounts the interests in companies and other entities are recorded as financial assets at cost (if any), less any provision for losses.

Basis of Consolidation

The group accounts bring together the council's own accounts with those of Gloucestershire Airport Limited (GAL), in which the council has a 50% shareholding, and Cheltenham Borough Homes Limited (CBH), a company limited by guarantee in which the council is the sole member. The accounts of CBH include those of Cheltenham Borough Homes Services Limited (CBHSL), a wholly owned subsidiary of Cheltenham Borough Homes Limited.

GAL has been treated as a Joint Venture since it is jointly owned and controlled with Gloucester City Council. GAL has therefore been consolidated with the council's accounts on an equity accounting basis, in which the council's share of the company's operating results and net assets or liabilities (based on its proportionate shareholding) are shown as separate lines in the main group statements. There is no requirement to adjust for inter-organisation transactions and balances.

CBH has been treated as a Subsidiary (since it is wholly controlled by the council), so its accounts have been consolidated in the main group statements on a line-by-line basis, eliminating inter-organisation transactions and balances.

At 31 March 2022 the council also had a 14.29% shareholding in Ubico Limited, a local authority owned company which has seven members, providing environmental services to the shareholder councils. Since the council does not have control or significant influence over the company, its accounts are not consolidated into the group accounts, however full disclosure notes are provided.

The council also has an interest in Publica Group (Support) Limited, a Joint Venture company limited by guarantee, in which the council is one of four members. The council's share of the company's profit for the year and net assets at the balance sheet date have not been consolidated into the Group Accounts on the basis of immateriality.

The council also has an interest in the South West Audit Partnership Limited (SWAP), a company limited by guarantee. As the council does not have any controlling or significant influence in the company it is classed as an investment, and is not included in the Group Accounts.

Accounting Policies

The financial statements in the group accounts are prepared in accordance with the policies set out above, with the following additions and exceptions:

Cheltenham Borough Homes Limited (CBH)

The financial statements for CBH have been prepared under the historical cost convention in accordance with UK Generally Accepted Accounting Practice (UK GAAP), including Financial Reporting Standard 102 (FRS102) and the Housing SORP 2014: Statement of Recommended Practice for Registered Social Housing providers.

Consequently dwellings owned by CBH are initially valued at historic cost. For the purposes of the group accounts they have been re-valued at Current value to bring them into line with the council's accounting policies, using the existing use value for social housing (EUV-SH) appropriate to the dwellings' tenure as affordable homes. Any revaluation gains or losses are treated as described in paragraph 1.10 (Measurement).

In the company accounts capital grants are written off to the Income and Expenditure account over the estimated life of the asset in line with depreciation. However in the group accounts such grants are treated in accordance with paragraph 1.4, whereby they are credited to the Income and Expenditure account when any conditions attaching to the grant are met.

Gloucestershire Airport Limited

The financial statements of the Airport have been prepared under the historic cost convention (except for certain items that are shown at fair value) in accordance with Financial Reporting Standard 102 (FRS102).

Since Investment Property and Property, Plant and Equipment (PPE) assets held by the airport have been valued at fair value no adjustments are required to the value of non-current assets on consolidation with the council's accounts. Unlike in the airport accounts, however, where any gains in value over historic cost are credited to the Profit & Loss Account, such gains are credited in the group accounts to the Revaluation Reserve (for PPE assets) and the Capital Adjustment Account via the Group Income and Expenditure Statement (for Investment Property), in line with the council's accounting policies.

2. CHANGES IN ACCOUNTING POLICY AND ACCOUNTING STANDARDS THAT HAVE BEEN ISSUED BUT HAVE NOT YET BEEN ADOPTED

The Code requires changes in accounting policy to be applied retrospectively unless alternative transitional arrangements are specified. There is also the requirement for an authority to disclose information relating to the impact of an accounting change that will be required by a new standard that has been issued but not yet adopted.

The following standards and amendments are not expected to be introduced until the 2024/25 Code:

- IFRS 16 Leases

IFRS 16 is not anticipated to have a material effect on the financial statements or balances of the council since the changes mainly affect the recognition of leases by lessees and the authority does not have any material finance or operating lease liabilities as lessee. The Council also have not opted to adopt the standard early.

3. CRITICAL JUDGEMENTS USED IN APPLYING ACCOUNTING POLICIES

In applying the accounting policies set out on pages 17-35, the council has had to make certain judgements about complex transactions or those which may be uncertain depending on future events.

Leases

Leases have been classified in accordance with the IFRS criteria. In making these assessments the council has deemed all existing lessor leases (with the exception of the leases of vehicles and plant to Ubico Limited) as being operating leases.

The leases of vehicles and plant to Ubico have been classified as finance leases. Ubico pay a market-rate for the use of the vehicles and are responsible for insuring and maintaining the vehicles/plant and determining their deployment (including use across other Ubico contracts where necessary). The company pays for new vehicles/plant over periods of 3 - 8 years, according to the estimated useful economic life of the assets. The leases have been treated as finance leases since i) the sum of the lease payments is equal the cost of purchasing the assets; ii) the length of the term represents 'substantially all' of the useful life of

the assets; and iii) the rights and responsibilities of ownership of the assets (maintenance, insurance, deployment) sit with the company.

Business Rate Appeals Provision

The Local Government Finance Act 2012 introduced a business rates retention scheme that enables local authorities to retain a proportion of the business rates generated in their area. The new arrangements for the retention of business rates came into effect on 1 April 2013. From this date district councils such as Cheltenham assume a share of the liability for refunding ratepayers as a result of successful appeals and other reductions made by the Valuation Office in the rateable values on the rating list. A successful appeal or other reduction may mean the council having to refund rates paid in previous years. The council has therefore set aside a provision to cover its share of the repayments it estimates will be made and made a judgement as to the timescale over which they are likely to be repaid.

The provision is based on the expected success rate of appeals lodged at the year end, together with an estimated reduction in the rating list, based on historical experience.

COVID-19 Income Compensation Grant

In both 2020/21 and the first quarter of 2021/22, the Council received COVID-19 Income Compensation Grant from the Government. The amount of grant received in 2021/22 was £551k and provided for 75% of budgeted income lost in the first quarter of the financial year when national restrictions were still in place. This included all service income streams but excluded commercial income from investments or investment properties.

In the Statement of Account, the grant has been credited to other services in the Comprehensive Income and Expenditure Statement. This is because the conditions of the grant meant the received was directly related to the performance of the service in the year, the purpose of which was to reduce the net expenditure pressure on the service as a result of COVID-19 restrictions. The judgement made on the disclosure of the grant is consistent with the principal of substance over form.

Group Accounts

In assessing the need for group accounts the council has had to make judgements to establish the boundaries of the group (deciding which organisations over which it has or does not have a controlling or significant interest), and judgements as to the classification of group entities (as subsidiaries, associates or joint ventures). Further details are given in the Group Accounts section on page 94.

4. ASSUMPTIONS MADE ABOUT THE FUTURE AND OTHER MAJOR SOURCES OF ESTIMATION UNCERTAINTY

The Statement of Accounts contains estimated figures that are based on assumptions made by the council about the future or that are otherwise uncertain. Estimates are made taking into account historical experience, current trends and other relevant factors. However, because balances cannot be determined with certainty, actual results could be materially different from the assumptions and estimates.

The items on the council's Balance Sheet at 31st March 2022 for which there is a significant risk of material adjustment in the forthcoming financial year are as follows:

STATEMENT OF ACCOUNTS 2021/22

Item	Uncertainties	Effect if actual results differ from assumptions
Valuation of non-current assets (£456.646m)	<p>The Covid-19 pandemic and lockdown arrangements in place since March 2020, and re-opening through 2021/22 have had a significant impact on daily life and the global and UK economies. In the period post pandemic recovery, the pressures of rising inflation and interest rates have also had a significant impact on the valuation of non-current assets.</p> <p>For those assets valued on a Depreciated Replacement Cost (DRC) basis, the rising building costs create uncertainty when determining the re-build cost of assets.</p> <p>For those assets valued on an Existing Use Value, the impact of both the pandemic and rising rental costs have also increased uncertainty about potential rental yields.</p>	<p>There is more information available than in the previous years to understand the impact of the pandemic on the carrying value of these assets.</p> <p>The carrying value of assets valued on a DRC basis is £75.736m. A 2% change in the build cost of these assets would mean the carrying value would increase or decrease by £1.502m.</p> <p>The carrying value of assets valued on an Existing Use basis is £61.621m. A change in the market rent estimate for these assets would result in a change in carrying value of the assets as the rental yield figures changed.</p> <p>However, although any change in carrying values would reduce the council's 'net worth', in themselves they would have no impact on the authority's revenue account and ability to deliver services, since they are chargeable to unusable reserves and not the surplus or deficit on the provision of services.</p>
Property, Plant and Equipment (£456.646m)	<p>Assets are depreciated over useful lives that are dependent on assumptions about the level of repairs and maintenance that will be incurred in relation to individual assets. The current economic climate makes it uncertain that the council will be able to sustain its current spending on repairs and maintenance, bringing into doubt the useful lives assigned to assets.</p>	<p>If the useful life of assets is reduced, depreciation increases and the carrying amount of assets falls.</p> <p>It is estimated that the annual depreciation charge for buildings (including council dwellings), vehicles, plant and equipment, Infrastructure and surplus assets would increase by £0.113 million for every year that useful lives had to be reduced.</p>
Fair Value measurements (£110.791m)	<p>When the fair values of financial assets and financial liabilities cannot be measured based on quoted prices in active markets (i.e. Level 1 inputs) their fair value is measured using valuation techniques. Where possible, the inputs to these valuation techniques are based on observable data but where this is not possible judgement is required in establishing fair values. These judgements typically include considerations such as uncertainty and risk. However, changes in the assumptions used could affect the fair value of the Council's assets and liabilities.</p>	<p>The unobservable inputs used in the fair value measurement of our assets and liabilities include management assumptions made in relation to rents, growth, vacancy levels and discount rates.</p> <p>Of £66.415m of investment property, £14.301m of the carrying value is based on assumptions relating to income and yields. A 2% change in yield would result in the investment property balance changing by £286k.</p> <p>Likewise, fair value measurement has been applied to value the</p>

STATEMENT OF ACCOUNTS 2021/22

Item	Uncertainties	Effect if actual results differ from assumptions
		<p>surplus assets portfolio with a carrying value of £44.376m. A 2% change in the key assumptions would result in the balance changing by £888k.</p> <p>The Council has used a discounted cash flow model to measure the fair value its investment in an unlisted company. The carrying value of this investment is Nil and a significant change in the basis of the assumptions for cash inflows, outflows and discount rate would be required for this to have a material impact on the disclosure in the statement of accounts.</p> <p>Separate sensitivity analysis is disclosed below for the fair value measurement of the pension liability.</p>
Pensions Liability (£40.510m)	<p>Estimation of the net liability to pay pensions depends on a number of complex judgements relating to the discount rate used, the rate at which salaries are projected to increase, changes in retirement ages, mortality rates and expected returns on pension fund assets. A firm of consulting actuaries is engaged to provide the council with expert advice about the assumptions to be applied.</p>	<p>The effects on the net pensions' liability of changes in individual assumptions can be measured. For example, a 0.1% decrease in the discount rate assumption would result in an increase in the pension liability of approximately 2% (£2,754k). A sensitivity analysis is included in Note 34.</p> <p>The impact of the continuing uncertainties on the carrying value of these assets cannot be assessed at this stage as it depends on the extent and duration of the measures introduced and their effect on the wider economy in the long term, and there is currently insufficient evidence available to assess this.</p>
Non-domestic rates (NDR) appeals provision (£1.594m)	<p>This provision has been set up to meet losses arising from the successful appeal of businesses against the rateable value of their properties and other rateable value reductions. The provision is based on an expected success rate of appeals submitted at 31 March and on an estimated reduction in rateable value. Although based on past experience, both the actual success rate and actual reduction may differ from the estimate.</p>	<p>For appeals relating to charges up to 31st March 2017 a 1% increase in the assumed success rate, together with a 1% reduction in the rates payable, would result in an increase in the estimated provision required of £116,519, of which the council's share would be £46,607 (based on 2021/22 shares). This would reduce any collection fund surplus able to be distributed to the council in future years.</p> <p>In addition, for appeals and other rateable value reductions relating to charges from 1st April 2017, a 1% increase in the estimated rateable value reduction would result in an</p>

STATEMENT OF ACCOUNTS 2021/22

Item	Uncertainties	Effect if actual results differ from assumptions
		<p>increase in the estimated provision required of £120,992, of which the council's share would be £48,397 (based on 2021/22 shares).</p> <p>The provision required is therefore sensitive to small changes in the reductions awarded and any under-provision could have significant impact on the council's income.</p>

5. ADJUSTMENTS BETWEEN ACCOUNTING AND FUNDING BASIS UNDER THE REGULATIONS

This note details the adjustments that have been made to Total Comprehensive Income and Expenditure so that it equals the resources which, under statutory provisions, are available to meet future capital and revenue expenditure. The following describes the major reserves and the adjustments made to each reserve:

General Fund Balance

The General Fund is the statutory fund into which all the receipts of an council are required to be paid and out of which all liabilities of the council are to be met, except to the extent that statutory rules might provide otherwise. These rules also specify the financial year in which liabilities and payments should impact on the General Fund Balance, which is not necessarily in accordance with proper accounting practice. The General Fund Balance therefore summarises the resources that the council is statutorily empowered to spend on its services or on capital investment (or the deficit of resources that the council is required to recover) at the end of the financial year.

Housing Revenue Account (HRA) Balance

The HRA Balance reflects the council's statutory obligation to maintain a separate revenue account for local authority council housing in accordance with Part VI of the Local Government and Housing Act 1989.

It contains the balance of income and expenditure as defined by the 1989 Act that is available to fund future expenditure in connection with the council's landlord function.

Capital Receipts Reserve

The Capital Receipts Reserve holds the proceeds from the disposal of land or other assets which are restricted by statute from being used other than to fund new capital expenditure or to be set aside to finance historical capital expenditure. The balance on the reserve shows the resources that have yet to be applied for these purposes at the year end.

Major Repairs Reserve

The council is required to maintain a Major Repairs Reserve, which is used to finance capital expenditure incurred by the HRA.

Capital Grants Unapplied Reserve

STATEMENT OF ACCOUNTS 2021/22

The Capital Grants Unapplied Reserve holds the grants and contributions received towards capital projects for which the council has met the conditions that would otherwise require repayment of the monies, but which have yet to be applied to meet expenditure.

STATEMENT OF ACCOUNTS 2021/22

2020/21 Usable Reserves						2021/22 Usable Reserves				
General Fund Balance £'000	Housing Revenue Account £'000	Capital Receipts Reserve £'000	Major Repairs Reserve £'000	Capital Grants Unapplied £'000		General Fund Balance £'000	Housing Revenue Account £'000	Capital Receipts Reserve £'000	Major Repairs Reserve £'000	Capital Grants Unapplied £'000

6. EVENTS AFTER THE REPORTING PERIOD

This Statement of Accounts was authorised for issue by the Section 151 Officer on 29 July 2022. Events taking place after this date are not reflected in the financial statements or notes.

Conclusion of litigation

The Council did conclude ongoing litigation before this date but after 31 March 2022. The result of this event is that £1,886,880 was paid to the Council on 15 June 2022. The figures in the financial statements and notes have been reviewed in light of this information and no adjustments were required.

Accounting for infrastructure assets

Following a query raised by a local government auditor and subsequent audit network discussions convened by the National Audit Office, a national issue has arisen around infrastructure asset accounting. The issue raised relates to how historical costs for parts of local authority infrastructure assets are accounted for when they are replaced, and specifically whether local authorities should be assessing if there is any undepreciated cost remaining in the balance sheet for the replaced components that needs to be derecognised when subsequent expenditure is added.

A task and finish group has been established by CIPFA to address this issue and to consider any necessary changes to the Code or further guidance. The latest position is that a draft CIPFA Bulletin has been released accompanied by a short consultation which is now closed, but no longer term guidance has been published to date. The Council will reassess its accounting policies once further guidance or any Code amendments have been issued.

7. TRADING OPERATIONS AND AGENCY SERVICES

Trading operations

The council operates a number of trading activities, the surplus/(deficit) of which is included in the Comprehensive Income and Expenditure Statement. Details are as follows:

	2021/22			2020/21		
	Income	Expenditure	(Surplus) / deficit	Income	Expenditure	(Surplus) / deficit
	£'000	£'000	£'000	£'000	£'000	£'000
Included within Net cost of Services						
Cemetery and Crematorium	(2,111)	1,534	(577)	(2,048)	1,156	(892)
Car Parks	(3,381)	2,032	(1,349)	(1,571)	2,900	1,329
Green Waste	(881)	572	(309)	(855)	585	(270)
Total	(6,373)	4,138	(2,235)	(4,474)	4,641	167

The Cemetery and Crematorium, Car Parking and Green Waste trading operations are included within the cost of services in the Comprehensive Income and Expenditure Statement.

The increase in net surplus to £2.235m from a deficit of £167k in 2020/21 is due to reduced income generated across the three services in 2020/21 due to the pandemic.

Agency Services

STATEMENT OF ACCOUNTS 2021/22

During 2021/22 the council acted as agent to the government in the distribution of Small Business and Retail, Hospitality and Leisure grants to local businesses. The expenditure incurred was £5.4 million, which was fully reimbursed by government grant received in 2021/22.

8. OTHER OPERATING EXPENDITURE

	2021/22 £000	2020/21 £000
Parish Precepts	337	295
Payments to the Government Housing Capital Receipts Pool	397	407
Net (Gains) / losses on disposal of non-current assets	(1,138)	(998)
Total Other Operating Expenditure	(405)	(296)

9. FINANCING AND INVESTMENT (INCOME) AND EXPENDITURE

	2021/22 £000	2020/21 £000
Interest payable and similar charges	3,835	3,891
Net interest on the net defined benefit liability/(asset)	1,096	1,092
Interest and investment income	(653)	(667)
Fair value changes in financial assets (Pooled Funds)	(740)	(406)
Income and expenditure on investment properties and changes in their fair value	(3,652)	(1,173)
Net Financing and Investment (Income) and Expenditure	(114)	2,737

10. TAXATION AND NON SPECIFIC GRANT (INCOME) AND EXPENDITURE

	2021/22 £000	2020/21 £000
Council Tax	(9,812)	(9,501)
Non -Domestic Rates (income) and expenditure		
- Billing authority share	(21,945)	(22,547)
- Collection Fund deficit	4,970	14,870
- Tariff payable to central government	19,245	19,245
- Levy payable to central government less Pool surplus	408	326
	2,678	11,894
General government grants	(7,873)	(21,470)

STATEMENT OF ACCOUNTS 2021/22

Capital grants and contributions	(7,162)	(3,624)
Net Taxation and Non Specific Grant Income	(22,169)	(22,701)

11. MEMBERS' ALLOWANCES

In 2021/22 the council paid £380,152 (2020/21 £360,570) in allowances to its 40 members. The expenditure reflects members' allowances approved by council for 2021/22. Full details of the Members' Allowances scheme for the year can be found on the council's website.

12. OFFICERS' REMUNERATION

Senior Officers whose salary is equal to or more than £50,000 per annum:

2021/22

Post Title	Salary £	Expenses/ Allowances £	Total remuneration excluding pension contributions £	Pension contributions £	Total Remuneration including pension contributions £
Chief Executive Officer	124,780	-	124,780	24,956	149,736
Executive Director, People & Change	85,448	223	85,671	17,090	102,761
Managing Director, Place & Growth	102,175	114	102,289	20,435	122,724

TOTAL	397,755	14,941	412,697	81,809	494,505

2020/21

Post Title	Salary £	Expenses/ Allowances £	Total remuneration excluding pension contributions £	Pension contributions £	Total Remuneration including pension contributions £
Chief Executive Officer	118,659	148	118,807	23,732	142,539
Executive Director, People & Change	84,591	476	85,067	16,918	101,985
Managing Director, Place & Growth	99,196	512	99,708	19,839	119,547
Executive Director, Finance and Assets	85,591	46	85,637	17,118	102,755
TOTAL	388,037	1,182	389,219	77,608	466,826

STATEMENT OF ACCOUNTS 2021/22

Notes:

For the purposes of this disclosure 'Senior Officer' means Chief Executive, their direct reports and statutory chief officers whose salary is between £50,000 and £150,000.

The position of statutory role of Monitoring Officer for the council is carried out by Ms Sara Freckleton, under a shared arrangement with Tewkesbury Borough Council until 30 September 2021. This council pays a contribution of 35% of her costs, being £21,826 in 2021/22 (£43,336 in 2020/21). Since 30 September 2021, Mr Howard Norris has been engaged as the council's interim monitoring officer. The council has paid £59,500 in relation to the provision of this service in 2021/22.

The number of other employees whose remuneration, excluding employer's pension contributions, was £50,000 or more in bands of £5,000 was:

Remuneration Band	No of Employees 2021/22	No of Employees 2020/21
£50,000 - £54,999	8	5
£55,000 - £59,999	3	3
£60,000 - £64,999	0	2
£65,000 - £69,999	1	2
£70,000-£74,999	1	0
£75,000-£79,999	1	0
Total	14	12

13. TERMINATION BENEFITS

The council terminated the contract of eight employees in 2021/22 (four in 2020/21). Total costs incurred were £80,675 (£31,592 in 2020/21). These costs have been charged to the relevant service lines within the Comprehensive Income and Expenditure Statement.

These termination benefits are summarised in the table below:

2021/22		Bands	2020/21	
No. of staff	£		No. of staff	£
6	27,608	£0 - £20,000	4	31,592
2	53,067	£20,001 - £40,000	-	-
8	80,675		4	31,592

14. RELATED PARTY TRANSACTIONS

Transactions do not in themselves create a related party relationship: there has to be some element of control or influence by one party over another, or by a third party over the two parties. The most common form of influence is having representation on the board or governing body, but it can also be gained from an ownership interest, from statutory provisions or by agreement. This note summarises the transactions undertaken with parties which meet this definition for the Council, its Senior Officers and its Members in 2021/22.

Central Government

The UK Government has effective control over the general operations of the council - it is responsible for providing the statutory framework and legislation within which the council operates, provides a large proportion of its funding in the form of grants and prescribes the terms of many of the transactions that the council has with other parties (e.g. council tax bills, housing benefits). Grants received from government departments are shown in note 16 on page 49.

Council Members

Members of the council have direct control over the council's financial and operating policies. The total of members' allowances paid in 2021/22 is shown in note 11 on page 43. Members complete an annual declaration to report any business interests on an annual basis. Only one Member has declared an interest where control and influence may be exercised within an outside commercial organisation in which the Council has transacted in 2021/22.

A grant payment of £195,050 (2020/21 £195,050) was made to the Everyman Theatre in 2021/22. This is an annual payment where there is a grant agreement in place. The Council Member in place does not vote or, nor is involved in the discussions around the grant payment.

Other public bodies (subject to common control by central government)

The council collects precepts on behalf of Gloucestershire County Council, the Gloucestershire Police and Crime Commissioner and the Parish Councils within the borough. Precepts for the County and Police and Crime Commissioner are shown in the Collection Fund on page 86.

Companies

Gloucestershire Airport Limited

The council has a 50% shareholding in Gloucestershire Airport Limited. The airport's accounts have been consolidated into the Group Accounts. The Executive Director for Finance and Assets is also a Board Member for Gloucestershire Airport Limited.

The airport paid a profit share of rental income to the Council in the year of £27,954 (2020/21 £37,509). During 2011/12 the council loaned £1.190 million to the airport towards the cost of the runway safety project, of which £0.136 million was outstanding at 31st March 2022. The temporary overdraft facility that was provided was reduced during 2021/22 by £125,000 taking the overdraft as at 31 March 2022 to £925,000. Two further small capital loans totalling £165,000 were loaned to them in October 2020, with £16,000 paid in 2021/22 reducing the outstanding amount to £149,000. A new capital loan facility was added in 2021/22 for the runway project which amounted to £2.3 million. The loans were provided on an arm's length basis and are disclosed in Note 26 of the accounts.

Cheltenham Borough Homes Limited (CBH)

The council wholly owns an Arm's Length Management Organisation (Cheltenham Borough Homes Limited),

STATEMENT OF ACCOUNTS 2021/22

which is limited by guarantee. The accounts for this company have been consolidated into the Group Accounts. Two councillors serve on the company's Board of Directors.

The council procured supplies and services totalling £12,651,913 from CBH during 2021/22 (£12,144,480 in 2020/21). CBH procured supplies and services from the council totalling £1,192,073 during 2021/22 (£1,012,088 in 2020/21), £30,091.17 (£420,284 in 2020/21) of which is included in short term debtors in the council's balance sheet at the year end. A Management Agreement is in place between the two parties for the provision of services to the Council. Services were provided to CBH in line with our financial regulations.

Balances outstanding at the year-end were as follows:

	2022 £'000	2021 £'000
The Council owed CBH	(1,541)	(741)
CBH owed the Council	8,493	8,031
	<u>6,952</u>	<u>7,290</u>

Ubico Limited

Ubico Limited delivers environmental services for seven County Councils. Cheltenham County Council holds an equal 1/7th shareholding in the company. The Executive Director for Finance and Assets is also a Board Member for Ubico Limited.

The company provides services to the shareholder councils on a not-for-profit basis and therefore qualifies for the Teckal exemption (named after the EU case that established the principle). As a Teckal company, Ubico Limited must ensure that the percentage of work undertaken outside of the shareholder contracts is less than 20% of its total activity.

The council procured supplies and services totalling £8,750,927 from Ubico Limited in the year (£9,189,672 in 2020/21), £57,284 (£Nil in 2020/21) of which is included in the council's balance sheet as a short term creditor at the year end. The company procured supplies and services from the council totalling £464,434 in the year (£529,835 in 2020/21), £546,211 (£763,452 in 2020/21) of which is included in the council's balance sheet within the short term debtor at the year end. A Management Agreement is in place between the two parties for the provision of services to the Council. Services were provided to Ubico Limited in line with our financial regulations.

Vehicles and plant used by Ubico to provide environmental services in the borough are initially purchased by the council and then leased to the company in the year of purchase under a finance lease arrangement. At 31st March 2022 the amount owing to the council under these leases totalled £2.94 million (£3.48 million at 31st March 2021). The leases are disclosed in Note 23 on page 62.

Publica Group (Support) Limited

Publica Group (Support) Limited is a not-for-profit company limited by guarantee, with no share capital. The company has Mutual Trading Status to deliver services on behalf of the council and services to other member councils under contract.

The company is a Teckal company, fulfilling the conditions set out in Regulation 12(4) of the Public Contracts Regulations 2015. The company is subject to management supervision by the Members. As such, the company is a body governed by public law as defined in the Public Contracts Regulations 2015.

In the year the council purchased services from Publica Group (Support) Limited to the value of £1,210,310 (£1,330,972 in 2020/21).

South West Audit Partnership Limited (SWAP)

The council is a member of SWAP which is a company limited by guarantee, wholly owned and controlled as an in-house company by its members. It is a local authority controlled company for the purposes of Part V of the Local Government and Housing Act 1989. The liability of each member is limited to £1, being the amount that each member undertakes to contribute to the assets of the company in the event of it being wound up whilst a member or within one year after ceasing to be a member. The Executive Director for People and Change is also a Board Member for SWAP.

In the year the council purchased services from SWAP totalling £108,374 (£108,374 in 2020/21). The services are provided under a Service Level Agreement.

Cheltenham Business Improvement District

Cheltenham Business Improvement District (BID) is an elected organisation set up to deliver a range of projects that benefit businesses in the district of Cheltenham covering the town centre, including the Promenade, Montpellier and The Brewery Quarter. Cheltenham Borough Council's Managing Director of Place and Growth is also a Director of the BID which the Council do undertake transactions with.

In the year the council purchased services from BID totalling £47,000. The council also provided services in the year totalling £89,561.

Officers

Monitoring Officer (MO)

Cheltenham Borough Council shares its Monitoring Officer with Tewkesbury Borough Council. The MO is an employee of, and paid by, Tewkesbury Borough Council. Whilst the officer is shared and has influence in both councils, she is required to act separately for each council.

15. EXTERNAL AUDIT COSTS

	2021/22 £	2020/21 £
Fees payable to the External Auditor with regard to external audit services carried out by the appointed auditor	69,143	59,543
Fees paid to the External Auditor for the certification of grant claims and returns	28,923	19,906
Fees paid to the External Auditor for the certification of grant claims and returns for prior period	20,044	-
Other work provided by the appointed auditor:-		
Audit of Pooled Capital Housing receipts	7,500	5,000
	125,610	84,449

STATEMENT OF ACCOUNTS 2021/22

16. GRANT INCOME

The council credited the following grants and contributions to the Comprehensive Income and Expenditure Statement:

	2021/22	2020/21
	£'000	£'000
Credited to Other Income and Expenditure		
New Homes Bonus	(747)	(1,252)
Section 31 Business Rates compensation grants	(6,773)	(15,371)
Capital Grants and Contributions	(6,940)	(3,368)
Other grants and contributions	(403)	(564)
	(14,863)	(20,555)
Credited to Services		
Housing Benefits subsidy & administration grants	(21,246)	(21,192)
Council Tax Benefit administration grant	(123)	(105)
Capital grants and contributions	-	(313)
Covid-19 Loss of Income grants	(551)	(2,756)
Covid-19 Expenditure grants	(1,282)	(1,536)
Partnership funding and contributions	(628)	(482)
Other Grants and Contributions	(1,796)	(2,601)
	(25,627)	(28,985)

The council has received a number of grants and contributions that have yet to be recognised as income as they have conditions attached to them which have yet to be met. The balances at the year-end are as follows:

	2021/22 Current £'000	2021/22 Long Term £'000	2020/21 Current £'000	2020/21 Long Term £'000
Receipts in Advance – Revenue				
Commuted Grounds Maintenance contributions	-	(95)	(87)	(95)
Flood Relief	(361)		(361)	-
Homelessness	(37)		(70)	-
Community Welfare Grants	(524)		(239)	-
Covid-19 Enforcement Grants	(540)		(262)	-
Garden Communities Grant	(135)		(104)	-
Other grants and contributions	(114)	(180)	(209)	(200)
	(1,711)	(275)	(1,332)	(295)
Receipts in Advance – Capital				
Affordable housing contributions	-	(80)	(233)	(87)
Government grants	(150)	-	-	-
Partnership funding	(138)	-	(1,951)	-
Other grants and contributions	(372)	-	(542)	-
	(660)	(80)	(2,726)	(87)

STATEMENT OF ACCOUNTS 2021/22

17. SEGMENTAL REPORTING

EXPENDITURE & FUNDING ANALYSIS

The objective of the Expenditure and funding Analysis is to demonstrate to council tax and rent payers how the funding available to the authority (government grants, rents, council tax and business rates) for the year has been used in providing services in comparison with those resources consumed or earned by authorities in accordance with generally accepted accounting practices. The Expenditure and Funding Analysis also shows how this expenditure is allocated for decision making purposes between the council's services. Income and Expenditure accounted for under generally accepted accounting practices is presented more fully in the Comprehensive Income and Expenditure Statement.

2020/21				2021/22

Notes

(1) **Adjustments for capital purposes** – this column adds in revaluation gains/losses on Property, Plant and Equipment, capital grants repaid and Revenue Expenditure Funded from Capital under Statute (REFCUS) in the service lines and for:

- Other Operating Expenditure – adds gains/losses on disposals of Property, Plant and Equipment and capital receipts paid to the housing pool
- Financing and Investment Income and Expenditure – the statutory charges for capital financing (Minimum and Voluntary Revenue Provision) and revenue financing of capital expenditure are deducted as these are not chargeable under generally accepted practices, and changes in the fair value of Investment properties are added
- Taxation and Non-specific Grant Income and Expenditure – this line is credited with capital grants and donations receivable in the year which have no conditions or for which conditions were satisfied in the year.

Depreciation and amortisation charges are included in the service lines in the Net Expenditure chargeable to the General Fund and HRA balances column of the Expenditure and Funding Analysis (as they are included in reports to management), but then (in the case of the General Fund) reversed out in Other Income and Expenditure so they have no impact on council tax. The reversal is removed in the Other Income and Expenditure line in the adjustments for capital purposes column above to ensure such charges are included in the surplus or deficit on the provision of services in the Comprehensive Income and Expenditure Statement.

(2) **Net change for the Pensions Adjustments**

- for services - the removal of employer pension contributions and their replacement with current and past service costs
- for Financing and Investment Income and Expenditure – the addition of net interest on the pensions defined benefit liability.

(3) **Other Differences**

- for Financing and Investment Income and Expenditure – adjustments to the general fund for timing differences in premiums and discounts on financial instruments and for changes in the fair value of pooled investment funds
- for Taxation and Non-specific Grant income and Expenditure – timing differences between the income for council tax and non-domestic rates (NDR) credited under statutory regulations and that recognised under generally accepted accounting practice.
- for services – accruals for holiday pay.

STATEMENT OF ACCOUNTS 2021/22

SEGMENTAL INCOME AND EXPENDITURE

The net expenditure chargeable to the general fund and HRA balances in the Expenditure and Funding Analysis includes the following items on a segmental basis:-

	2021/22		2020/21

STATEMENT OF ACCOUNTS 2021/22

In accordance with the Temporary Relief offered by the Update to the Code on infrastructure assets this note does not include disclosure of gross cost and accumulated depreciation for infrastructure assets because historical reporting practices and resultant information deficits mean that this would not faithfully represent the asset position to the users of the financial statements.

The authority has determined in accordance with Regulation 30M of the Local Authorities Capital Finance and Accounting England (Amendment) Regulations 2022 that the carrying amounts to be derecognised for infrastructure assets when there is replacement expenditure is nil.

STATEMENT OF ACCOUNTS 2021/22

Depreciation

The following estimated useful lives have been used in the calculation of depreciation:

- Council dwellings – between 10 - 75 years depending on the component, for example 20 years for kitchens, 30 years for bathrooms and windows, 60 years for roofs
- Other Buildings – between 15 - 60 years, depending on the individual building
- Vehicles, Plant, Furniture and Equipment - between 5 - 15 years, depending on the type of asset
- Infrastructure - 40 years for General Fund assets, 25 years for HRA assets.

The individual remaining useful lives of each asset are reviewed annually or on revaluation and amended as necessary.

Revaluations

The council formally re-values its land and buildings on a rolling programme to ensure they are revalued at least every five years, however in accordance with the Code all land and building values are reviewed annually for material changes and re-valued at 31 March if necessary. Valuations have been carried out both internally by the council's property section and externally. Valuations of land and buildings were carried out using the methodologies and bases of estimation set out in the professional standards of the Royal Institution of Chartered Surveyors.

The table below summarises the valuation basis and date of valuation (if applicable):

	Council Dwellings	Other land and buildings	Vehicles, plant, furniture & equipment	Infrastructure assets	Community assets	Surplus assets	Assets under construction	Total
	£'000	£'000	£'000	£'000	£'000	£'000	£'000	£'000
Carried at (depreciated) historical cost	-	-	2,660	9,657	147	-	10,630	23,094
Valued at current value as at 31 st March:								
2018	-	-	-	-	-	-	-	-
2019	-	-	-	-	-	-	-	-
2020	-	627	-	-	-	-	-	627
2021	223	125,037	-	-	-	-	-	125,260
2022	251,344	11,730	-	-	-	45,326	-	308,400
Total cost or valuation	251,567	137,394	2,660	9,657	147	45,326	10,630	457,382

Componentisation

Under the Code the council is required to account separately for significant building components as defined in the council's Componentisation policy. This is to ensure material components are depreciated over their respective useful lives. Components separately identified relate only to council dwellings, where the main ones are roofs, walls, kitchens, bathrooms, electrics, heating, windows/doors, solar panels, and communal lifts and services.

Fair value measurement of Surplus assets

The fair values of surplus assets valued at 31 March 2022 have been based on a market approach using current market conditions, recent sale prices and other relevant information for similar assets in the local

area. The level of observable inputs is therefore significant, leading to the properties being categorised at Level 2 in the fair value hierarchy.

20. HERITAGE ASSETS

The council's buildings house most of the authority's heritage assets, held to support the provision of arts and culture in Cheltenham. In addition the council owns a number of statues and monuments located within the town.

The heritage assets housed in the council's buildings comprise the collections either exhibited or stored at the Cheltenham Art Gallery and Museum (The Wilson), the Pittville Pump Room, the Holst Birthplace Museum, the Municipal Offices and the Town Hall. These assets include many items donated by local people.

The four principal collections are:

- Fine Art
- Decorative Arts
- Social History and Ethnography
- Archaeology.

The council does not recognise the archaeological collection on its balance sheet, as obtaining valuations for these would involve a disproportionate cost. This exemption is permitted by the Code and is due to the diverse nature of the assets held, and lack of comparable market values.

The museum holds significant collections in the following areas:

- Fine art: British and foreign paintings, drawing and prints from the 16th century onwards, including English water colours from the 18th century onwards
- Decorative art: British and European ceramics, British furniture, clocks, glass, metalwork and treen from the 16th century onwards
- Oriental art: Chinese ceramics, costume, armour and artefacts from the 9th century to the present day
- Costumes and textiles: garments, underwear and accessories from the 17th century onwards
- The Arts and Crafts Movement: books, ceramics, furniture, metalwork, paintings, textiles, archives, designs and drawings relating to the English Arts and Crafts Movement from the 1860's to the present day, recognised nationally by the government as a Dedicated Collection
- Archaeology: Prehistoric, Romano-British and medieval archaeology
- Local history: printed ephemera, photographs, postcards, topographical prints and objects relating to the history of Cheltenham
- Numismatics: British and foreign coins from the Roman empire to the 21st century
- Firearms and edged weapons: British and European examples
- Natural sciences: geology, herbaria, eggs

STATEMENT OF ACCOUNTS 2021/22

- Social history: objects relating to English domestic, personal and working life from the 17th century to the present day.

The museum maintains all its present collections, and where appropriate enhances those collections by building on present strengths and filling gaps by purchase, gift or bequest. The museum does not undertake disposals motivated by financial reasons. Disposals are only undertaken by the governing body after full consideration of the reasons for disposal. External expert advice is sought, along with the views of stakeholders. Any proceeds are accounted for in accordance with statutory accounting requirements relating to capital receipts.

The collections are managed by curators employed by the Cheltenham Trust, who manage the collections on behalf of the council in accordance with council policy and guidance.

A detailed breakdown of the carrying values of the council's heritage assets are shown below:

	Ceramics	Art Collection	Furniture	Civic Regalia & Silver	Textiles, Ephemera and other collectables	Statues and Monuments	Total
	£'000	£'000	£'000	£'000	£'000	£'000	£'000
Valuation							
1 April 2020	2,403	26,799	4,447	217	5,234	1,648	40,748
Revaluations*	48	537	158	4	345	-	1,092
31 March 2021	2,451	27,336	4,605	221	5,579	1,648	41,840
Revaluations	92	0	0	0	0	0	92
31 March 2022	2,543	27,336	4,605	221	5,579	1,648	41,932

* includes updates for inflation for 2020/21 but not for 2021/22 as art, unlike a building, does not attract standard inflationary increases.

Except for two items professionally revalued during 2016/17 in preparation for their forthcoming loan, all the major works of art were last revalued at 1st April 2010. However the insurance valuations are reviewed annually for inflationary increases.

21. CAPITAL EXPENDITURE AND FINANCING

The total amount of capital expenditure incurred (investment made) in the year is shown in the table below, together with the resources used to finance it. Where capital expenditure is to be financed in future years by charges to revenue as assets are used by the council, the expenditure results in an increase in the Capital Financing Requirement (CFR), a measure of the capital expenditure financed by borrowing. The CFR is analysed in the second part of the note.

	2021/22 £'000	2020/21 £000
Opening Capital Financing Requirement	178,107	177,592
Capital Investment		
Property, Plant and Equipment	19,144	18,120
Investment Property	-	367

Long Term Capital Loans	2,300	1,770
	22,250	20,994
Sources of Finance		
Capital Receipts	(3,611)	(2,578)
Government Grants	(4,024)	(2,402)
Capital Contributions	(958)	(648)
Partnership Funding	(568)	(376)
Minimum Revenue Provision (MRP)	(579)	(2,097)
Voluntary Revenue Provision (VRP)	(179)	(171)
Major Repairs Reserve	(5,368)	(5,126)
Capital receipts applied to repay debt	(2,980)	-
Revenue	(87)	(7,078)
	(18,355)	(20,476)
Closing Capital Financing Requirement	182,002	178,107
Explanation of movement in year		
Increase in underlying need to borrowing (unsupported by Government financial assistance)	7,634	2,786
Minimum and Voluntary Revenue Provision (MRP/VRP)	(759)	(407)
Capital receipts applied in lieu of MRP	-	(1,861)
Capital receipts applied to repay the principal of debt	(2,980)	-
Increase (Decrease) in Capital Financing Requirement	3,895	518

Commitments under capital contracts

At 31 March 2022 the council was committed to completing the schemes within its capital programme for 2021/22. A total of £952k had not been spent but was committed at 31 March 2022 (£859,516 at 31 March 2021).

22. INVESTMENT PROPERTIES

The following items of income and expenditure relating to Investment Properties have been accounted for in the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement:

	2021/22 £'000	2020/21 £'000
Rental income from Investment Property	(3,879)	(3,974)
Direct operating expenses	262	211

In addition in 2021/22 £0.293 million (£0.274 million in 2020/21) of rental income is included in the Housing Revenue Account (HRA) line.

There are no restrictions on the council's ability to realise the value inherent in its investment property or on its right to the remittance of income and the proceeds of disposal. The council has no contractual obligations to purchase, construct, enhance or develop investment property, however some lease agreements require the council to repair and maintain properties.

The following table summarises the movement in the fair value of investment properties in the year:

	2021/22 £'000	2020/21 £'000
Balance at 1st April	66,438	68,068
Additions – construction	-	367
Reclassifications (to) / from Property, Plant and Equipment	-	-
Net gains / (losses) for the period included in the surplus or deficit on the provision of services resulting from changes in fair value	(23)	(1,997)
Balance at 31st March	66,415	66,438

The fair value of the investment property is reviewed and re-measured annually at the balance sheet date. All properties were revalued in 2021/22 by both internal and an external valuers, in accordance with the methodologies and bases of estimation set out in the professional standards of the Royal Institution of Chartered Surveyors.

The valuations have been based where possible on a market approach using current market conditions, recent sale prices and other relevant information for similar assets in the local area. In these cases, where existing rents have been capitalised, the yield has been obtained by using market knowledge and evidence. The level of observable inputs is therefore significant, leading to £52.114 million of the value of the properties at 31 March 2022 being categorised at Level 2 in the fair value hierarchy.

The remaining valuation of £14.301 million has been based on an income approach using a discount rate, which are significant unobservable inputs, so have been categorised at level 3 in the fair value hierarchy.

Such valuations are therefore sensitive to significant changes in rental income and in the discount rate used.

In estimating the fair values of the investment properties, the highest and best use of the properties is their current use.

23. ASSETS HELD UNDER LEASES

The council as Lessor

Finance Leases

The council's policy is to purchase the vehicles and plant required by Ubico Limited to provide environmental services within Cheltenham and then lease them to the company. The vehicles and plant used on these services at 1st April 2012 were transferred under a finance lease to the company when it commenced operations on that date. The present value of the lease at the date of transfer was £1.364 million. Subsequent purchases of £6.218 million (including £0.317 million in 2021/22) have been subject to further finance leases.

The repayments due under the leases are based on recovering the cost of each vehicle or item of plant over its remaining estimated useful life, together with a finance charge on the amounts outstanding. The council does not anticipate residual values for the items at the end of the leases as they are not considered material, consequently the gross investment in the leases is deemed equal to the present value of the lease payments due. These are due as follows:

	31st March 2022 £'000	31st March 2021 £'000
Not later than 1 year	878	842
2 – 5 years	1,889	2,399
More than 5 years	173	235
	2,940	3,476

A loss provision for uncollectable amounts has not been provided on the basis the lessee is a wholly owned local authority company.

Operating Leases

The council seeks to obtain income from property it owns but does not need for its own occupation by granting operating leases. Where the council grants leases it does so at best consideration unless it wishes to support the tenant financially, for example where tenants provide a service to the community.

Where the council wishes to support a tenant financially it needs to be satisfied that the use of the property supports the authority's Corporate Plan objectives and is not otherwise commercially viable. The council uses a system where the tenant pays a rent equivalent to best consideration and enters into a service

STATEMENT OF ACCOUNTS 2021/22

agreement linked to the lease, which includes a grant from the council in lieu of some or all of the rent, depending on the service provided from the property.

The council received £5,470,933 in rental income in 2021/22 from its granted leases (£5,234,711 in 2020/21).

The future minimum lease payments receivable in future years under non-cancellable operating leases are:

	31st March 2022 £'000	31st March 2021 £'000
Not later than 1 year	4,842	4,501
2 – 5 years	14,234	12,153
More than 5 years	114,909	111,827
	133,985	128,481

24. INTANGIBLE ASSETS

All of the intangible assets held relate to computer software, licenses being held for a number of the council's main software packages e.g. the Financial Management System. The intangible assets include both purchased licences and internally generated assets relating to the software. The balance is amortised to

STATEMENT OF ACCOUNTS 2021/22

the relevant service revenue account over the useful life of the software (normally 5 – 10 years) on a straight line basis. The movement on intangible asset balances during the year is as follows:

	2021/22 Software £'000	2020/21 Software £'000
Balance at 1st April		
- Gross carrying amounts	1,364	1,413
- Accumulated amortisation	(979)	(911)
Net carrying amount at start of year	385	502
Additions - purchases	85	-
Amortisation in Year	(117)	(117)

Notes

- (i) These comprise deposits with banks and other local authorities and bank certificates of deposit.
- (ii) These comprise shares held in Gloucestershire Airport Limited. The fair value has been assessed by the council's treasury management advisors, based on projected company cash flows using the airport's business plans (Level 3 inputs in the fair value hierarchy). The valuation is therefore sensitive to small changes in rental, interest and operating income and cost inflation, including aviation fuel and pension

costs.

The shares are not held for trading and there are no plans to dispose of them.

In addition the council holds shares costing £1 in Ubico Limited. The fair value of the council's interests in the company at 31st March 2022 is considered to be nil, since it is a wholly local authority owned not-for-profit 'Teckal' company. As a Teckal' company it is treated as if it was an in house department and the shareholder councils for now are able to enter into service contracts with the company without undertaking an EU compliant procurement process. There is a new Procurement Bill going through the House of Lords currently. We are anticipating that this will be approved sometime early 2023.

- (iii) These comprise units in the CCLA pooled property fund, the Schrodgers Income Maximiser Fund and CCLA Diversified Income Fund, the carrying (fair) value of which has been assessed using Level 1 inputs in the fair value hierarchy (quoted prices for identical units) at 31st March 2022.
- (iv) Further details of current debtors are given in note 27, page 71. The figures shown above exclude payments in advance and non-exchange transactions, such as taxes and grants due, which are not classified as financial instruments.

Long term debtors at 31st March 2022 mainly comprise:

- an outstanding loan of £0.320 million (£0.334 million at 31st March 2021) to the Cheltenham Everyman Theatre (made in 2011/12 for 25 years towards the redevelopment of the theatre)
- loans totalling £7.759 million (£7.897 million at 31st March 2021) made to Cheltenham Borough Homes Limited for between 30 and 50 years for housing redevelopment
- finance lease repayments of £2.062 million (£2.635 million at 31st March 2021) due from Ubico Limited (relating to leases of vehicles and plant)
- a loan of £0.136 million (£0.258 million at 31st March 2021) to Gloucestershire Airport Limited towards the cost of the runway safety project. In addition the airport reduced the revolving credit facility by £0.125 million taking the outstanding balance to £0.925 million (£1.050 at 31st March 2021). A further £0.151 million is outstanding for loans provided as a loan to fund the sub-station and radar project in 2020/21. A further £2.300 million was loaned to the airport for the runway major repairs in 2021/22. Accrued interest of £6k on both the Revolving Credit facility and the Capital Credit Facility was applied to the outstanding loans.

The remainder comprises mortgages for house purchase and other loans.

- (v) These comprise money market funds that are readily convertible to known amounts of cash and subject to insignificant risk of changes in value.
- (vi) Further details of current creditors are given in note 29, page 71. The figures shown above exclude receipts in advance, which are not classified as financial instruments.

STATEMENT OF ACCOUNTS 2021/22

Income, Expense, gains and losses Fair Value of financial assets and liabilities

	2021/22				2020/21			
	Financial Liabilities at amortised cost £'000	Financial Assets at amortised cost £'000	Financial Assets: Fair value through P&L £'000	Total £'000	Financial Liabilities at amortised cost £'000	Financial Assets at amortised cost £'000	Financial Assets: Fair value through P&L £'000	Total £'000
Interest expense	3,835	-	-	3,835	3,891	-	-	3,891
Fee expense	42	-	-	42	64	-	-	64
Changes in fair value impairment losses		-			-	-	780	780

Interest Income accrued on impaired financial assets	-	-	-	-	-	-	-	-
Changes in fair value			(740)	(740)				
Total income in Surplus or Deficit on the Provision of Services	-	(396)	(997)	(1,393)	-	(391)	(276)	(667)
(Net gain)/loss for the year	3,877	(396)	(997)	2,484	3,955	(391)	504	4,068

The fair values of the authority's financial assets and liabilities are shown below, where different to their

STATEMENT OF ACCOUNTS 2021/22

carrying amounts. The fair values have been assessed as equal to the present value of the expected cash flows over the remaining term of the instruments, using the following assumptions:

- for financial liabilities, the new maturity rates from the Public Works Loan Board (PWLB) at 31st March have been used. The valuation basis therefore uses Level 2 inputs (i.e. observable inputs other than quoted prices) in the fair value hierarchy.
- no early repayment or impairment is recognised
- where an instrument will mature in the next twelve months, fair value is assumed to approximate to amortised cost
- the fair value of trade and other short term payables and receivables is taken to be the invoiced or billed amount
- the fair value can be reliably estimated.

	2021/22		2020/21	
	Carrying amount £'000	Fair Value £'000	Carrying amount £'000	Fair Value £'000
Financial Assets				
Investments at amortised cost	1,460	1,460	1,050	1,050
Long term debtors at amortised cost	13,169	13,973	11,304	13,507
Total	14,629	15,433	12,354	14,557

The fair value of long term debtors is higher than the carrying amount because the debtors include fixed rate loans where the interest rate receivable from borrowers is higher than the rates available for similar loans at the Balance Sheet date.

	2021/22		2020/21	
	Carrying amount £'000	Fair Value £'000	Carrying amount £'000	Fair Value £'000
Financial Liabilities				
Borrowing – PWLB loans*	102,517	106,062	97,935	115,491
- long term bank loans	15,900	21,630	15,900	24,803
Total borrowing	118,417	127,692	113,835	140,294

*includes current borrowing

The fair value is higher than the carrying amount because the council's borrowing includes fixed rate loans where the interest rate payable is higher than the rates available for similar loans at the Balance Sheet date. The commitment to pay interest above current market rates increases the amount that the council would have to pay if it requested early repayment of the loans.

In the case of long term bank loans £7 million is subject to 'Lenders Option, Borrowers Option' (LOBO loans) the borrower's options to accept the increased rate or repay the loan have been valued at nil, on the

assumption that lenders will only exercise their options when market rates have risen above the contractual rate.

Nature and extent of risks arising from financial instruments

The council's activities expose it to a variety of financial risks. The key risks are:

- credit risk – the risk that other parties might fail to pay amounts due to the council
- liquidity risk – the possibility that the council might not have funds available to meet its commitment to make payments
- market risk – the possibility that financial loss might arise for the council as a result of changes in such measures as interest rates

The council's overall risk management procedures focus on the unpredictability of financial markets, and are structured to implement suitable controls to minimise these risks. The procedures for risk management are set out through a legal framework based on the Local Government Act 2003 and associated regulations. These require the council to comply with the CIPFA Prudential Code for Capital Finance and the CIPFA Code of Practice on Treasury Management in Local Authorities (both revised in December 2021) and government investment guidance issued under the Act (revised in February 2018). Overall, these procedures require the council to manage risk in the following ways:

- by the adoption of a Treasury Policy Statement and treasury management practices within its financial regulations
- by approving annually in advance prudential and treasury indicators for the following three years
- by approving an investment strategy for the forthcoming year, setting out its criteria for both investing and selecting investment counterparties in compliance with government guidance.

These are required to be reported and approved at or before the council's annual Council Tax setting or before the start of the financial year to which they relate. The items are reported with the annual treasury management strategy, which outlines the detailed approach to managing risk in relation to the council's financial instrument exposure. Actual performance is also reported after each year, as is a mid-year update.

The annual treasury management strategy which incorporates the prudential indicators was approved by Council on 22nd March 2021. The two key controls were:

- The Authorised Limit for 2021/22 was set at £317 million. This is the maximum limit of external borrowings or other long term liabilities
- The Operational Boundary for 2021/22 was set at £307 million. This is the expected level of debt and other long term liabilities during the year.

These policies are implemented by a central treasury team. The council maintains written principles for overall risk management, as well as written policies (Treasury Management Practices or TMPs) covering specific areas such as interest rate risk, credit risk and the investment of surplus cash. These TMPs are a requirement of the Code of Practice and are reviewed periodically.

Credit Risk

Credit risk arises from investments mainly with banks and other financial institutions, as well as credit exposure to the council's customers. This risk is minimised through the Annual Investment Strategy, which

STATEMENT OF ACCOUNTS 2021/22

requires that investments are not made with financial institutions unless they meet identified minimum credit criteria, in accordance with the Fitch, Moody's and Standard & Poor's Credit Ratings Services. The Annual Investment Strategy also sets the maximum amounts and time limits in respect of each counterparty. Investments are not made with banks and financial institutions unless they meet the minimum requirements of the investment criteria.

The council used the creditworthiness services of Arlingclose Limited during 2021/22. The maximum investment that could be made with an approved UK counterparty was £6 million in 2021/22. No breaches of the council's counterparty criteria occurred during the reporting period and the council does not expect any losses from non-performance by any of its counter-parties.

The council's maximum exposure to credit risk in relation to its investments cannot be assessed generally, as the risk of any institution failing to make interest payments or repay the principal sum will be specific to that individual organisation. Recent experience has shown that it is rare for such entities to be unable to meet their commitments. A risk of default applies to all of the council's investments, but there was no evidence at 31st March 2022 that this is likely to materialise. The following analysis summarises the council's potential maximum exposure to credit risk for investments outstanding at 31st March 2022 (excluding Group equities), based on experience of default assessed by the ratings agencies and adjusted to reflect current market conditions.

	Amount at 31 March 2022 £000 (a)	Historical experience of default % (b)	Adjustment for market conditions at 31 March 2022 % (c)	Estimated maximum exposure to Default £000 (a*c)
Investments with banks and other financial institutions				
A+ rated counterparties	422	0.06	1.21	5
Unrated pooled funds/MMF's	16,925	-	-	-
	17,347			5

The historical experience of default has been taken from average one year default rates published by the three main rating agencies at May 2022, relating to 2021 figures. Whilst current economic conditions have raised the overall possibility of default, the council maintains strict credit criteria for investment counterparties.

Due to the estimated maximum exposure to default amount being immaterial, no loss provision for 12 month expected credit losses under IFRS 9 has been charged to the Comprehensive Income and Expenditure Statement.

The council does not generally allow credit for its trade debtors as payment is due immediately. This means that all of the £2,148,729 trade debtor balance is technically past its due date for payment. The past due amount can be analysed by age as follows:

	2021/22 £000	2020/21 £000
Less than 3 months	2,095	1,961
3 to 6 months	36	136
6 months to 1 year	13	68
Over 1 year	5	11
	2,149	2,176

STATEMENT OF ACCOUNTS 2021/22

A loss provision of £209,300 as at 31st March 2022 (£267,900 31st March 2021) has been provided to cover the expected lifetime credit losses on these debts under IFRS 9.

Liquidity risk

The council has ready access to borrowings from the money markets to cover any day to day cash flow needs, and the Public Works Loan Board and money markets for access to longer term funds, ensuring there is no significant risk that it will be unable to raise finance to meet its commitments under financial instruments. Instead, the risk is that the council could be required to replenish a significant portion of its borrowings at a time of unfavourable interest rates. This risk is reduced by working towards a rolling programme to ensure the maturity of loans is spread over a period of time.

The maturity analysis of borrowings (excluding interest payable) is as follows:

	31st March 2022 £'000	31st March 2021 £'000
Less than 1 year	1,540	1,424
2-5 years	7,848	9,425
6-10 years	18,072	19,548
Uncertain date maturing in more than 10 years*	90,957	83,438
Total	118,417	113,835

*The council has £7 million (£7 million at 31st March 2021) of 'Lender's option, Borrower's option' (LOBO) loans where the lenders have the option to propose an increase in the rates payable; if this occurs the council will have the option to accept the new rate or repay the loans without penalty. Due to current low interest rates, in the unlikely event the lenders exercise their options; the council is likely to repay the loan(s). The repayment dates of these loans are therefore uncertain, although they are due to mature in 46 years.

Market risk

The council is exposed to risk in terms of its exposure to interest rate movements on its borrowings and investments. By way of illustration, if interest rates were 1% higher in 2021/22, this would have had the following effect on the interest charged or credited to the surplus or deficit on the provision of services in the Comprehensive Income and Expenditure Statement:

	Amount outstanding (weighted average) in year £'000	Average actual interest rate %	Actual Interest payable / (receivable) £'000	Projected interest rate %	Projected interest payable / (receivable) £'000	Variation £'000
Borrowing						
Variable rate	43,004	0.11	49	1.11	477	428
Lending						
Fixed rate (up to 1 year)	18,752	1.59	300	2.59	486	(186)
Variable rate						
Net loss / (gain) on surplus / deficit for year						242

Due to the large proportion of borrowing held at fixed rates the impact on interest payable is limited. Conversely, the proportion of lending at variable rates and fixed rate allows the council to benefit from any

increase in interest rates in the future. A large proportion of fixed rates is short term so any rate increases will benefit future investment returns.

Changes in interest rates will also affect the fair values of financial liabilities and financial assets classed as Loans and Receivables, however because these are carried at amortised cost rather than fair value, do not impact on the surplus or deficit on the provision of services or reserves. A rise in interest rates for example will reduce the fair value of borrowings and long term investments.

The council has a number of strategies for managing interest risk. During periods of falling interest rates, and where economic circumstances make it favourable, fixed rate loans will be repaid early to limit exposure to losses.

The authority is also exposed to risk in terms of its exposure to market prices. With the exception of 'pooled' funds, nominal gains and losses on borrowings and investments do not impact on the Comprehensive Income and Expenditure Statement or the Movement in Reserves Statement.

The council's investment in a pooled property fund is subject to the risk of falling commercial property prices. For example a 5% fall would result in a £162k charge to Other Comprehensive Income and Expenditure, although it would not affect the surplus or deficit on the provision of services unless the fund units were

STATEMENT OF ACCOUNTS 2021/22

sold. The risk is limited by the council setting a maximum exposure to financial assets invested in property of £3 million and its intention to hold the units in the fund for a minimum period of 5 years.

The risk of rental income affecting future revenue from the fund would occur if commercial properties were to become vacant for long periods of time and would reduce the returns due to be received.

27. SHORT TERM DEBTORS

	31st March 2022 £'000	31st March 2021 £'000
Central Government Bodies	6,644	18,350
Other Local Authorities	2,717	6,335
Other entities and individuals-		
- Council Taxpayers	494	515
- Business Ratepayers	536	718
- Cheltenham Borough Homes Limited	174	488
- Ubico Limited	1,423	1,869
- Housing Rents	426	432
- Sundry Debtors	4,432	3,409
Total	16,846	32,116

Each line is shown net of any allowance for impairments (provision for bad debts). The breakdown of the allowance for impairment for 2021/22 is broken down below:

	Gross £'000	Impairment £'000	Net £'000
Central Government Bodies	9,013	(2,369)	6,644
Other Local Authorities	3,082	(365)	2,717
Other entities and individuals-			
- Council Taxpayers	695	(201)	494
- Business Ratepayers	839	(303)	536
- Cheltenham Borough Homes Limited	174	-	174
- Ubico Limited	1,423	-	1,423
- Housing Rents	863	(437)	426
- Sundry Debtors	5,025	(593)	4,432
Total	21,114	(4,268)	16,846

There is a significant decrease in the Central Government Bodies debtor balance at 31 March 2022 when compared to the prior year. This is because at 31 March 2021 there was a large deficit in the NNDR Collection Fund, this has significantly reduced in the 21/22 financial year. The details of this can be viewed on pages 90-92.

27.1 FINANCIAL INSTRUMENTS – SHORT TERM DEBTORS

	31st March 2022 £'000	31st March 2021 £'000
Debtors per table in Note 27	16,846	32,116
Less – Payments in advance	(414)	(399)
Central government debtors	(6,644)	(18,350)
Local Government debtors	(2,733)	(6,335)
Benefit overpayments –invoiced	(339)	(356)
Benefit overpayments – ongoing	(178)	(146)
Council Taxpayers	(493)	(515)
Business ratepayers	(536)	(718)
Total	5,509	5,298

STATEMENT OF ACCOUNTS 2021/22

28. CASH AND CASH EQUIVALENTS

The balance of cash and cash equivalents is made up of the following elements:

	31st March 2022 £'000	31st March 2021 £'000
Cash held by the Authority	2	2
Bank current accounts	-1	5
Short term deposits and money market funds	10,426	6,940
Cash and cash equivalent assets	10,426	6,947
Cash and cash equivalent liabilities - bank overdraft	(663)	(746)
Net Cash and cash equivalents per Cash flow Statement	9,763	6,201

29.1 SHORT TERM CREDITORS

	31st March 2022 £'000	31st March 2021 £'000
Central Government Bodies	16,584	26,693
Other Local Authorities	1,466	699
Public corporations and trading funds	-	-
Other entities and individuals-		
- Council Taxpayers	141	139
- Business Ratepayers	290	2,004
- Cheltenham Borough Homes Limited	1,539	934
- Ubico Limited	57	-
- Housing Rents	592	520
- Sundry Creditors	4,714	4,570
Total	25,383	35,559

There is a significant decrease in the Central Government Bodies creditor balance at 31 March 2022 when compared to the prior year. This is because at 31 March 2021 there was a COVID-19 business grant income balance owing from the Council to Central Government. Business grant income which was not distributed by the Council is required to be repaid to Central Government so is recognised as a creditor at the year end. At 31 March 2022, there is significantly

STATEMENT OF ACCOUNTS 2021/22

less of this balance owing as the Government backed schemes have reduced through 2021/22 as national restrictions have been lifted.

29.2 FINANCIAL INSTRUMENTS- SHORT TERM CREDITORS

	31st March 2022 £'000	31st March 2021 £'000
Creditors per Note 29.1	25,383	35,559
Less non-contractual items at 31 March		
Receipts in advance – Local Government	(717)	(135)
Receipts in advance – other entities	(726)	(1,814)
Central Government creditors	(16,584)	(26,693)
County Council Pension contributions	53	(53)
Council taxpayers	(141)	(139)
Business Ratepayers	(290)	(2,004)
Total	6,978	4,721

30. PROVISIONS

	Balance at 1st April £'000	Additional provisions made in Year £'000	Amounts used/reallocated in Year £'000	Balance at 31st March £'000
Short term				
Insurance	6	-	-	6
Business rates retention – RV reductions	815	745	(308)	1,252
	821	745	(308)	1,258
Long term				
Business rates retention – RV reductions	625	-	(283)	342
Total 2021/22	1,446	745	(591)	1,600
Total 2020/21	1,486	815	(855)	1,446

Insurance

The Insurance Provision was established to fund the cost of insurance policy excesses arising from claims against the council by third parties. The provision represents the value of an assessment of the council's liability in respect of the current insurance claims outstanding with the council's insurers. Transfers between the Insurance Provision and the Insurance Reserve are made in order to provide adequate funding for the outstanding claims liability notified by the insurance company.

The insurance reserve is used to fund losses for which the council does not carry insurance cover, fluctuations in insurance premiums and corporate risk management strategy implementation.

Business Rates Retention – RV reductions including Appeals

The Local Government Finance Act 2012 introduced a business rates retention scheme that enables local authorities to retain a proportion of the business rates generated in their area. The new arrangements for the retention of business rates came into effect on 1st April 2013.

From this date local authorities acquired a share of the liability for refunding ratepayers who have

successfully appealed against the rateable value of their properties and other reductions resulting from changes in the rating list. This includes amounts paid over to central government in respect of 2012/13 and prior years. Consequently the council considers it necessary to make a provision to cover its share of the repayments likely to be made. The provision is based on the expected success rate of appeals recorded by the Valuation Office at 31st March 2022 relating to appeals raised against charges up to 31st 2017 and, for charges after this date, on an estimated reduction on the rating list based on historical experience, together with other known likely reductions. It has been split into short and long term elements to reflect the estimated time until settlement.

31. CONTINGENT LIABILITIES

Municipal Mutual Insurance Limited

The council's former insurers, Municipal Mutual Insurance Limited, ceased trading in 1992; the council became a party to the scheme of administration for liabilities outstanding at that time. Whilst there is a very low risk that the assets of the company will not meet the liabilities from insurance claims, the scheme guarantees that the council will reimburse the total of payments made in respect of claims less £50,000. At 31st March 2022 this potential total liability equated to £318,014, made up as follows:

	£
Gross claim payments to date	474,019
15% levy paid 2013/14	(63,603)
10% levy paid 2016/17	(42,402)
Net Payments	368,014
Levy retention	(50,000)
Potential liability 31st March 2022	318,014

This position has not changed since 2016/17, but is kept under review annually to ensure that a solvent run-off of the company's business is still anticipated. The likelihood and timing of any additional liabilities is unknown at this stage.

Development Agreement with Henry Boot Development and Factory

On 25 April 2022, Full Council agreed to underwrite all proper costs incurred by FB SHELF CO 2022 Limited between the signing of the Conditional Development Agreement between Henry Boot Developments Limited and Cheltenham Borough Council for the development of council owned land to the west of Cheltenham within the Golden Valley Development, up until the primary conditions of that agreement are satisfied. The total value of that underwrite is up to £8m.

Any costs incurred in relation to site wider infrastructure would enhance the value of the council owned land. If at any point the Council became liable for the costs and the contingent liability was transferred to an obligation, they would be reclassified as an asset on the Council's Balance Sheet. This would only occur if the Development Agreement was terminated, the risk of which is low.

STATEMENT OF ACCOUNTS 2021/22

32. USABLE RESERVES AND TRANSFERS TO / FROM EARMARKED RESERVES

Movements in the authority's usable reserves are detailed in the Movement in Reserves Statement. Movements in the *earmarked* reserves shown on the statement are detailed below:

	Balance at 1 April 2020 £'000	Transfers out 2020/21 £'000	Transfers in 2020/21 £'000	Balance at 31 March 2021 £'000	Transfers out 2021/22 £'000	Transfers in 2021/22 £'000	Balance at 31 March 2022 £'000
Earmarked Reserves							
Capital Reserve	131	(188)	200	143	150	-	293
Equalisation Reserves	1,410	(216)	14,440	15,634	(8,907)	65	6,792
Repairs & Renewals Reserve	1,279	(203)	387	1,463	(314)	184	1,333
Reserves for Commitments	192	(192)	609	609	(609)	705	705
Other earmarked reserves	1,484	(348)	361	1,497	(495)	380	1,382
Total	4,496	(1,147)	15,997	19,346	(10,175)	1,334	10,505

Purpose of reserves

- **Capital Reserve** – to help finance the general fund capital programme.
- **Equalisation Reserves** – to smooth out fluctuations in expenditure or income resulting from cyclical events, for example bi-annual local elections, and to cushion the impact of fluctuating activity levels (for example in housing benefit payments or business rates).

The significant values in the Equalisation Reserves in 2021/22 results from additional Section 31 NDR compensation grant received from the government during the year being transferred to the Business Rates Retention Reserve. This money is required to help meet the increased NDR deficit for 2021/22 resulting from the additional business rate retail reliefs awarded during the year due to Covid-19. The increased deficit is chargeable to the General Fund in 2022/23.

- **Repairs and Renewals Reserve** – to meet the cost of planned and reactive repairs to buildings and infrastructure.
- **Reserves for Commitments** – to cover the cost of budget commitments where spending did not take place in the year approved, but is planned to take place in the following year.
- **Other earmarked reserves** – sums built up to cover future planned expenditure, for example support for the revenue budget, risk management, and Public Realm improvements.

STATEMENT OF ACCOUNTS 2021/22

33. UNUSABLE RESERVES

The council keeps a number of reserves which do not represent usable resources for the council as they are required to be held for statutory reasons, or to comply with proper accounting practice.

Reserve	31st March 2022 £'000	31st March 2021 £'000	Purpose of Reserve
Revaluation Reserve	189,752	177,219	Store of gains on revaluation of non-current assets not yet realised through sales
Financial Instruments Revaluation Reserve	(602)	(508)	Store of gains and losses arising from changes in the value of financial instruments (excluding on pooled funds from 1st April 2018) carried at fair value through other comprehensive income and not yet realised through sales
Pooled Investment Funds Adjustment Account	88	(644)	Store of gains and losses arising from changes in the fair value of pooled investment funds since 1 st April 2018
Capital Adjustment Account	205,549	198,042	Store of capital resources set aside to meet past expenditure
Financial Instruments Adjustment Account	(1,310)	(1,455)	Balancing account to allow for differences in statutory requirements and proper accounting practices relating to borrowing and investments
Pensions Reserve	(45,786)	(58,991)	Balancing account to allow inclusion of Pension Liability in the Balance Sheet.
Collection Fund Adjustment Account	(5,835)	(15,044)	Balancing account to allow for differences in statutory requirements and proper accounting practices for council tax and NNDR (business rates) surpluses/deficits
Accumulating Compensated Absences Adjustment Account	(154)	(322)	Balancing account to allow for differences in statutory requirements and proper accounting practices for staff leave and additional hours not taken at the year end
Deferred Capital Receipts Reserve	2,940	3,479	Capital receipts to be received in future years e.g. from finance lease or mortgage repayments
Total Unusable Reserves	344,643	301,776	

Revaluation Reserve

	2021/22 £'000	2020/21 £'000
Balance at 1st April	177,219	161,284
Revaluation gains on non-current assets	15,861	25,671
Downward revaluation of assets and impairments	(1,543)	(5,395)
Surplus or deficit on revaluation of non-current assets not posted to the Surplus or Deficit on the Provision of Services	191,537	181,560
Accumulated gains on assets sold, derecognised or reclassified	-	(827)
Difference between fair value and historic cost depreciation	(1,784)	(3,514)
Amount written off to the Capital Adjustment Account	(1,784)	(4,341)
Balance at 31st March	189,752	177,219

The Revaluation Reserve contains gains arising from increases in the value of Property, Plant and Equipment, Heritage Assets and Assets Held for Sale arising since 1st April 2007. Accumulated gains arising before that date are consolidated into the Capital Adjustment Account. The balance is reduced when assets with accumulated gains are re-valued downwards or impaired, depreciated or disposed of. The balance on the reserve therefore represents the amount by which the current values of non-current assets carried on the Balance Sheet are greater because they are carried at re-valued amounts rather than at depreciated historical cost.

Financial Instruments Revaluation Reserve

This reserve (formerly the Available-for-Sale Financial Investments Reserve) contains gains arising from increases in the value of investments that have quoted market prices or otherwise do not have fixed or determinable payments, with the exception of gains and losses on pooled investment funds since 1st April 2018, which are contained in a separate reserve (see below). The balance is reduced when investments with accumulated gains are revalued downwards and the gains are lost, or when the investments are disposed of and the gains realised.

	2021/22 £'000	2020/21 £'000
Balance at 1st April	(508)	1,099
Revaluation of investments not charged to the surplus or deficit on the provision of services:		
Downward revaluations	(94)	(1,607)
Balance at 31st March	(602)	(508)

STATEMENT OF ACCOUNTS 2021/22

Pooled Investment Funds Adjustment Account

This reserve contains gains and losses on pooled funds arising from changes in their fair value from 1st April 2018. Such changes are initially charged to the surplus or deficit in the provision of services but reversed out to this reserve by a statutory override in the Movement in Reserves Statement.

Capital Adjustment Account

	2021/22 £'000	2020/21 £'000
Balance at 1st April	198,042	185,891
Reversal of items relating to capital expenditure debited or credited to the Comprehensive Income and Expenditure Statement		
• Charges for depreciation and impairment of non-current assets	(9,908)	(10,328)
• Revaluation gains/(losses) on Property, Plant and Equipment	(1)	2,225
• Amortisation of intangible assets	(115)	(115)
• Revenue expenditure funded from capital under statute	(615)	(737)
• Amounts of non-current assets written off on disposal or sale as part of the gain/loss on disposal to the Comprehensive Income and Expenditure Statement	(1,671)	(1,449)
	185,732	175,487
Capital receipts received on repayment of long term loans	(299)	(265)
Adjusting amounts written out of the Revaluation Reserve	1,784	4,341
Net amount written out for the cost of non-current assets consumed in the year	187,217	179,563
Capital Financing applied in the year:		
• Use of Capital Receipts Reserve to finance new capital expenditure	6,591	2,578
• Use of the Major Repairs Reserve to finance new capital expenditure	5,368	5,126
• Capital grants and contributions credited to the Comprehensive Income and Expenditure Statement that have been applied to capital financing and application of grants to capital financing from the Capital Grants Unapplied Account	5,551	3,426
• Statutory and voluntary provision for the financing of capital investment charged against the General Fund Balance	759	407
• Statutory provision for the financing of capital investment charged against usable capital receipts	-	1,861
• Capital expenditure charged against the general fund and HRA balances	87	7,077
	205,573	200,038
Movements in the market value of Investment properties (charged) or credited to the Comprehensive Income and Expenditure Statement	(23)	(1,996)
Balance at 31st March	205,549	198,042

The Capital Adjustment Account accumulates the resources that have been set aside to finance capital expenditure, which are then reduced by the write-down of the historical cost of non-current assets as they are consumed by depreciation and impairments, or written off on disposal.

The balance thus represents the timing differences between the historical cost of non-current assets that have been consumed, and the cost financed in accordance with statutory requirements.

The Account also contains accumulated gains and losses on Investment properties that have yet to be consumed by the council and revaluation gains accumulated on Property, Plant and Equipment before 1st

STATEMENT OF ACCOUNTS 2021/22

April 2007, the date that the Revaluation Reserve was created to hold such gains.

Financial Instruments Adjustment Account

	2021/22 £'000	2020/21 £'000
Balance at 1st April	(1,455)	(1,601)
Net Premiums incurred in previous years charged against the General Fund Balance	145	146
Balance at 31st March	(1,310)	(1,455)

This account absorbs the timing differences between the accounting treatment of income and expenses relating to certain financial instruments, and their statutory provisions.

Where premiums and discounts arising on the early repayment of loans are required to be charged to the Comprehensive Income and Expenditure Statement, regulations allow the impact on the General Fund Balance to be spread over a number of years. The council has a policy of spreading the gain or loss over the period that was remaining on the loan when it was repaid. The reconciliation of amounts required to be charged to the Comprehensive Income and Expenditure Statement to the net charge made against the General Fund Balance is managed by a transfer to or from the Financial Instruments Adjustment Account in the Movements in Reserves Statement.

Collection Fund Adjustment Account

This account reflects the difference between the rate at which collection fund surpluses or deficits are released to the council's General Fund Balance according to proper accounting practice, and the rate at which they are released according to statute. Proper accounting practice requires the surpluses or deficits generated in the year to be included in the Comprehensive Income and Expenditure Statement for the year, whereas statute does not allow these to be released to the general fund balance until the following year. The balance on this account therefore represents the surplus available to be released to the general fund balance in the future.

	2021/22 £'000	2020/21 £'000
Balance at 1st April	(15,044)	(647)
Amount by which council tax and non-domestic rates income credited to the Comprehensive Income and Expenditure Statement is different from that calculated for the year in accordance with statutory requirements	9,209	(14,397)
Balance at 31st March	(5,835)	(15,044)

Pensions Reserve

The Pensions Reserve absorbs the timing differences arising from the different arrangements for accounting for post-employment benefits and for funding benefits in accordance with statutory provision. The council accounts for post-employment benefits in the Comprehensive Income and Expenditure Statement as the benefits are earned by employees accruing years of service, updating the liabilities recognised to reflect inflation, changing assumptions and investment returns on the resources set aside to meet the costs.

STATEMENT OF ACCOUNTS 2021/22

However statutory arrangements require benefits earned to be financed when the council makes employer's contributions, or eventually pays any pensions for which it is directly responsible. The debit balance on the Pensions Reserve therefore shows a substantial shortfall in the benefits earned by past and current employees and the resources the council has set aside to meet them. The statutory arrangements will ensure that funding will have been set aside by the time the benefits come to be paid.

	2021/22 £'000	2020/21 £'000
Balance at 1st April	(58,991)	(51,307)
Re-measurement of the net defined benefit liability	13,678	(9,002)
Reversal of items relating to retirement benefits charged or credited to the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement	(4,895)	(3,535)
Employer's pension contributions and direct payments to pensioners payable in the year	4,422	4,853
Balance at 31st March	(45,786)	(58,991)

Deferred Capital Receipts Reserve

This comprises capital receipts receivable in future years, for example from finance leases and mortgage repayments, which are not usable until they are received. The amount at 31st March 2022 includes £2.940 million (£3.476 million at 31st March 2021) for vehicles and plant leased to Ubico Limited under finance leases.

	2021/22 £'000	2020/21 £'000
Balance at 1st April	3,479	3,926
Transfer of deferred sale proceeds credited as part of the gain/loss on disposal to the Comprehensive Income and Expenditure Statement	317	380
Transfer to the Capital Receipts Reserve upon receipt of cash	(855)	(827)
Balance at 31st March	2,941	3,479

34. DEFINED BENEFIT PENSION SCHEME**Participation in the pension scheme**

As part of the terms and conditions of employment of its officers and members, the council makes contributions towards the cost of post-employment benefits. Although these benefits will not actually be payable until employees retire, the council has a commitment to make the payments that needs to be disclosed at the time that employees earn their future entitlement.

Cheltenham Borough Council is a member of the Gloucestershire County Council Pension Fund, for which Gloucestershire County Council is the administering authority. It is contracted out of the State Second Pension. The scheme is a defined benefit statutory scheme that is administered in accordance with the Local Government Pension Scheme Regulations 1997 (as amended). This means that the council and employees pay contributions into a fund, calculated at a level intended to balance the pensions' liabilities with investment assets.

The principal risks to the authority of the pension scheme are the longevity assumptions, statutory changes to the scheme, structural changes to the scheme (i.e. large-scale withdrawals from the scheme), changes to inflation, bond yields and the performance of equity investments held by the scheme. These are mitigated to a certain extent by the statutory requirements to charge to the General Fund and Housing Revenue Account the amounts required by statute.

Transactions relating to post-employment benefits

The council recognises the costs of retirement benefits in the Net Cost of Services when they are earned by employees, rather than when the benefits are eventually paid as pensions. However, the charge the council is required to make against council tax is based on the cash payable in the year, so the real cost of retirement benefits is reversed out of the General Fund in the Movement in Reserves Statement (MIRS). The following transactions have been made in the Comprehensive Income and Expenditure Statement (CIES) and the General Fund Balance via the MIRS during the year:

	2021/22 £000	2020/21 £000
Comprehensive Income and Expenditure Statement (CIES):		
Service cost comprising:		
Current service cost	(3,783)	(2,443)
Past service cost	(16)	-
Financing and Investment Income and Expenditure:		
Net Interest Expense	(1,096)	(1,092)
Total post-employment benefits charged to Surplus or Deficit on Provision of Services	(4,895)	(3,535)
Other post-employment benefits charged to the CIES:		
Re-measurement of the net defined benefit liability comprising:		
Return on assets (excluding the amount included in the net interest expense)	5,841	22,314
Changes in demographic assumptions	304	(1,893)
Changes in financial assumptions	8,814	(30,951)
Other experience	(1,281)	1,528
Total post-employment benefit charged to CIES	13,678	9,002
Movement in Reserves Statement:		
Reversal of net charges made to Surplus or Deficit on Provision of Services for post-employment benefits in accordance with the Code	(4,895)	(3,535)
Actual amount charged against General Fund Balance for pensions in the year		
Employer's pension contributions and direct payments to pensioners	4,422	4,853

Up-front Payment of Secondary Pension Contributions

On 1 April 2020, the Council made an up-front payment of £8.675m for secondary employer pension contributions for the three years 2020/21 to 2022/23. This payment covers the discounted cost of the future employer contribution which will be required for these three periods.

The actuary calculated the Equivalent Discounted annual Lump Sums Certified across the three years as follows:

- £3.375 million relating to 2020/21;
- £2.882 million relating to 2021/22; and
- £2.418 million relating to 2022/23.

The savings generated by the payment in advance were judged to be greater value than could have been achieved by investing the balance as part of the Council's treasury management strategy and represented good value for money.

Pension Assets and Liabilities recognised in the Balance Sheet

The amount included in the balance sheet arising from the council's obligation in respect of its defined benefit plan is as follows:

	2021/22 £'000	2020/21 £'000
Present value of the defined benefit obligation	(172,186)	(172,864)
Fair value of plan assets	128,819	119,173
Net liability arising from defined benefit obligation	(43,367)	(53,691)

Reconciliation of the present value of the scheme liabilities (Defined Benefit Obligation)

	Funded Liabilities Local Government Pension Scheme	
	2021/22 £'000	2020/21 £'000
Opening Balance at 1st April	(172,864)	(140,754)
Current service cost	(3,783)	(2,443)
Past service cost (including curtailments)	(16)	
Interest cost	(3,444)	(3,208)
Contributions from scheme participants	(488)	(467)
Remeasurement gain/(loss):		
Arising from changes in demographic assumptions	304	(1,893)
Arising from changes in financial assumptions	8,814	(30,951)
Other experience	(6,135)	1,528
Benefits paid	5,331	5,224
Unfunded benefits paid	95	100

Closing fair value of scheme assets 31st March	128,819	119,173

Basis for estimating assets and liabilities

Liabilities have been assessed on an actuarial basis using the projected unit method, an estimate of the pensions that will be payable in future years dependent upon assumptions about mortality rates, salary levels, etc.

It is expected that a standard roll-forward process to produce the asset and liability values which have a potential inaccuracy of up to 2-3% per year for each year since the last triannual valuation date. The latest triannual review of the assets and liabilities was undertaken as at 31 March 2022 and so there is one year of uncertainty for our fund in the period between year end and the publication of the final audited accounts and a maximum 3% potential inaccuracy in the accounting results. It is not necessarily expected that the uncertainty would work in the same direction each year and the impact could be lower than 2% per year in many cases.

The Gloucestershire County Council pension fund liabilities have been assessed by Hymans Robertson LLP, an independent firm of actuaries, estimates for the fund being based on the latest full valuation of the scheme as at 1 April 2019. The significant assumptions made in their calculations have been:

	Local Government Pension Scheme	
	2021/22	2020/21
Mortality assumptions:		
Longevity at 65 for current pensioners		
Men	21.9 years	21.9 years

STATEMENT OF ACCOUNTS 2021/22

Women	24.6 years	24.3 years
Longevity at 65 for future pensioners *		
Men	22.6 years	22.9 years
Women	26.0 years	26.0 years
Rate of pension increase / inflation (CPI)	3.20%	2.85%
Rate of increase in salaries	3.70%	3.15%
Rate for discounting scheme liabilities	2.70%	2.00%

* Future pensioners' numbers assume members aged 45 as at the last formal valuation date.

Commutation

An allowance is included for future retirements to elect to take 35% of the maximum additional tax-free cash up to HMRC limits for pre-April 2008 service and 68% of the maximum tax-free cash for post-April 2008 service.

Sensitivity analysis

The estimation of the defined benefit obligations is sensitive to the actuarial assumptions set out in the tables above. The sensitivity analysis below has been determined based on reasonably possible changes of the assumptions occurring at the 31 March 2021 and assumes for each change that the assumption analysed changes whilst all other assumptions remain constant. The methods and types of assumptions used in preparing the sensitivity analysis did not change from those used in the previous financial year.

Change in assumptions at year ended 31 March 2022	Approximate % increase to Employer	Approximate cost to Employer £000
0.1% decrease in Real Discount Rate	2%	2,656
1 year increase in member life expectancy	4%	6,887
0.1% increase in the Salary Increase Rate	0%	290
0.1% increase in the Pension Increase Rate	1%	2,345

The above figures have been derived based on the membership profile of the scheme as at the most recent actuarial valuation, being 31 March 2022.

Impact on the Council's Cash Flows

The objectives of the scheme are to keep employer's contributions at as constant a rate as possible. Funding levels are monitored on an annual basis, with the most recent triennial valuation on 31 March 2019.

35. CASH FLOW STATEMENT – OPERATING ACTIVITIES

The cash flows for operating activities include the following items:

	2021/22 £'000	2020/21 £'000
Interest received	(592)	(681)
Interest paid	3,494	3,821

STATEMENT OF ACCOUNTS 2021/22

The surplus or deficit on the provision of services has been adjusted for the following non-cash or additional cash movements:

	2021/22 £'000	2020/21 £'000
Depreciation	(9,648)	(10,318)
Impairment and downward valuations	(261)	2,216
Amortisation	(117)	(117)
Increase (-) / decrease in creditors	10,485	(20,991)
Increase / decrease (-) in debtors	6,750	(3,928)
Increase / decrease (-) in inventories	(11)	(22)
Movement in pension liability	(3,355)	6,618
Carrying amount of non-current assets sold or derecognised	(1,672)	(1,450)
Other non cash items charged to the net surplus or deficit on the provision of services	556	(1,550)
	2,727	(29,542)

The surplus or deficit on the provision of services has been adjusted for the following items that are investing and financing activities:

	2021/22 £'000	2020/21 £'000
Proceeds from the sale of PPE, investment property and intangible assets	2,810	2,446

36. CASH FLOW STATEMENT – INVESTING ACTIVITIES

	2021/22 £'000	2020/21 £'000
Purchase of property, plant and equipment, investment property and intangible assets	19,382	18,719
Purchase of Investments	5,060	28,500
Proceeds from the sale of property, plant and equipment, investment property and intangible assets	(3,349)	(2,893)
Proceeds from the sale of short and long term investments	(4,650)	(35,059)
Other receipts from investing activities	(299)	(265)
Net cash (inflows) / outflows from investing activities	16,144	9,002

STATEMENT OF ACCOUNTS 2021/22

37. CASH FLOW STATEMENT – FINANCING ACTIVITIES

	2021/22 £'000	2020/21 £'000
Cash receipts of short and long term borrowing	(57,000)	(227,000)
Other receipts/payments for financing activities	(18,472)	24,053
Repayments of short and long term borrowing	55,036	238,230
Net cash flows from financing activities	(20,436)	35,283

STATEMENT OF ACCOUNTS 2021/22

THE COLLECTION FUND - INCOME AND EXPENDITURE ACCOUNT

The Collection Fund is an agent's statement that reflects the statutory obligation of billing authorities (such as Cheltenham) to maintain a separate fund to record the collection and distribution of non-domestic rates and council tax.

2020/21 £'000		Note	2021/22 £'000
INCOME			
78,488	Council Tax	(i)	82,584

NOTES TO THE COLLECTION FUND

(i). COUNCIL TAX

Council Tax is a property based tax with various reductions being made for differing circumstances e.g. single occupancy (25% discount). The Valuation Office has valued all domestic property in the area as at 1st April 1991 prices and has placed them into one of eight bands. A factor is then applied to each band of that the tax base can be expressed as a "Band D" equivalent (see below). A Band D council tax for the council and each preceptor is then calculated by dividing their requirements (their demands and precepts). by the Tax Base. Council taxes for other bands are then calculated by multiplying the Band D tax by the relevant proportion shown below.

Band	Estimated Number of Properties in each Band (adjusted for discounts)	Ratio	Band "D" Equivalents
A Disabled	6.0	5/9	3.3
A	8,061.90	6/9	5,374.6
B	11,611.50	7/9	9,031.2
C	12,556.5	8/9	11,161.3
D	8,565.5	1	8,565.5
E	4,805.0	11/9	5,872.8
F	2,508.5	13/9	3,623.4
G	1,936.0	15/9	3,226.7
H	102.8	2	205.5
	50,153.65		47,064.3
Less Council Tax support (Band D equivalents)			-3,659.5
Less adjustment for collection rates and for anticipated changes during the year for successful appeals against valuation bandings, demolitions, disabled persons' relief, and exemptions, plus adjustments for new properties and 2 nd homes (this amounts to 1% of the tax base)			-434.2
Council Tax Base for 2021/22			42,970.6

(ii). PRECEPTS & DEMANDS

	2021/22 £'000	2020/21 £'000
Gloucestershire County Council	60,555	58,043
Cheltenham Borough Council	9,414	9,236
Gloucestershire Police & Crime Commissioner	11,606	11,099
Charlton Kings Parish Council	146	122
Leckhampton with Warden Hill Parish Council	64	64
Prestbury Parish Council	88	71
Swindon Parish Council	12	12
Up Hatherley Parish Council	26	26
	81,911	78,673

In practice the council precepts for its own requirements and for the parishes. The parishes' requirements are in turn paid out of the council's General Fund.

(iii). NON-DOMESTIC RATES

The council collects non-domestic rates for its area based on business rateable values (as assessed by the Valuation Office) multiplied by a uniform rate set by the government. Certain reliefs are available and the figure shown is net of these reliefs.

From 1st April 2013 the Local Government Finance Act 2012 introduced a business rates retention scheme that enables local authorities' general funds to retain a proportion of the business rates generated in their area, subject to their general funds paying a 'Tariff' payment to the government if the amount exceeds a 'baseline funding' level or receiving of a 'Top-up' if it is below the funding level.

Normally district councils such as Cheltenham receive 40%, county councils 10% and central government 50% of business rates collectable, with write offs, provision for impairment of debts and any surplus or deficit generated being shared in the same proportions. If growth exceeds a certain threshold then the council's general fund must pay a 'levy' to central government on the extra growth, or if the rates collectable fall below a certain amount the council receives a 'safety net' payment from the government.

The council is, however, a member of the Gloucestershire Business Rates Pool, in which any levy payment or safety receipt is 'pooled' across several authorities. This enables each pool member to benefit from a lower levy rate payable should the growth in its business rates exceed its levy threshold, whilst receiving from the pool a safety net payment should its rates fall below its safety net threshold, contributed by the pool members.

The total non-domestic rateable value at 31st March 2022 was £134.698 million (£134.578 million at 31st March 2021) and the national non-domestic multipliers for 2021/22 were 51.2p (50.4p in 2020/21) (standard rate) and 49.90p (49.10p in 2020/21) (small business rate).

STATEMENT OF ACCOUNTS 2021/22

(iv). FUND BALANCE

The fund balance for council tax is shared between the council and its major precepting authorities (Gloucestershire County Council and the Gloucestershire Police & Crime Commissioner), in proportion to their precepts. The fund balance for non-domestic rates is shared between the council, Gloucestershire County Council and central government, in the statutory proportions.

The respective authorities' share of the balance is as follows:

	Borough Council share £'000	County Council share £'000	Police share £'000	Central Government share £'000	Total £'000
Council Tax					
Balance at 1 st April 2021	-45	-276	-53	-	-374
Increase/decrease (-) in the year	84	519	100	-	703
Balance at 31st March 2022	39	243	47	-	329
Business Rates					
Balance at 1 st April 2021	-14998	-3750	-	-18748	-37,496
Increase/decrease (-) in the year	9,124	2,282	-	11,405	22,811
Balance at 31st March 2022	- 5,874	- 1,468	-	- 7,343	-14,685
Fund Balance at 31st March 2022	- 5,835	- 1,225	47	- 7,343	-14,356

GROUP ACCOUNTS

The Group Accounts bring together the council's accounts with its share of those of:

- Cheltenham Borough Homes Limited (CBH), a company limited by guarantee, in which the council is the sole member, and
- Gloucestershire Airport Limited, in which the council has a 50% shareholding (the remaining 50% of shares are owned by Gloucester City Council).

The purpose of the Group Accounts is to show the full value of the council's investments in companies within the financial statements, since the council's shareholdings may not fully reflect its actual share of the companies' assets and liabilities.

Cheltenham Borough Homes Limited has been categorised as a subsidiary company of Cheltenham Borough Council and its interests have been consolidated in accordance with IAS 27 and IFRS10, which require income and expenditure, assets and liabilities to be consolidated with the council's accounts on a line-by-line basis, eliminating inter-organisational transactions and balances. The operating income and expenditure of the company has been included within the local authority housing line in the Group Comprehensive Income and Expenditure Statement, before the net cost of services.

Gloucestershire Airport Limited has been categorised as a Joint Venture as any decisions regarding its operating and financial policies require the consent of another party in addition to the council (the company is 'jointly controlled'). The company's assets and liabilities have therefore been consolidated with the council's in accordance with IAS 28 and IFRS11, which require the Equity Method to be used. Under this method, the council's share of the operating results of the company before tax is reported as a separate line, after the net surplus or deficit on the provision of services, within the Group Comprehensive Income and Expenditure Statement. Any taxation payable is also disclosed as a separate line.

In the Group Balance Sheet the council's share of the joint venture's net assets are included as a long-term investment, matched by the council's share of the company's reserves, eliminating the share capital. There is no requirement to adjust for transactions incurred and balances held between the council and any joint venture companies.

STATEMENT OF ACCOUNTING POLICIES FOR THE GROUP ACCOUNTS

These are set out in note 1.29 on page 34.

STATEMENT OF ACCOUNTS 2021/22

GROUP COMPREHENSIVE INCOME AND EXPENDITURE STATEMENT

This statement shows the cost in the year of providing group services, in accordance with generally accepted accounting practices, rather than the amount to be funded from taxation. Authorities raise taxation to cover expenditure in accordance with regulations; and this may be different from the accounting cost.

The taxation position is shown in the Group Movement in Reserves Statement.

STATEMENT OF ACCOUNTS 2021/22

GROUP BALANCE SHEET

This statement shows the value as at the balance sheet date of the assets and liabilities recognised by the group. The net assets of the group (assets less liabilities) are matched by reserves held. Reserves are reported in two categories. The first category of reserves are usable reserves i.e. those reserves that the group may use to provide services, subject to the need to maintain a prudent level of reserves and any statutory limitations on their use. The second category of reserves comprises those that the group is not able to use to provide services. This category includes reserves that hold unrealised gains and losses (for example the Revaluation Reserve), where amounts would only become available to provide services if the assets are sold, and reserves that hold timing differences.

GROUP CASH FLOW STATEMENT

The cash flow statement shows the changes in cash and cash equivalents of the group (excluding those of the joint venture Gloucestershire Airport Limited) during the reporting period. The statement shows how the group generates and uses cash by classifying cash flows as operating, investing and financing activities. Cash flows between the council/CBH Limited and the airport are included; cash flows between the council and CBH Limited are excluded.

NOTES TO THE GROUP ACCOUNTS

These notes follow on from those of the council's single entity accounts above, since many of these are also applicable to the group accounts. Notes that are unique to the group accounts are shown below.

38. Cheltenham Borough Homes Limited

Cheltenham Borough Homes Limited (CBH) is a company limited by guarantee and is governed by its memorandum and articles of association. The liability in respect of the guarantee is set out in the memorandum of association and is limited to £1 per member of the company, the sole member being Cheltenham Borough Council. The company commenced operations on 1st April 2003, with a seven year contract to manage and maintain the council's social housing stock. The contract was renewed on 1st April 2010 for a further ten years. This was replaced by a new 30 year contract from 1st April 2015. The registered name of the company is Cheltenham Borough Homes Limited (Registration No. 04587658).

During 2010/11 the company commenced the construction of new rented housing stock to be owned and managed by the company. To facilitate this process the company set up a wholly owned subsidiary during 2009/10, the registered name of which is Cheltenham Borough Homes Services Limited (CBHS Limited) (Registration No. 07118944). The principal activity of CBHS is the supply of construction services to CBH.

The audited group accounts for CBH Limited (including CBHS Limited) show net liabilities at 31 March 2022 of £7.219 million (£11.875 million at 31 March 2021) and an after tax deficit of £2.102 million in the year to 31 March 2022 (£0.998 million in the year to 31 March 2021).

Since CBH's accounts show non-current assets at historic cost, the company's dwellings were re-valued at 31 March 2020 at Current value to bring them into line with the council's accounting policies. The Current value was assessed by internal and external valuers using the existing use value for social housing (EUV-SH) appropriate to the dwellings' tenure as affordable homes.

The full accounts of Cheltenham Borough Homes Limited and Cheltenham Borough Homes Services Limited for the year ending 31 March 2022 can be obtained from the Company Secretary at the company's registered office – Oakley Community Resource Centre, 113a Clyde Crescent, Cheltenham, GL52 5QJ.

39. Gloucestershire Airport Limited

Gloucestershire Airport Limited is a wholly owned local authority airport company which was voluntarily established during 1992/93 by Cheltenham Borough Council and Gloucester City Council, using powers available to them under the Airports Act 1986. This replaced the previous joint committee arrangements. The shares allotted were divided equally between the two councils. The market value of the shares is unknown as they are not listed, however their current fair value has been estimated and is included in the council's single entity accounts under long term investments: financial assets at fair value through other comprehensive income.

The registered name of the airport company is Gloucestershire Airport Limited (Registration No. 02774189). The audited accounts of the company show net assets at 31 March 2022 of £21.356 million (£26.619 million at 31 March 2021), and an after tax loss of £4.772 million for the year to

STATEMENT OF ACCOUNTS 2021/22

31 March 2022 (£0.345 million profit to 31 March 2021). The council's commitment to meet losses is limited to the shares that it holds.

The following table discloses the council's share of the airport's results and net assets.

	Gloucester-shire Airport Limited 2021/22 £'000	Council's share 2021/22 £'000	Gloucester-shire Airport Limited 2020/21 £'000	Council's share 2020/21 £'000
Turnover	4,256	2,128	3,454	1,727
Profit on ordinary activities before taxation	(4,830)	(2,415)	391	196
Less tax on profit on ordinary activities	57	28	46	23
Profit for the financial year after taxation	(4,772)	(2,386)	345	173

	Gloucester-shire Airport Limited 31 March 2022 £'000	Council's share 31 March 2022 £'000	Gloucester-shire Airport Limited 31 March 2021 £'000	Council's share 31 March 2021 £'000
Non-current Assets	34,721	17,360	36,008	18,004
Current Assets	2,706	1,353	1,169	585
Liabilities due within one year	(7,506)	(3,753)	(3,085)	(1,543)
Liabilities due after one year (excluding pensions)	(2,662)	(1,331)	(2,003)	(1,002)
Deferred tax liabilities	(5,903)	(2,951)	(5,470)	(2,735)

The airport did not pay any dividends in the year to 31 March 2022 (nil to 31 March 2021).

During 2011/12 the council loaned £1.190 million to the airport towards the cost of the runway safety project, of which £0.063 million was outstanding at 31st March 2021. Further loans of £0.165 million in 2020/21 and £2.3 million in 2021/22 towards capital items. In addition the council provided the company with a temporary overdraft during 2020/21 of £1.050 million, which remained at 31st March 2022.

The Airport's accounts for the year ended 31 March 2022 can be obtained from the Managing Director at the company's registered office - The Terminal Building, Staverton, Cheltenham, Gloucestershire, GL51 6SR.

STATEMENT OF ACCOUNTS 2021/22

40. Short term debtors

These are as stated in note 27 to the single entity statements, with the addition of CBH debtors (excluding those with the council), which are sundry debtors.

41. Cash and Cash Equivalents

The balance of cash and cash equivalents is made up of the following elements:

	31st March 2022 £'000	31st March 2021 £'000
Cash held by the council and subsidiaries	1	2

STATEMENT OF ACCOUNTS 2021/22

In accordance with the Temporary Relief offered by the Update to the Code on infrastructure assets this note does not include disclosure of gross cost and accumulated depreciation for infrastructure assets because historical reporting practices and resultant information deficits mean that this would not faithfully represent the asset position to the users of the financial statements.

Infrastructure Assets	2020/21	2021/22
	£'000	£'000
Opening Net Book Value	10,439	10,028
Additions	114	103
Depreciation charged in the year	(525)	(474)
Closing Net Book Value	10,028	9,657

Total Property, Plant & Equipment reported on Balance Sheet	2020/21	2021/22
	£'000	£'000
Council dwellings; Other Land & Buildings; vehicles plant and equipment; community, surplus and assets under construction	434,047	457,493
Infrastructure Assets	10,028	9,657
Non-current assets Net Book Value	444,075	467,150

44. Other Long term liabilities

These comprise the group pension fund liabilities of Cheltenham Borough Council and Cheltenham Borough Homes Limited (CBH). Further details of the council's liabilities are included in note 34 on pages 82 - 87 and for CBH in their accounts.

45. Long term investments and Long term debtors

Long term investments differ from note 26 in the single entity accounts by the fair value of the shares in Gloucestershire Airport Limited, which is replaced in the group accounts by a long term investment in the Airport equivalent to a 50% share of the company's net assets, shown immediately below long term investments.

Long term debtors differ from note 26 in the single entity accounts by the elimination on consolidation of the loans to CBH Limited of £8.150 million.

46. Usable Reserves

These are detailed in the Group Movement in Reserves Statement.

47. Group Movements in the Movement in Reserves Statement

Adjustments are required between group usable and unusable reserves:

- for the receipt by CBH of social housing capital grants, which in the company accounts remain in the Income and Expenditure Reserve but in the group accounts are reversed out to the Capital Adjustment Account, as they have been used to finance newly constructed properties
- for the value of land donated to CBH by the council, which in the company accounts has been credited to Income and Expenditure Reserve but in the group accounts are eliminated as inter-organisational transactions within the Capital Adjustment Account
- for revaluation gains or losses arising from the difference between the cost of CBH properties shown in the company accounts and their existing use for social housing value (EU-SH) included in the Group Balance Sheet.

48. Unusable Reserves

	31st March 2022 £'000	31 March 2021 £'000
Revaluation Reserve	192,442	184,880
Capital Adjustment Account	213,890	205,168
Financial Instruments Adjustment Account	(167)	(1,455)
Financial Instruments Revaluation Reserve	(1,310)	(167)
Pooled Funds Adjustment Account	88	(644)
Collection Fund Adjustment Account	(5,835)	(15,044)
Pensions Reserve	(55,354)	(73,082)
Deferred Capital Receipts Reserve	2,940	3,479
Accumulating Compensated Absences Adjustment Account	(154)	(322)
Total Unusable Reserves	346,540	302,813

STATEMENT OF ACCOUNTS 2021/22

49. Cash Flow Statement – Operating Activities

The cash flows for operating activities include the following items:

	2021/22 £'000	2020/21 £'000
Interest received	(312)	(421)
Interest paid	3,494	3,891

The surplus or deficit on the provision of services has been adjusted for the following non-cash movements:

	2021/22 £'000	2020/21 £'000
Depreciation	(9,920)	(10,593)
Impairment and downward valuations	(261)	2,216
Amortisations	(216)	(211)
Increase (-) / decrease in creditors	10,455	(20,897)
Increase / decrease (-) in debtors	7,009	(4,307)
Increase / decrease (-) in inventories (stock)	(11)	(22)
Movement in pensions	(5,282)	5,595
Carrying amount of non-current assets sold or derecognised	(1,672)	(1,450)
Other non cash items charged to the net surplus or deficit on the provision of services	337	(1,408)
	439	(31,077)

50. Cash Flow Statement – Investing Activities

	2021/22 £'000	2020/21 £'000
Purchase of property, plant and equipment, investment property and intangible assets	19,873	20,484
Purchase of Investments	5,060	28,500
Proceeds from the sale of property, plant and equipment, investment property and intangible assets	(3,490)	(2,893)
Proceeds from the sale of short and long term investments	(4,650)	(35,059)
Other receipts from investing activities	(100)	(143)
	16,693	10,889

51. Cash Flow Statement – Financing activities

	2021/22 £'000	2020/21 £'000
Cash receipts of short and long term borrowing	(57,000)	(228,605)
Other receipts for financing activities	(19,005)	24,053
Repayments of short and long term borrowing	55,036	238,230
	(20,969)	33,678

HOUSING REVENUE ACCOUNT INCOME AND EXPENDITURE STATEMENT

The Housing Revenue Account (HRA) reflects a statutory obligation to keep a separate revenue account for the provision and maintenance of council owned houses and flats. The HRA Income and Expenditure Statement shows the cost in the year of providing these housing services.

	2021/22	2020/21
	£'000	£'000
Expenditure		
Repairs and Maintenance	4,700	3,816
Supervision and Management	7,827	8,011
Rents, Rates, Taxes and Other Charges	120	89
Depreciation and Impairment of Non-current Assets	5,630	4,391
Debt Management Costs	87	86
Movement in Bad Debts	160	69
Total Expenditure	18,524	16,462
Income		
Dwelling Rents	(19,497)	(18,960)
Non-dwelling Rents	(491)	(477)
Charges for services and facilities	(613)	(591)
Contributions towards expenditure	(496)	(486)
Total Income	(21,097)	(20,514)
Net cost of HRA services as included in the Comprehensive Income and Expenditure Statement	(2,573)	(4,052)
HRA share of Corporate and Democratic core	173	160
Net cost of HRA Services	(2,400)	(3,892)
HRA Share of the operating income and expenditure included in the Comprehensive Income and Expenditure Statement:		
Gain on sale of HRA Non-current Assets	(1,106)	(947)
Interest Payable and Similar Charges	1,865	1,797
Interest and Investment Income	(25)	(76)
Capital Grants and Contributions Receivable	(1,033)	(2,490)
Surplus for the Year on HRA Services	(2,699)	(5,608)

STATEMENT OF ACCOUNTS 2021/22

MOVEMENT ON THE HRA STATEMENT

This statement shows how the surplus or deficit on the HRA Income and Expenditure Statement reconciles to the movement in the Housing Revenue Account Balance, which is governed by statute.

	2021/22 £'000	2020/21 £'000
Balance on the HRA at the end of the previous year	1,500	7,069
Surplus for the year on the HRA Income and Expenditure Statement	2,699	5,608
Adjustments between accounting basis and funding basis under statute (note 1)	(1,876)	(11,177)
Increase / (decrease) on the HRA	823	(5,569)
Balance on the HRA at the end of the current year	2,323	1,500

NOTES TO THE HRA STATEMENTS

1. Adjustments between accounting and funding basis under the legislative framework

	2021/22 £'000	2020/21 £'000
Items included in the HRA Income and Expenditure Account but excluded from the Movement in the HRA Balance		
Capital contributions applied	(1,033)	(2,489)
(Gain)/loss on sale of HRA non-current assets	(1,106)	(947)
Movements in the fair value of assets	265	(735)
	(1,874)	(4,171)
Items not included in the HRA Income and Expenditure Account but included in the Movement in the HRA Balance		
Capital expenditure funded by the HRA	(2)	(7,006)
Net adjustments between accounting basis and funding basis under the regulations	(1,876)	(11,177)

2. Housing Stock

An analysis of the number and types of dwellings is detailed below:

Type	Total at 1st April 2021	Additions	Sales	Demolitions	Total at 31st March 2022
Houses and Bungalows	2,103	8	13	1	2,097
Flats	2,383	46	4	-	2,425

STATEMENT OF ACCOUNTS 2021/22

Shared Ownership (flats)*	13	4	2	-	15
Shared Ownership (houses)*	1	4	2	-	3
Total Stock	4,500	62	21	1	4,540

*Council share of shared ownership properties.

3. HRA Non-Current Assets

The non-current assets included in the Balance Sheet that relate to the HRA are shown below:

	01-Apr-21	Revaluations/ Impairments	Additions	Reclass- ifications	Disposals	Depreci- ation	31-Mar 2022
	£'000	£'000	£'000	£'000	£'000	£'000	£'000
Dwellings	231,608	9,346	10,582	6,171	(1,307)	(5,056)	251,344
Assets under construction	8,130	(109)	3,371	(6,734)			4,658
Garages*	2,249	59	6	-		(32)	2282
Other land and buildings	2,105	663				(56)	2712
Infrastructure	5,300		103			(212)	5,191
Surplus assets	13,061	75	3	563		(10)	13,692
Investment property	2,287	(5)				-	2282
Equipment	16					(2)	14
Intangible Assets	9	(1)					8
Total non-current assets	264,765	10,028	14,065	0	(1,307)	(5,368)	282,183

*Garages are included in Other Land & Buildings on the Balance Sheet.

4. Impairment and Revaluation of Non-Current Assets

HRA dwellings are revalued every five years (the last revaluation was undertaken as at 31st March 2020). The valuation is at Existing Use Value for Social Housing (EUV-SH) or market value (MV) adjusted by a factor to reflect the fact that the properties are socially rented. The adjustment factor is published by the Department for Communities and Local Government and is set regionally. The south-west adjustment factor is currently 35% of Market Value.

In interim years the dwelling valuation is updated by the movement in the house price index for Cheltenham published by the Land Registry.

5. Dwellings Valuation

The vacant possession value of dwellings within the HRA (i.e. their value without secure tenants) at 1st April 2022 was £716,022,857.

STATEMENT OF ACCOUNTS 2021/22

The difference between the vacant possession value and the lower Balance Sheet valuation (existing use value for social housing (EUH-SH)) measures the economic cost of providing council housing at less than open market rents.

6. Major Repairs Reserve

An analysis of the movements on the reserve during the year is shown below:

	£'000
Balance 1st April 2021	-
Transfer to reserve	5,368
Financing of HRA capital expenditure	(5,368)
Balance 31st March 2022	-

7. HRA Capital Expenditure

A summary of HRA capital expenditure and sources of finance for 2021/22 is shown below:

Category	Total Expenditure £'000							
		Major Repairs Reserve £'000	Capital Receipts £'000	Capital Conts £'000	Revenue Conts £'000	Grants £'000	Loans £'000	Commuted Sums £'000
New Build	3,371	-	871	-	2	530	1,968	-
Acquisitions	3,687	-	1,379	-	-	-	2,068	240
Major repairs & improvements	6,895	5,350	429	222	-	40	854	-
Garages	6	6	-	-	-	-	-	-
Infrastructure	103	12	-	-	-	-	91	-
Land	3	-	-	-	-	-	3	-
Total	14,065	5,368	2,679	222	2	570	4,984	240

8. HRA Capital Receipts

An analysis of HRA capital receipts realised during the year is shown below:

	2021/22 £000	2020/21 £000
Sales of Dwellings	1,758	1,884
Sales of Land	-	-
Sales of Investment Property	-	-
Mortgage Principal	-	2
Sale of Shared Ownership Flats/Houses	686	152
Total	2,444	2,038

9. Rent Arrears

Rent arrears at 31st March 2022 amounted to £827,088 (£775,569 as at 31st March 2021) and the Balance Sheet includes a bad debt provision of £437,000 relating to those arrears (£344,000 as at

31st March 2021).

10. Interest and Investment Income

This includes £24,800 interest from notional cash balances and mortgage interest of £53 (£76,268 and £116 respectively in 2020/21).

GLOSSARY OF FINANCIAL TERMS

Accounting Code of Practice	Although the preparation and control of accounting is regulated, there is no statutory basis for accounting entries. Instead, Local Authorities have to comply with the CIPFA/LASAAC Code of Practice on Local authority accounting in the United Kingdom (The Code).
Accounting Period	The period of time covered by the accounts, normally a period of twelve months commencing on 1 st April for local authority accounts. The end of the accounting period is the balance sheet date.
Accounts	A generic term for statements setting out details of income and expenditure or assets and liabilities or both, in a structured manner. Accounts may be categorised either by the type of transactions they record, e.g. revenue account, capital account or by the purpose they serve, e.g. management accounts, final accounts, balance sheets.
Accounting Policies	The principles, bases, conventions, rules and practices applied by an organisation that specify how the effects of transactions and other events are to be reflected in its financial statements.
Accruals	Sums included in the final accounts to cover income or expenditure attributable to the accounting period but for which payment has not been made/received at the balance sheet date.
Actual	Actual, as opposed to budget, expenditure and income directly attributable to an accounting period.
Actuarial Basis	The estimation technique applied when estimating the liabilities to be recognised for defined benefit pension schemes in the financial statements of an organisation.
Amortised cost	Financial instruments are shown on the balance sheet at amortised cost, being the principal amount of the loan plus or minus the balance of any premium or discount associated with that loan, plus any interest accrued at the balance sheet date.
Audit of Accounts	An audit is an examination by an independent expert of an organisation's financial affairs to check that the relevant legal obligations and codes of practice have been followed.
Balances	Working balances are reserves needed to finance expenditure in advance of income from debtors, precepts and grants. Any excess may be applied, at the discretion of the council, to reduce future demands on the Collection Fund or to meet unexpected costs during the year. Balances on holding accounts and provisions are available to meet expenditure in future years without having adverse effect on revenue expenditure.
Billing Authority	The authority that sets council tax and collects it from council tax payers.
Budget	A financial plan that expresses an organisation's service delivery plans and capital programmes in monetary terms.
Budget Strategy	A document setting out how an organisation is going to meet its policies and priorities, taking into account the resources available to the organisation. This will

STATEMENT OF ACCOUNTS 2021/22

include proposals for efficiency savings and possible service changes or reductions, which may free up resources for use on other policies or priorities.

Capital Expenditure	This is expenditure on items providing benefits to the organisation over more than one year, such as land, buildings or vehicles.
Capital Financing	The raising of money to finance capital expenditure. In the past the cost of capital assets was usually met by borrowing, but capital expenditure may also be financed by other means such as contributions from revenue accounts, the proceeds from the sale of capital assets, and capital grants and contributions from developers or others.
Capital Financing Requirement	The capital financing requirement measures the council's underlying need to borrow for capital purposes.
Capital Grants	Grants received towards capital expenditure on a specific service or project.
Capital Programme	This is a financial plan of the capital expenditure projects that the organisation intends to carry out over a specified time period.
Capital Receipt	This is income resulting from the sale of assets such as land or property. The Government decides what proportion of each capital receipt can be used by the council to finance new capital expenditure. Capital receipts cannot be used to fund revenue expenditure.
Cash & Cash equivalents	Cash in hand plus deposits in banks or building societies, repayable on demand or within 24 hours, and deposits maturing within 3 months of the date taken out.
CIPFA	The Chartered Institute of Public Finance and Accountancy. This is the professional body for accountants working in local government and other public bodies. The Institute provides financial and statistical information services for local government and advises central Government and other bodies on local government and public finance matters.
Collection Fund	This is a statutory fund kept separate from the main accounts of the council. It records all income due from Council Tax and National Non Domestic Rates and shows how that income was shared between central government, the County Council and the Police and Crime Commissioner.
Consistency	One of the fundamental accounting concepts, it requires accountants to treat similar items of income and expenditure in the same way both within an accounting period and from one accounting period to the next.
Contingent Asset	An asset which exists at the balance sheet date where the outcome will be confirmed only on the occurrence or non-occurrence of one or more uncertain future events, for example a claim for compensation that a council is pursuing through the due legal process, where the outcome will only be decided by the decision of the courts.
Contingent Liability	A liability which exists at the balance sheet date where the outcome will be confirmed only on the occurrence or non-occurrence of one or more uncertain future events, for example, the default by a borrower on a loan from a third party for which the council has given a guarantee.
Council Tax	A local tax levied on dwellings within the local authority area. The level of taxation is based on the capital value of the property, which is categorised into one of eight bands from A to H, and the number of people living in the dwelling.

STATEMENT OF ACCOUNTS 2021/22

Creditors	Amounts owed by the council for work done, goods received or services rendered within the accounting period, but for which payment was not made at the balance sheet date.
Current Assets	Assets which can be expected to be consumed or realised during the next accounting period.
Current Liabilities	Amounts which will become due or could be called upon during the next accounting period.
Debtors	An amount due to an organisation within the accounting period not received at the balance sheet date.
Depreciation	A charge made to the revenue account each year that reflects the reduction in value of assets used to deliver services. This is the loss in value of an asset, owing to age, wear and tear, deterioration, or obsolescence.
Employee Costs	These include salaries, wages and employers' national insurance and pension contributions, together with training expenses and charges relating to the index-linking of pensions of former employees.
Estimates	<p>Original estimate: the estimate for the new year approved before the start of the financial year, usually at the previous November's price levels.</p> <p>Revised estimate: the original estimate for the year updated by price changes since it was prepared and by supplementary estimates and virements.</p>
Final Accounts	Accounts prepared for an accounting period, usually in a summarised form. They include a statement showing the net surplus (profit) or deficit (loss) on the provision of services and a balance sheet. They are produced as a record of stewardship for interested parties. Local authorities are required by the Accounts and Audit Regulations 1993 (as amended) to publish a Statement of Accounts at the end of each financial year.
Finance Lease	A lease that transfers substantially all of the risks and rewards of ownership of a non-current asset to the lessee (the person or organisation leasing the asset).
Financial Year	The local authority financial year commences on 1 st April and finishes on 31 st March in the following year.
Government Grants	Grants made by the Government towards either revenue or capital expenditure to help with the cost of providing services and capital projects. Some Government grants have restrictions on how they may be used, whilst others are general purpose.
Impairment	Impairment of an asset is caused by a consumption of economic benefits (e.g. physical damage such as an office fire) or a deterioration in the quality of service provided by the asset (e.g. an industrial unit closing and becoming a storage facility), or by a general fall in prices of that particular asset or class of assets.
Interest	An amount received or paid for the use of a sum of money when it is invested or borrowed.

STATEMENT OF ACCOUNTS 2021/22

International Financial Reporting Standards (IFRS)	Provide the required accounting treatment and disclosure of transactions so that an organisation's financial statements present fairly the financial position of the organisation.
Inventories	Items of raw materials and stores a council has purchased to use on a continuing basis but which have not yet been used.
Joint Venture	An entity in which the reporting authority has an interest on a long-term basis and is jointly controlled by the reporting authority and one or more entities under a contractual or other binding agreement.
Materiality	One of the main accounting concepts, it ensures that the statement of accounts includes all the transactions that, if omitted, would lead to a significant distortion of the financial position at the end of the accounting period.
Minimum Revenue Provision (MRP)	The minimum amount which must be charged to a council's revenue account as a contribution towards the reduction in its overall borrowing requirement. The amount represents that which the council considers to be prudent, taking into account the period over which the borrowing was taken, which is usually equivalent to the life of the asset.
National Non Domestic Rates (NNDR)	An NNDR rate (multiplier) is set annually by central government and is applied to the rateable value of a business to calculate the non-domestic rates collected by Billing Authorities. The rates collected are shared between central government, district and county councils in statutory proportions.
Non-Current Asset	Assets which can be expected to be of use or benefit to the council for more than one accounting period.
Operating Lease	A lease under which the ownership of the asset remains with the lessor (the person or organisation leasing the asset) and is equivalent to contract hiring.
Precepts	The levy made by a precepting authority (County Council, Police Authority, Parish Council) on the billing authority, requiring it to collect income from Council Taxpayers on their behalf.
Provision	A sum of money set aside in the accounts for liabilities or losses that are due but where the amount due or the timing of the payment is not known with certainty.
Revenue Expenditure	Expenditure on the day to day running costs of the council such as wages and salaries, utility costs, repairs and maintenance.
Revenue Expenditure funded from capital under statute (REFCUS)	Expenditure which can by law be financed from capital resources (e.g. capital receipts) but which does not result in a non-current asset for the authority e.g. renovation grants.
Revenue Support Grant	A general grant paid by central Government to local authorities to provide the services that it is responsible for delivering.
Subsidiary	An entity is a subsidiary of the reporting council if the council is able to exercise control over the operating and financial policies of the entity, and is able to gain benefits from the entity or is exposed to the risk of potential losses arising from this control.

CHELtenham
BOROUGH COUNCIL

**Annual Governance Statement
2021/22**

1. Scope of Responsibility

Cheltenham Borough Authority (“the authority”) is responsible for ensuring that:

- Its business is conducted in accordance with the law and proper standards;
- Public money is safeguarded and properly accounted for
- Public money is used economically, efficiently and effectively; and
- There is a sound system of governance, incorporating the system of internal control and risk management

The authority has a Best Value duty under the Local Government Act 1999 to make arrangements to secure continuous improvement in the way in which its functions are exercised, having regard to a combination of economy, efficiency and effectiveness.

In discharging these responsibilities, the authority is responsible for putting in place proper arrangements for the governance of its affairs, facilitating the effective exercise of its functions, and including arrangements for the management of risk.

The authority has developed and approved a code of corporate governance, which is consistent with the core principles and sub-principles as set out in the CIPFA/SOLACE “Delivering Good Governance in Local Government: Framework (2016)” (‘the Framework’). This statement explains how the authority has complied with the code and also meets the requirements of Regulation 6(1)(a) of the Accounts and Audit Regulations 2015 (England) which requires the authority to conduct a review at least once a year on the effectiveness of its system of internal control and include a statement reporting on the review with any published Statement of Accounts.

In addition to this, CIPFA issued its “Statement on the Role of the Chief Finance Officer in Local Government (2015)”. The Annual Governance Statement (AGS) reflects compliance with that Statement for reporting purposes. The Executive Director Finance and Assets is the Statutory Section 151 Officer (S151 Officer) for Cheltenham Borough Council.

In February 2021 CIPFA published Bulletin 06, the Application of the Good Governance Framework 2020/21, which contains guidance concerning the impact of the continuing Covid-19 pandemic on governance in local government bodies and the requirements of the Delivering Good Governance in Local Government Framework 2016 CIPFA and Solace (the Framework). It also takes into account the introduction of the CIPFA Financial Management Code 2019 (FM Code) during 2020/21. This AGS has been prepared taking into account this latest guidance.

2. Purpose of Governance Framework

The governance framework comprises the systems, processes, culture and values, by which the authority is directed and controlled including activities through which it is held accountable by, engages with and leads its communities. It enables the authority to monitor the achievement of its strategic objectives and to consider whether those objectives have led to the delivery of appropriate, cost effective services.

The system of internal control is a significant part of the governance framework and is designed to manage risk to a reasonable level. It cannot eliminate all risk of failure to achieve policies, aims and objectives and can therefore only provide reasonable and not absolute assurance of effectiveness. The system of internal control is based on an on-going process designed to:

- Identify and prioritise the risks to the achievement of the authority’s policies, aims and objectives;
- Evaluate the likelihood of those risks occurring;
- Assess the impact should those risks occur; and
- Manage the risks efficiently, effectively and economically

The governance framework has been in place at the authority for the year ended 31 March 2021 and up to the date of approval of the Annual Statement of Accounts. It should be noted that any changes to CBC arrangements due to COVID19 and the impact on our governance are recorded in this document.

3. Governance Environment

The key elements of the authority’s governance arrangements are outlined in the Local Code of Corporate Governance.

STATEMENT OF ACCOUNTS 2021/22

The governance framework includes arrangements for:

- Identifying and communicating the authority's vision of its purpose and intended outcomes for citizens and service users;
- Reviewing the authority's vision and its implications for the authority's governance arrangements;
- Measuring the quality of services for users, ensuring that they are delivered in accordance with the authority's objectives and ensuring that they represent the best use of resources;
- Defining and documenting the roles and responsibilities of the executive (Cabinet), non- executive, scrutiny and officer functions, with clear delegation arrangements and protocols for effective communication;
- Developing, communicating and embedding codes of conduct, defining the standards of behaviour for members and staff;
- Reviewing and updating Financial Rules, Contract Rules, Constitution, Scheme of Delegation and supporting procedure notes / manuals, which clearly define how decisions are taken and the processes and controls required to manage risks;
- Ensuring effective counter fraud and anti-corruption arrangements are developed and maintained;
- Ensuring the authority's financial management arrangements meet the governance requirements of the *CIPFA Statement on the Role of the Chief Financial Officer in Local Government (2015)*;
- Undertaking the core functions of an Audit Committee, as identified in *CIPFA's Audit Committees: Practical Guidance for Local Authorities*;
- Ensuring compliance with relevant laws and regulations, internal policies and procedures, and that expenditure is lawful;
- Whistleblowing referrals and for receiving and investigating complaints from the public;
- Identifying the development needs of members and senior officers in relation to their strategic roles, supported by the appropriate training;
- Establishing clear channels of communication with all sections of the community and other stakeholders, ensuring accountability and encouraging open consultation; and
- Incorporating good governance arrangements in respect of partnerships, including shared services and other joint working and reflecting these in the authority's overall governance arrangements.

4. Ongoing Impact of COVID19

The Council have continued to face unprecedented challenges over the last 12 months in supporting the boroughs emergence and beginning of the recovery from the Covid-19 pandemic. The national restrictions which were in place, across the country or locally here in Cheltenham, created a huge amount of uncertainty which continued in 2021/22. Reduced capacity due to redeployment of resources, those shielding and self-isolating, constraints resulting from home working, social distancing and the financial impact of the pandemic has meant continued change to how CBC operate and adapt to continue to deliver services.

With the emergence of the Omicron variant over the winter of 2021, the uncertainty continued to impact customer behaviour which had an impact on our financial position and on the town's economy. Only at the point that changes to customer behaviour and the way our services are accessed has started to be understood, we are now faced with the most significant cost of living crisis in a generation.

Monitoring the financial impact of COVID19 has continued through the provision of monthly information to the Department for Levelling Up, Housing and Communities (DLUHC) the online reporting system DELTA. The impact of national restrictions on our commercial income was also closely monitored and regularly reported to Members and the Executive Leadership team. The result of this reporting was that the Cabinet could response early to develop a savings strategy that safeguards the delivery of services over the period of the Medium Term Financial Strategy.

CBC continued to effectively maintain services through its business continuity arrangements, support the emergency response efforts in conjunction with the Local Resilience Forum and lead recovery efforts into 2021.

With the emergence of the Omicron variant over the winter of 2021, the uncertainty continued to impact customer

STATEMENT OF ACCOUNTS 2021/22

behaviour which had an impact on our financial position and on the town's economy. Only at the point that changes to customer behaviour and the way our services are accessed has started to be understood, we are now faced with the most significant cost of living crisis in a generation.

The Changes made during 2020/21 were continued in 2021/22 to build further resilience across CBC to the uncertainty and volatility caused by the pandemic. The impact/effectiveness of the changes are listed underneath each of the principles in the following section of the report.

STATEMENT OF ACCOUNTS 2021/22

5. Principles Framework

The main areas of the authority's governance framework and the assurance on compliance are set out over the next pages under the headings of the core principles and sub-principles from the CIPFA/SOLACE "Delivering Good Governance in Local Government: Framework (2016)".

Governance Principle	Sub-Principle	Assurance on Compliance
Principle A - Behaving with integrity, demonstrating strong commitment to ethical values, and respecting the rule of law	Behaving with integrity	<ul style="list-style-type: none"> The political and executive leadership sets the tone for CBC and ensure that the required policies are put into place and monitored. The Council's Constitution sets out how decisions are made and the procedures that are followed to ensure these are efficient, transparent and accountable to local people. Statutory Officers' responsibilities are defined in the Constitution and are employed in accordance with statutory guidance. The Employee Code of Conduct forms part of the Constitution and set out the behaviours expected of employees. The Members' Code of Conduct forms part of the Constitution and sets out the standards of conduct expected by Members of the Council. The Protocol for Member/Officer Relations is designed to guide Members and Officers of the Council in their relations with one another to maintain the integrity of local government. The standards committee is in place to promote and maintain high standards of conduct and to assist Members and Co-opted Members to observe the Code of Conduct.
	Demonstrating strong commitment to ethical values	<ul style="list-style-type: none"> In accordance with the Localism Act 2011 we have adopted a Code of Conduct for our Councillors that is in keeping with the general principles of public life. All Councillors and co-opted Members undertake that they will observe the Code of Conduct. The Employee Code of Conduct provides guidance to our employees on the ethical framework within which we seek to conduct its activities; and on the processes that the Council uses to ensure compliance with the highest ethical standards. These standards reflect the Nolan Principles which form the basis of the Members' Code of Conduct. The Code of Conduct for Members' requires declarations at meetings to be made by Members where necessary and these declarations are recorded in the minutes of the meeting. A register of gifts and hospitality is maintained.
	Respecting the rule of law	<ul style="list-style-type: none"> The roles and responsibilities of Members and all holders of an office are set out in the authority's Constitution. Codes of Conduct set out the standards of behaviour that are expected of our Councillors and Officers. Should these standards be breached they will be dealt with, either through the standards Committee or, in relation to Officers, action taken under our capability and/or disciplinary procedures. The Whistleblowing Policy adopted by the Council ensures its effectiveness from a safeguarding perspective and to make it easier for staff to raise concerns about malpractice or illegal activity. The Policy contains clear guidance about how to report a concern, who to contact and sources of internal and external support. Internal audit reviews are designed to ensure services are complying with internal and external policies and procedures / statutory legislation. Where non-compliance is identified, this is reported to management and to Members via the Audit, Compliance and Governance Committee.

STATEMENT OF ACCOUNTS 2021/22

		<ul style="list-style-type: none"> • CBC work with a Gloucestershire wide Counter Fraud unit to help prevent and detect fraud and corrupt practices, including abuse of position. The service reports to Audit, Compliance and Governance Committee twice a year. • Throughout 2021/22 the Counter Fraud unit has continued to work closely with our Revenues and Benefits team to ensure that all discretionary grant schemes put in place as a result of COVID19 have sufficient pre and post payment checks and controls in place to give assurance that the COVID19 business grants were paid to eligible business.
--	--	---

Governance Principle	Sub-Principle	Assurance on Compliance
Principle B - Ensuring openness and comprehensive stakeholder engagement	Openness	<ul style="list-style-type: none"> • The annual accounts are published in a timely manner and in accordance with specified timescales so that the financial position and performance of the authority is open to public scrutiny. • Committee meetings, agendas and minutes are published in accordance with the Forward Plan and publication of agendas is done in accordance with the Local Government Act 1972. • Council, Cabinet and Committee reports clearly outline their purpose, so the public can understand what the decision is aiming to achieve. • Council, Cabinet and Committee reports address financial, legal, equalities, risk and sustainability implications to allow public scrutiny and aid Members in their decisions making. • All public meetings that take place in the council chamber are webcast live to the council's YouTube channel. Cabinet and Council meetings remain on this channel for 6 months, while other committees can only be watched live. • Members and the public are able to ask questions at Council, Cabinet and the Overview and Scrutiny Committee. Public questions can be asked at other committee meetings, e.g. Audit, Licensing and Planning. All meetings are held in public unless exempt business is under discussion. • Members of the public are able to speak at Planning Committee. • Overview and Scrutiny committee promotes open and transparent decision-making, democratic accountability and holds the Cabinet to account for its decisions. • Transparency data is published on the website and includes supplier payments, senior management structure charts, annual pay policy statement, and our gender pay gap report for the previous financial year. Where data is not available in the published data sets, instructions are available on how to make a Freedom of Information Request and the procedure that will be followed to answer the request.
	Engaging comprehensively with institutional stakeholders	<ul style="list-style-type: none"> • We engage with large numbers of stakeholders through forums such as Leadership Gloucestershire, Southwest Councils and the Local Government Association. • We have a comprehensive engagement system with statutory stakeholders such as the NHS, Gloucestershire County Council and the Gloucestershire Police. • We are members of the District Councils' Network (DCN) a cross-party member led network of 183 councils.

STATEMENT OF ACCOUNTS 2021/22

		<ul style="list-style-type: none"> We engage with further subject based stakeholders particularly around economic development such as the Cheltenham BID, the Cheltenham Economic Recovery Task Force, The Cheltenham Culture Board and the Local Enterprise Partnership (LEP). As part of the budget setting process consultation takes place through the authority's website and by attendance at meetings of the parish councils and business community by the Executive Director Finance and Assets and Cabinet Member Finance / Leader of the Council. Engagement with staff happens in a number of ways; whole authority staff sessions, directorate team meetings, monthly managers meetings and one-to-one meetings
	Engaging with individual citizens and service users effectively	<ul style="list-style-type: none"> Local focus and community group engagement are undertaken by our strategy and engagement team. Our Solace Partnership comprising of Cheltenham Borough Council, Gloucester City Council and Gloucestershire Constabulary come together with communities to prevent, investigate and tackle anti-social behaviour (ASB) in Cheltenham and Gloucester. The Communications team and our Marketing Cheltenham Team ensure that specific matters are placed in the media and engage with the media over enquiries on specific matters. Engagement and consultation with the public is undertaken through public meetings, surveys and other mechanisms as required throughout the year or around specific topics, e.g. Cheltenham Plan. A Statement on Community Involvement is approved which sets out the opportunities by which the public and organisations can engage with the planning system, including the procedures and methods used to consult on planning applications.

Governance Principle	Sub-Principle	Assurance on Compliance
Principle C - Defining outcomes in terms of sustainable economic, social, and environmental benefits	Defining outcomes	<ul style="list-style-type: none"> The Cheltenham Place Vision document sets out the ambitions, aspirations and actions that the authority, together with its key partners, will take to bring about a thriving town in terms of businesses and their workforces, culture and creativity, people and communities. Our Corporate Plan sets out CBC's purpose, principles and priorities for the future. Guided by an agreed set of principles the priorities in the plan were developed to make the biggest difference to Cheltenham's communities, businesses and residents, in line with Cheltenham's place vision. As Cheltenham continues to recover from the impact of COVID our Recovery Strategy supports both the place vision and our corporate plan. The Borough has a statutory development plan in place made up of the Gloucester, Cheltenham and Tewkesbury Joint Strategic Plan (adopted 2017) and The Cheltenham Plan (adopted 2020), together these plans make provision for the long term growth of our area delivering sustainable, social and environmental benefits across the Borough up to 2031. The Council is updating its Local Development Scheme, which sets out the key milestones for the preparation of its statutory development plan, as required by the Planning and Compulsory Purchase Act 2004 (as amended). The key milestones over the coming year include a new draft JCS that presents clear spatial options and updated policy that looks to 2041 and the start of the scoping work on the review of the Cheltenham Plan; <ul style="list-style-type: none"> JCS – agreement of preferred options by the JCS councils and consultation by Spring 2023, and Cheltenham Plan – Issues and options consultation by Spring 2023

STATEMENT OF ACCOUNTS 2021/22

		<ul style="list-style-type: none"> The Local Development Scheme references a review of the Councils Supplementary Planning Documents, this review will be completed by summer 2022 and a programme of preparation and/or review agreed. During 2022/23 we also envisage two neighbourhood plans reaching their concluding milestones.
	Sustainable economic, social and environmental benefits	<ul style="list-style-type: none"> Following the Council's Cabinet formally declaring a climate emergency in July 2019 in 2020/21 specific funding was made in the budget to start work on both CBC and Cheltenham becoming carbon neutral by 2030. Changes were made to Cabinet portfolios with the Leader assigning two new posts, one covering economy and development and, the other covering climate and communities.

Governance Principle	Sub-Principle	Assurance on Compliance
Principle D - Determining the interventions necessary to optimise the achievement of the intended outcomes	Determining interventions	<ul style="list-style-type: none"> A mixed economy approach to service delivery is in place to deliver the priority outcomes of Members. To operate within a more constrained financial cost base CBC has over a number of years created a number of new organisations to deliver services once provided in house. Each partner service is assigned a client officer who undertakes frequent and direct liaison with the service provider and monitors the contract performance and delivery. Each member of the Executive Leadership Team holds accountability for one of these services and provides the strategic guidance and support to the client officers. Executive Leadership Team and client officers keep relevant Cabinet members apprised of commissioned service performance as well as Cabinet Members being engaged directly in performance meetings with commissioned service providers. Regular Peer Reviews are undertaken for quality assurance and the latest review undertaken measured CBC's response to COVID and commended the positive action taken by the council in this area. CBC have an Overview and Scrutiny Committee whose role it is to deliver measurable outcomes which benefit the effectiveness of the Authority and the community.
	Planning interventions	<ul style="list-style-type: none"> Performance, audit, risk and finance information is used to identify areas of concern and plan required interventions. Corporate risks are considered by the Executive Leadership Team on a monthly basis. Operational risks are monitored and managed at Manager level. Any strategic risks scoring 16 or more are escalated to the corporate risk register discussed by the Leadership Team and considered by members of the Cabinet. Outcomes are monitored on a regular basis and open to scrutiny and programmes/projects which have a formal programme/project structure are required to be placed on our Clearview system and reported upon to the Executive Leadership Team at regular intervals. Our Corporate Leadership Team has strategic oversight of major issues affecting the Council with a well-developed forward plan. Budget monitoring is designed to capture and incorporate internal & external factors and to enable the authority to respond appropriately.

STATEMENT OF ACCOUNTS 2021/22

	Optimising achievement of intended outcomes	<ul style="list-style-type: none"> • We continue to work on achieving the aims of our commercial strategy that sets out the authority's ambition to be an enterprising and commercially focused authority which will be even more important in the future following COVID19. • CBC's approach to drive down the Council's net costs and increase income via a commercial mind-set with the aim to hold down council tax as far as possible, now and in the longer term helps the Authority protect frontline services from cuts which is exceptionally important following COVID19. • The drive towards financial sustainability includes identifying new opportunities to generate income and investment in projects that provide good financial returns. The Director of Finance and Assets oversees all commercial work to ensure it fits with our role as a council and within our financial framework. • During 2021 CBC's Capital Strategy 2022 to 2023, Investment Strategy 2022 to 2023 and Treasury Management Strategy 2022 to 2023 were refreshed and approved by full council in March 2022. • The authority's budgets are prepared annually in accordance with objectives, strategies and the MTFS is finalised following consultation with Members, customers, stakeholders and officers. • Financial stewardship in respect of both capital and revenue proposals is reviewed and challenged by the Budget Scrutiny Working Group and considered regularly by the Executive Leadership Team. • The MTFS is a live document and is updated as necessary, to respond to the changing environment and in such circumstances would be discussed by the Executive Leadership Team to determine any necessary mitigating actions that would then be discussed with the Cabinet.
--	--	---

Governance Principle	Sub-Principle	Assurance on Compliance
Principle E - Developing the entity's capacity, including the capability of its leadership and the individuals within it	Developing the entity's capacity	<ul style="list-style-type: none"> • The Head of Paid Service is responsible for the organisation of the staff. • Leadership and Management is delivered through the Senior Leadership Team consisting of the Executive Directors along with leads from Finance, Legal, Governance, Risk, Economic Development and Climate change to ensure proper oversight of the whole business. The Senior Leadership Team meet once a week and have leadership / manager briefing on a monthly basis. Monthly all staff webinars are in place and are utilised not only for knowledge sharing but as a development opportunity on a wide range of topics e.g. change management. • During 2021/22 our new performance management approach, using our Learning Management System, was tested and implementation commenced. Our aim is have in place a modern, flexible, effective, approach to 1:1 conversations with our people about performance and development. • During 2021/22 we continued to work on our organisational review to ensure our resources were structured to deliver our corporate plan over the next five years and the proposed changes were approved by council in March 2022. • Publica support services continue to provide services to CBC in the areas of Human Resources, some Finance and ICT and once again during the past year we have worked with our Publica Health and Safety partners to help us adopt safe working practices that continued to adhere to changing government guidance. • During the past year we have also strengthened our finance team following a decision in 2020/21 to bring back in house the majority of the finance function being undertaken by Publica.

STATEMENT OF ACCOUNTS 2021/22

		<ul style="list-style-type: none"> To further develop our operational services and capability a procurement exercise has been completed to secure a new digital platform aimed at improve services to our residents and businesses.
	Developing the capability of the entity's leadership and other individuals	<ul style="list-style-type: none"> We have a programme of training available for both Councillors and Officers at all levels. All new employees take part in an induction programme and ongoing staff development needs are identified through our system of 1:1 meetings There is mandatory compliance training for all staff and members on key items and policies via our Learning Management System and this includes training on Equality, Diversity and Inclusion. Professional members of staff are required to undertake additional training requirements (continuing professional development) as set by their professional bodies. We continue to run a range of leadership programmes for our people designed to give them behaviours and skills for the future. Our executive leadership team have undertaken a 360 review to gather insights from a wide range of individuals and stakeholders who have given their views on their leadership and management competencies. The results of these reviews will be used to put in place development plans to ensure the team has the required level of skills and behaviours to lead the council and drive organisational performance. All new Members undertake a comprehensive Members induction programme that is delivered after each borough election (i.e. every 2 years). New Members are matched with a senior officer under a "buddy" system to provide practical support as they develop into their roles. Training is provided for Members on an ongoing basis as appropriate and necessary. Members on certain committees (e.g. Planning and Licensing) are required to undertake initial and ongoing "top up" training in order to take their place on the committee. During the last year Members have undertaken learning and development in a number of areas including Data Protection, FOI, Flooding, CERTF, Emergency Planning, Carbon Foot Printing and Environmental Crime. The authority is a member of the Local Government Association who provide individual mentoring and support to Members and officers as necessary or requested.

Governance Principle	Sub-Principle	Assurance on Compliance
Principle F - Managing risks and performance through robust internal control and strong public financial management	Managing risk	<ul style="list-style-type: none"> Our Risk Management Policy are in place and subject to regular review. Considerable work has taken place during the year to embed the framework more consistently across our key programmes and projects. Officers are required to maintain the CBC Service / Operational Risk Registers and the Executive Leadership Team and Informal Cabinet reviews the corporate risk register on a monthly basis. Any strategic level risks that score 16 or above are incorporated in the corporate risk register. The Audit, Compliance and Governance Committee reviews and approves the Risk Management Policy on a regular basis. Risks are identified when undertaking Internal Audit reviews and reported when necessary. A risk-based Audit Plan is drafted annually following consultation with Officers, Members and the Executive Director Finance and Assets. The Audit Plan is approved at Audit, Compliance and Governance Committee prior to the financial year.

STATEMENT OF ACCOUNTS 2021/22

	Managing performance	<ul style="list-style-type: none"> • Organisational performance against the authority's corporate plan objectives is reviewed by the Leadership Team to ensure key programmes of work remain on track to achieve CBC goals and objectives. • Principal performance KPI's and targets are being developed throughout the organisation and captured within our organisational performance management system, Clearview. • Scorecards for individual services areas, Leadership Team and Cabinet will be developed during 2022/3. • Individual programmes and projects have their own targets and performance expectations and are reported via the programme/project boards as required. • Programmes and Projects are tracked through our Clearview system and reported to the Leadership Team.
	Robust internal control	<ul style="list-style-type: none"> • CBC corporate governance group meets on a quarterly basis, chaired by the Executive Director of People and Change, and its attendees are the other statutory officers, internal audit, counter fraud, risk management and Human Resources. • Assurance is gained through regular internal audits and reporting. • External Audit recommendations are reported to Audit, Compliance and Governance Committee following the completion of their annual audit process with follow-ups of recommendations also reported. Any recommendations are incorporated into the planning for the next years Audit. • Internal Audit is delivered through SWAP Internal Audit Services (SWAP) and processes ensure compliance with Public Sector Internal Auditing Standards. • Internal Audit agreed actions are followed up and reported to Audit, Compliance and Governance Committee with further follow up being reported where agreed actions have not been implemented in full. • Copies of all Internal Audit reports are provided to the Executive Director Finance and Assets and / or Executive Director People and Change who ensures that other relevant Directors and Officers are made aware of any significant issues or recommendations. • Audit reports, once completed are discussed with the service manager. Executive summaries, including findings, and progress on the Annual Plan are reported to Audit, Compliance and Governance Committee, on a quarterly basis. • Agreed Actions made in audit reports are followed up one month after the agreed target implementation date. High priority agreed actions are reported to Audit, Compliance and Governance Committee with quarterly updates on progress. • A Counter Fraud Unit supports all the Gloucestershire Local Authorities, West Oxfordshire District Council and other third parties. Where investigations identify possible improvements to the internal control framework, the Counter Fraud Unit will liaise with the Internal Audit Team to ensure the improvements are followed up and implemented by Management. • During 2021/2 the Counter Fraud team have continued to work with CBC to ensure that COVID19 grant payments are only made to qualifying organisations to reduce the risk fraud.

STATEMENT OF ACCOUNTS 2021/22

	Managing data	<ul style="list-style-type: none"> • Our Data Protection Policy provides a framework for all other Information security and Information Management Policies all of which are available to all data users on the Council's intranet. • These policies also provide the responsibilities and accountabilities for the roles of the Data Protection Officer, Senior Information Risk Officer (SIRO) and the Single Point of Contact (SPoC). • All officers and Councillors are required to undertake mandatory e-Learning training on information governance. • The importance of reporting breaches of Data Protection legislation is well publicised and individual officers are welcomed when they come forward to report incidents. • The authority is part of the Gloucestershire Information Sharing Partnership. This will enable data to be shared when necessary. • Audit reviews ensure data is held securely whether electronic or hard-copy.
	Strong public financial management	<ul style="list-style-type: none"> • The Finance Strategy sets the overall direction for how we will fund our activities and invest in the future. • We have a budget setting process with the Budget and Medium Term Financial Plan decided annually by Council. • We have in place a statutory Section 151 Officer with finance teams that support the budget holders. • The MTFS is reviewed and updated on a regular basis so that Members and ELT are aware of the financial standing of the authority in terms of delivering against cost reduction or revenue raising targets. • Performance against budget is reported to Cabinet and any significant variances explained. • Financial Procedure Rules and Contract Procedure Rules are in place and regularly updated. • The Statement of Accounts is produced and published annually in accordance with statutory legislation. • Aligned with the accounts the production of this Annual Governance Statement that identifies how the authority has met its governance reporting obligations.

Principle G - Implementing good practices in transparency, reporting, and audit to deliver effective accountability	Implementing good practice in transparency	<ul style="list-style-type: none"> • Agendas for all Council meetings are publicly available on website and meetings are accessible on YouTube. • Performance monitoring reports considered by Overview and Scrutiny are published on the authority's website in accordance with publication standards and guidelines. • Data in respect of transparency is published on the authority's website. • We have a Whistleblowing Policy in place.
	Implementing good practices in reporting	<ul style="list-style-type: none"> • We have in place comprehensive procedures for the making of decisions, either by Full Council, Committee, Cabinet or individual decisions made by Directors and Cabinet Members. • All reports are taken through Democratic Services and require clearance by Legal, Finance, HR and Property/Assets and risk implications for every report are identified. • Reports for Council, Committees and Cabinet business and minutes of these meetings are available on our website, save for reports which contain information that is exempt from publication.

STATEMENT OF ACCOUNTS 2021/22

	Assurance and effective accountability	<ul style="list-style-type: none">• The Constitution sets out the executive arrangements and the roles and responsibilities of the Leader of the Cabinet, the Cabinet and each of the Cabinet Members individually and the roles and responsibilities of other Council Members.• The Constitution sets out the functions of Council, Cabinet and the various committees.• We have an effective Oversight and Scrutiny function whose responsibilities are also set out in the Constitution.• The principal roles and responsibilities of the Chief Executive and senior officers, including the Chief Financial Officer (Section 151 Officer) and the Monitoring Officer, are also set out in the Constitution.• Internal Audit processes ensure compliance with Public Sector Internal Auditing Standards. Internal Audit agreed actions are followed-up and reported to Audit Committee, further follow-up is planned if agreed actions have not been implemented in full.
--	---	--

6. Review of Effectiveness

The authority has responsibility for conducting, at least annually, a review of the effectiveness of its governance framework including the system of internal control. The review of effectiveness is informed by the work of the senior managers, the annual opinion from the Head of Internal Audit, the officer Corporate Governance Groups and comments made by the external auditors, other review agencies and inspectorates.

The authority's process for maintaining and reviewing the effectiveness of the governance framework has included the following:

- Directors complete an Annual Assurance Statement at the end of each financial year. These governance declarations provide appropriate management assurance that key elements of the system of internal control are in place and are working effectively and help to identify areas for improvement.
- Annual Assurance Statements are also completed by Client Officers in respect of external service providers, The Cheltenham Trust, One Legal, Publica, Ubico and CBH.
- Where the assurance review highlights elements that do not fully or partially meet the systems of internal control then the Directors and Client officers explain what action needs to be taken within an agreed timeframe.
- ELT review the Corporate Risk Register on a monthly basis and service risk registers are managed by each manager.
- The SWAP Assistant Director (Head of Internal Audit) provides the Audit, Compliance and Governance Committee, as the Committee charged with governance, with an Annual Opinion on the control environment of the authority, which includes its governance arrangements.
- Investigation of, and decisions on, allegations of failure to comply with Members Code of Conduct are considered and determined through processes involving the Monitoring Officer/Independent Person(s)/Standards Committee/Sub-Committee as set out in the Constitution.
- The Executive Director Finance and Assets ensures training and awareness sessions are carried out for the Audit, Compliance and Governance Committee periodically.
- The External Auditors (Grant Thornton) present progress reports to the Audit, Compliance and Governance Committee. The Chief Executive and Executive Director Finance and Assets attend audit liaison meetings with the external auditors on a regular basis.
- The External Auditor's Annual Report and follow-up of management responses to issues raised in the Letter or other reports are overseen by the Audit, Compliance and Governance Committee.
- Performance with regard to achievement of corporate priorities, budgets and risk are reported and monitored as outlined in this statement.
- The Audit, Compliance and Governance Committee review the Annual Governance Statement.
- The Audit, Compliance and Governance Committee review the Annual Statement of Accounts and reports from both Internal Audit (SWAP) and External Audit (Grant Thornton), including quarterly progress reports.
- Council approves the annual budget, reviews and approves the Treasury Management Strategy.
- Internal Audit monitors the quality and effectiveness of systems of internal control. Audit reports include an opinion that provides management with an independent judgement on the adequacy and effectiveness of internal controls. Reports including agreed actions for improvement are detailed in an action plan agreed with the relevant Executive Director/Service Manager.

Audit statement – 'On the balance of our 2021/22 audit work for Cheltenham Borough Council, enhanced by the work of external agencies, I am able to offer a **Low Substantial Assurance** opinion in respect of the areas reviewed during the year.'

7. Significant Governance Issues During 2020/2021

In preparing the 2020/2021 statement and reviewing the effectiveness of the governance arrangements there were no significant governance issues identified.

8. Significant Governance Issues During 2021/2022

In preparing the 2021/2022 statement and reviewing the effectiveness of the governance arrangements there were no significant governance issues identified.

9. Approval of Leader and Chief Executive

STATEMENT OF ACCOUNTS 2021/22

We have been advised on the implications of the result of the review of the effectiveness of the governance framework by the Audit, Compliance and Governance Committee, and that the arrangements continue to be regarded as fit for purpose in accordance with the governance framework.

Signed on behalf of Cheltenham Borough Council:

Rowena Hay
Leader of the Authority

Date: 3 October 2023

Gareth Edmundson
Chief Executive

Date: 3 October 2023

Independent auditor's report to the members of Cheltenham Borough Council

Report on the Audit of the Financial Statements

Opinion on financial statements

We have audited the financial statements of Cheltenham Borough Council (the 'Authority') and its subsidiaries (the 'group') for the year ended 31 March 2022 which comprise the Comprehensive Income and Expenditure Statement, the Balance Sheet, the Movement in Reserves Statement, the Cash Flow Statement, the Collection Fund – Income and Expenditure Statement, the Group Comprehensive Income and Expenditure Statement, the Group Balance Sheet, the Group Statement of Movement in Reserves and the Group Cash Flow Statement, the Housing Revenue Account Income and Expenditure Statement, the Movement on the HRA Statement and notes to the financial statements, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and the CIPFA/LASAAC Code of practice on local authority accounting in the United Kingdom 2021/22.

In our opinion, the financial statements:

- give a true and fair view of the financial position of the group and of the Authority as at 31 March 2022 and of the group's expenditure and income and the Authority's expenditure and income for the year then ended;
- have been properly prepared in accordance with the CIPFA/LASAAC Code of practice on local authority accounting in the United Kingdom 2021/22; and
- have been prepared in accordance with the requirements of the Local Audit and Accountability Act 2014.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law, as required by the Code of Audit Practice (2020) ("the Code of Audit Practice") approved by the Comptroller and Auditor General. Our responsibilities under those standards are further described in the 'Auditor's responsibilities for the audit of the financial statements' section of our report. We are independent of the group and the Authority in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

We are responsible for concluding on the appropriateness of the Executive Director - Finance & Assets' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Authority or group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify the auditor's opinion. Our conclusions are based on the audit evidence obtained up to the date of our report. However, future events or conditions may cause the Authority or the group to cease to continue as a going concern.

In our evaluation of the Executive Director - Finance & Assets' conclusions, and in accordance with the expectation set out within the CIPFA/LASAAC Code of practice on local authority accounting in the United Kingdom 2021/22 that the Authority and group's financial statements shall be prepared on a going concern basis, we considered the inherent risks associated with the continuation of services provided by the group and the Authority. In doing so we had regard to the guidance provided in Practice Note 10 Audit of financial statements and regularity of public sector bodies in the United Kingdom (Revised 2020) on the application of ISA (UK) 570 Going Concern to public sector entities. We assessed the reasonableness of the basis of preparation used by the group and Authority and the group and Authority's disclosures over the going concern period.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Authority's or the group's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

In auditing the financial statements, we have concluded that the Executive Director - Finance & Assets' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

The responsibilities of the Executive Director - Finance & Assets with respect to going concern are described in the 'Responsibilities of the Authority's Executive Director - Finance & Assets and Those Charged with Governance for the financial statements' section of this report.

Other information

The Executive Director - Finance & Assets is responsible for the other information. The other information comprises the information included in the Statement of Accounts, other than the financial statements, and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of the other information, we are required to report that fact.

We have nothing to report in this regard.

Other information we are required to report on by exception under the Code of Audit Practice

Under the Code of Audit Practice published by the National Audit Office in April 2020 on behalf of the Comptroller and Auditor General (the Code of Audit Practice) we are required to consider whether the Annual Governance Statement does not comply with 'delivering good governance in Local Government Framework 2016 Edition' published by CIPFA and SOLACE or is misleading or inconsistent with the information of which we are aware from our audit. We are not required to consider whether the Annual Governance Statement addresses all risks and controls or that risks are satisfactorily addressed by internal controls.

We have nothing to report in this regard.

Opinion on other matters required by the Code of Audit Practice

In our opinion, based on the work undertaken in the course of the audit of the financial statements and our knowledge of the Authority, the other information published together with the financial statements in the Statement of Accounts for the financial year for which the financial statements are prepared is consistent with the financial statements.

Matters on which we are required to report by exception

Under the Code of Audit Practice, we are required to report to you if:

- we issue a report in the public interest under section 24 of the Local Audit and Accountability Act 2014 in the course of, or at the conclusion of the audit; or
- we make a written recommendation to the Authority under section 24 of the Local Audit and Accountability Act 2014 in the course of, or at the conclusion of the audit; or
- we make an application to the court for a declaration that an item of account is contrary to law under Section 28 of the Local Audit and Accountability Act 2014 in the course of, or at the conclusion of the audit; or
- we issue an advisory notice under Section 29 of the Local Audit and Accountability Act 2014 in the course of, or at the conclusion of the audit; or

- we make an application for judicial review under Section 31 of the Local Audit and Accountability Act 2014, in the course of, or at the conclusion of the audit.

We have nothing to report in respect of the above matters.

Responsibilities of the Authority, the Executive Director - Finance & Assets and Those Charged with Governance for the financial statements

As explained in the Statement of Responsibilities for the Statement of Accounts, the Authority is required to make arrangements for the proper administration of its financial affairs and to secure that one of its officers has the responsibility for the administration of those affairs. In this authority, that officer is the Executive Director - Finance & Assets. The Executive Director - Finance & Assets is responsible for the preparation of the Statement of Accounts, which includes the financial statements, in accordance with proper practices as set out in the CIPFA/LASAAC Code of practice on local authority accounting in the United Kingdom 2021/22, for being satisfied that they give a true and fair view, and for such internal control as the Executive Director - Finance & Assets determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Executive Director - Finance & Assets is responsible for assessing the Authority's and the group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless there is an intention by government that the services provided by the Authority and the group will no longer be provided.

The Audit, Compliance and Governance Committee is Those Charged with Governance. Those Charged with Governance are responsible for overseeing the Authority's financial reporting process.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Explanation as to what extent the audit was considered capable of detecting irregularities, including fraud

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. Owing to the inherent limitations of an audit, there is an unavoidable risk that material misstatements in the financial statements may not be detected, even though the audit is properly planned and performed in accordance with the ISAs (UK).

The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below:

- We obtained an understanding of the legal and regulatory frameworks that are applicable to the group and Authority and determined that the most significant, which are directly relevant to specific assertions in the financial statements, are those related to the reporting frameworks (international accounting standards as interpreted and adapted by the CIPFA/LASAAC Code of practice on local authority accounting in the United Kingdom 2021/22, The Local Audit and Accountability Act 2014, the Accounts and Audit Regulations 2015 and the Local Government Act 2003.
- We enquired of senior officers and the Audit, Compliance and Governance Committee, concerning the group and Authority's policies and procedures relating to:
 - the identification, evaluation and compliance with laws and regulations;

- the detection and response to the risks of fraud; and
- the establishment of internal controls to mitigate risks related to fraud or non-compliance with laws and regulations.
- We enquired of senior officers, internal audit and the Audit, Compliance and Governance Committee, whether they were aware of any instances of non-compliance with laws and regulations or whether they had any knowledge of actual, suspected or alleged fraud.
- We assessed the susceptibility of the Authority and group's financial statements to material misstatement, including how fraud might occur, by evaluating officers' incentives and opportunities for manipulation of the financial statements. This included the evaluation of the risk of management override of controls, we determined that the principal risks were in relation to:
 - material post close date journals
 - journals posted without a description, by the senior officers or by users who seldom post journals
 - forward posted journals.
- Our audit procedures involved:
 - evaluation of the design effectiveness of controls that the Executive Director - Finance & Assets has in place to prevent and detect fraud;
 - journal entry testing, with a focus on the above-mentioned principal risks as well as other risk factors determined by the engagement team;
 - challenging assumptions and judgements made by management in its significant accounting estimates in respect valuation of land and buildings, council dwellings, investment properties and surplus assets, defined benefit pensions liability valuations, depreciation and fair value estimates
 - assessing the extent of compliance with the relevant laws and regulations as part of our procedures on the related financial statement item.
- These audit procedures were designed to provide reasonable assurance that the financial statements were free from fraud or error. The risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error and detecting irregularities that result from fraud is inherently more difficult than detecting those that result from error, as fraud may involve collusion, deliberate concealment, forgery or intentional misrepresentations. Also, the further removed non-compliance with laws and regulations is from events and transactions reflected in the financial statements, the less likely we would become aware of it.
- The team communications in respect of potential non-compliance with relevant laws and regulations, including the potential for fraud in revenue and expenditure recognition, and the significant accounting estimates related to land and buildings, investment property and defined benefit pensions liability valuations.
- Our assessment of the appropriateness of the collective competence and capabilities of the group and Authority's engagement team included consideration of the engagement team's and component auditors':
 - understanding of, and practical experience with audit engagements of a similar nature and complexity through appropriate training and participation
 - knowledge of the local government sector
 - understanding of the legal and regulatory requirements specific to the Authority and group including:
 - the provisions of the applicable legislation
 - guidance issued by CIPFA, LASAAC and SOLACE
 - the applicable statutory provisions.
- In assessing the potential risks of material misstatement, we obtained an understanding of:
 - the Authority and group's operations, including the nature of its income and expenditure and its services and of its objectives and strategies to understand the classes of transactions, account

balances, expected financial statement disclosures and business risks that may result in risks of material misstatement.

- The Authority and group's control environment, including the policies and procedures implemented by the Authority and group to ensure compliance with the requirements of the financial reporting framework.
- For components at which audit procedures were performed, we requested component auditors to report to us instances of non-compliance with laws and regulations that gave rise to a risk of material misstatement of the group financial statements. No such matters were identified by the component auditors.

Report on other legal and regulatory requirements – the Authority's arrangements for securing economy, efficiency and effectiveness in its use of resources

Matter on which we are required to report by exception – the Authority's arrangements for securing economy, efficiency and effectiveness in its use of resources

Under the Code of Audit Practice, we are required to report to you if, in our opinion, we have not been able to satisfy ourselves that the Authority has made proper arrangements for securing economy, efficiency and effectiveness in its use of resources for the year ended 31 March 2022.

Our work on the Authority's arrangements for securing economy, efficiency and effectiveness in its use of resources is not yet complete. The outcome of our work will be reported in our commentary on the Authority's arrangements in our Auditor's Annual Report. If we identify any significant weaknesses in these arrangements, these will be reported by exception in a further auditor's report. We are satisfied that this work does not have a material effect on our opinion on the financial statements for the year ended 31 March 2022.

Responsibilities of the Authority

The Authority is responsible for putting in place proper arrangements for securing economy, efficiency and effectiveness in its use of resources, to ensure proper stewardship and governance, and to review regularly the adequacy and effectiveness of these arrangements.

Auditor's responsibilities for the review of the Authority's arrangements for securing economy, efficiency and effectiveness in its use of resources

We are required under Section 20(1)(c) of the Local Audit and Accountability Act 2014 to be satisfied that the Authority has made proper arrangements for securing economy, efficiency and effectiveness in its use of resources. We are not required to consider, nor have we considered, whether all aspects of the Authority's arrangements for securing economy, efficiency and effectiveness in its use of resources are operating effectively.

We undertake our review in accordance with the Code of Audit Practice, having regard to the guidance issued by the Comptroller and Auditor General in December 2021. This guidance sets out the arrangements that fall within the scope of 'proper arrangements'. When reporting on these arrangements, the Code of Audit Practice requires auditors to structure their commentary on arrangements under three specified reporting criteria:

- Financial sustainability: how the Authority plans and manages its resources to ensure it can continue to deliver its services;
- Governance: how the Authority ensures that it makes informed decisions and properly manages its risks; and
- Improving economy, efficiency and effectiveness: how the Authority uses information about its costs and performance to improve the way it manages and delivers its services.

We document our understanding of the arrangements the Authority has in place for each of these three specified reporting criteria, gathering sufficient evidence to support our risk assessment and

commentary in our Auditor's Annual Report. In undertaking our work, we consider whether there is evidence to suggest that there are significant weaknesses in arrangements.

Report on other legal and regulatory requirements – Delay in certification of completion of the audit

We cannot formally conclude the audit and issue an audit certificate for Cheltenham Borough Council for the year ended 31 March 2022 in accordance with the requirements of the Local Audit and Accountability Act 2014 and the Code of Audit Practice until we have completed our work on the Authority's arrangements for securing economy, efficiency and effectiveness in its use of resources and issued our Auditor's Annual Report.

We are satisfied that this work does not have a material effect on the financial statements for the year ended 31 March 2022.

Use of our report

This report is made solely to the members of the Authority, as a body, in accordance with Part 5 of the Local Audit and Accountability Act 2014 and as set out in paragraph 43 of the Statement of Responsibilities of Auditors and Audited Bodies published by Public Sector Audit Appointments Limited. Our audit work has been undertaken so that we might state to the Authority's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Authority and the Authority's members as a body, for our audit work, for this report, or for the opinions we have formed.

Bristol

3 October 2023

Independent auditor's report to the members of Cheltenham Borough Council

In our auditor's report issued on 3 October 2023, we explained that we could not formally conclude the audit and issue an audit certificate for the Authority for the year ended 31 March 2022, in accordance with the requirements of the Local Audit and Accountability Act 2014 and the Code of Audit Practice, until we had:

- Completed our work on the Authority's arrangements for securing economy, efficiency and effectiveness in its use of resources. We have now completed this work, and the results of our work are set out below.

Opinion on the financial statements

In our auditor's report for the year ended 31 March 2022 issued on 3 October 2023 we reported that, in our opinion the financial statements:

- give a true and fair view of the financial position of the group and of the Authority as at 31 March 2022 and of the group's expenditure and income and the Authority's expenditure and income for the year then ended;
- have been properly prepared in accordance with the CIPFA/LASAAC Code of practice on local authority accounting in the United Kingdom 2021/22; and
- have been prepared in accordance with the requirements of the Local Audit and Accountability Act 2014.

No matters have come to our attention since that date that would have a material impact on the financial statements on which we gave this opinion.

Report on other legal and regulatory requirements - the Authority's arrangements for securing economy, efficiency and effectiveness in its use of resources

Matter on which we are required to report by exception – the Authority's arrangements for securing economy, efficiency and effectiveness in its use of resources

Under the Code of Audit Practice, we are required to report to you if, in our opinion, we have not been able to satisfy ourselves that the Authority has made proper arrangements for securing economy, efficiency and effectiveness in its use of resources for the year ended 31 March 2022.

We have nothing to report in respect of the above matter.

Responsibilities of the Authority

The Authority is responsible for putting in place proper arrangements for securing economy, efficiency and effectiveness in its use of resources, to ensure proper stewardship and governance, and to review regularly the adequacy and effectiveness of these arrangements.

Auditor's responsibilities for the review of the Authority's arrangements for securing economy, efficiency and effectiveness in its use of resources

We are required under Section 20(1)(c) of the Local Audit and Accountability Act 2014 to be satisfied that the Authority has made proper arrangements for securing economy, efficiency and effectiveness in its use of resources. We are not required to consider, nor have we considered, whether all aspects of the Authority's arrangements for securing economy, efficiency and effectiveness in its use of resources are operating effectively.

We have undertaken our review in accordance with the Code of Audit Practice, having regard to the guidance issued by the Comptroller and Auditor General in December 2021. This guidance sets out the arrangements that fall within the scope of 'proper arrangements'. When reporting on these arrangements, the Code of Audit Practice requires auditors to structure their commentary on arrangements under three specified reporting criteria:

- Financial sustainability: how the Authority plans and manages its resources to ensure it can continue to deliver its services;
- Governance: how the Authority ensures that it makes informed decisions and properly manages its risks; and
- Improving economy, efficiency and effectiveness: how the Authority uses information about its costs and performance to improve the way it manages and delivers its services.

We documented our understanding of the arrangements the Authority has in place for each of these three specified reporting criteria, gathering sufficient evidence to support our risk assessment and commentary in our Auditor's Annual Report. In undertaking our work, we have considered whether there is evidence to suggest that there are significant weaknesses in arrangements.

Report on other legal and regulatory requirements – Audit certificate

We certify that we have completed the audit of Cheltenham Borough Council for the year ended 31 March 2022 in accordance with the requirements of the Local Audit and Accountability Act 2014 and the Code of Audit Practice.

Use of our report

This report is made solely to the members of the Authority, as a body, in accordance with Part 5 of the Local Audit and Accountability Act 2014 and as set out in paragraph 43 of the Statement of Responsibilities of Auditors and Audited Bodies published by Public Sector Audit Appointments Limited. Our audit work has been undertaken so that we might state to the Authority's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Authority and the Authority's members as a body, for our audit work, for this report, or for the opinions we have formed.
